SPEAKS ON RUSSIA BEFORE LOCAL HIGH SCHOOL GROUP

E. C. Ramsey, member of the Research Department of the American-European News Feature Service, spoke to the local High school last Thursday. Three years ago he spoke here concerning the Five Year Plan adopted by the Soviet Government, and last Thursday he spoke of the general conditions after three years under that plan. Ramsey claimed Russia is undergoing a great social change, and the Government is nothing more than an experiment—that any type of government may result from it. There is only one political party in Russia, the Communists, who comprise 2,000,000 of the 160,000,000 people in Russia. There is absolutely no opposition to that party as they completely dominate politics with force.

In Russia, Ramsey told, the factory has taken the place of the church, and a social purpose has taken the place of faith in God. Communists are instilling anti-religion in the hearts of the people. Children are taught in the schools that God is a myth, and that man aided by science can be supreme. The entire social order in Russia is hinged upon their factories, which is the most important thing in their Five Year Plan. Due to the high percentage of illiteracy and the absence of religion, immorality is prevalent in Russia. Their divorce laws are very lax and formal marriage is unnecessary until the birth of children. Motherhood is exalted, but birth control is not only legalized, but actually encouraged. When the children are born they are reared by the Government in their Communistic nurseries.

Ramsey stated that the Russian educational system is perhaps the most perverted of all their changes. They are wide-spread education, supervised by the National Government, but allows local autonomy. The main purpose of their education is to equip the people for Communism, and in so doing falsify all capitalistic achievements throughout the world. They welcome American ideas to better their own system, but denounce American ideals and customs.

The talk was very entertaining and educational throughout. He used many charts, pictures, maps, etc., that were smuggled from Russia, to illustrate his talk. Ramsey also exhibited several dolls to show the variety of dress in different parts of Russia.

DEATHS.

The Late Capt. William H. Fry.

Capt. William H. Fry, after an illness of several weeks, died at his home at Pine Grove Mills, on Saturday, shortly after the noon hour. Interment was made in Pine Grove Mills cemetery, Wednesday afternoon.

The funeral services were in direct charge of the deceased's pastor, Rev. J. M. Kirkpatrick. Other ministers present were Rev. Brown, Rev. Wink and Rev. English.

Capt. Fry was born in Ferguson township, on a farm near Pine Grove Mills, where he continued to live for almost his entire life.

He was a son of Conrad and Mary Ann (Custenbender) Fry, who came from Northampton county. The grandparents were born in Germany, the grandfather having been a soldier of the War of 1812.

Capt. Fry secured a good education in the Pine Grove Academy, Oct. 1, 1861. He enlisted in Company E, 45th P. V. I. At the battle of South Mountain, Md., he had his skull fractured by a bullet, and was left on the field for dead. By careful treatment, however, he recovered, and was honorably discharged at Baltimore, Md., April 24, 1863, after which he returned home. For a number of years he taught school, and all through his life took a lively interest in educational affairs. September 12, 1865, he married Miss Sallie E. Larimore, and to them were born seven children; namely, John W., Mrs. Charles Dale, S. E., Beila C., Conrad M., Mabel L., and W. H.

After the death of his wife he wedded her sister, Rebecca C. Larimore, Dec. 25, 1883. Three children were born to this union: Hugh L., George B., McClellan, and A. F. Reno.

Capt. Fry was a Democrat in politics and was elected to several local offices and served as county chairman. He was widely known as a newspaper correspondent, whose news items were always of great interest. He was connected with numerous fraternal and civic organizations and in all of these he was a leader. His military pride never waned. He served as Commander of Campbell Post No. 272, G. A. R., and from it was a delegate to many State and National G. A. R. gatherings. In religion he was a Presbyterian, and served his congregation and the Sunday school in all capacities. He was successful as a farmer and stock raiser, and also as a veterinary surgeon. His field for the practice of that profession was extensive.

The age of the deceased was 88 years, 7 months and 2 days.

Miss Neese was a daughter of John and Lydia Wion Neese and was born in Gregg township about seventy years ago. She was a member of the Lutheran church, and was laid to rest ac-

ording to the rites of that church by her pastor, Rev. S. F. Greenhoe, in the Spring Mills cemetery, Tuesday afternoon.

The Ice Harvest

It was warmest in the kitchen, beside the stove. Mrs. Drake stirred the fire and pushed the rug against the door. "It's freezing hard," she said. "We'll be cutting ice soon!"

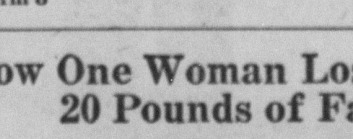

Sam, deep in a book, perked up. "Gee, Ma, let's have an ice-cutting party! That'd be fun! There's the Hays and the Meyers and the Greens—"

"You wouldn't forget Sally Green?" laughed his mother, and Mr. Drake, behind his paper, chuckled too.

"It's a good idea, though," Mr. Drake said. "We'll be needing help. Let's have the folks on Saturday."

Sam was already at the telephone. "I'll call them up now, Ma! You bake the cakes 'n' everything—chocolate layer, you know. This is going to be a bang-up affair!"

FARM CALENDAR.

Timely Reminders from Pennsylvania State College School of Agriculture

Lime the Garden—

If the garden has not had lime for four or five years it is advisable to broadcast about five pounds of hydrated lime to every 100 square feet in the spring after the soil has been turned. Rake the lime into the top soil in preparing the seedbed.

Thin Woods Properly—

Thin one-tenth of your woodlot this month. In 10 years the work will be completed. Then it can be started again and products taken out which will net a larger return. Railroad ties and small saw logs can be cut because of increased growth after the first thinning.

Keep Feed Clean—

Experiments at the Pennsylvania State College show that coccidiosis can be reduced by using suitable feeders. Only five per cent loss of chicks occurred where droppings were kept out of feed, while 65 per cent of the chicks died where droppings contaminated the feed.

Mare Needs Exercise—

Working the brood mare carefully will keep her in better condition than if she is idle. A well-balanced ration containing plenty of protein, lime, and phosphorus also is essential.

To Train Hensmen—

Training in dairy cattle and livestock management will be given in the annual Herdmen's Short Course at the Pennsylvania State College February 29 to March 5. Instruction will be given in feeding, care, diseases, fitting, marketing, pedigrees and cooperative improvement associations.
