

LOCAL AND PERSONAL

Look at your label this week. C. A. Krape, former Spring Mills merchant, is said to be in a very serious mental and physical condition. A new survey of State Highway Route No. 229 through Flemington will eliminate several bad curves in that borough. About one and one-half inches of snow fell on Tuesday night. During the fall there were high winds that kept blowing on Wednesday. Rev. J. M. Kirkpatrick attended the sessions of Huntingdon Presbytery, held at State College, of which organization he was the moderator, on Monday and Tuesday. This issue of the Reporter carries two advertisements for the Miller Motor Co. One tells of a free theatre ticket given with every dollar purchase and the other, car washing at the price of 75 cents. Mr. and Mrs. James B. Lingle, of Kennett Square, and Mrs. H. K. Harter, Mrs. Lingle's sister, were guests of Mrs. Jennie Lingle, mother of the former. The Lingles and Mrs. Harter were called here by the death of Mrs. William Neese, their aunt, at Spring Mills. Bids for the new postoffice at Bellefonte probably will be advertised for late in June or early in July. Plans and specifications for the building, to cost not more than \$125,000, are now being drawn up by the supervising architect's office. Mr. and Mrs. Newton C. Yarnell, of Lewistown, were in Centre Hall on Wednesday, on their way to Boalsburg to visit George Rowe, who has been quite ill for some time. Mr. Yarnell for the past eight years has been a night policeman in the large Viscos Works, at Lewistown, and reports labor getting a fair break in that city. J. H. Burkholder escaped with an injury that might have been much more serious. As it is he is minus a portion of the tip of one of his thumbs by getting it too close to a circular saw while sawing limb wood. His hand was gloved and this probably had something to do with bringing about the accident. At all the churches services, next Sunday, on the local Reformed charge, Miss Allene S. DeChant, of Hanover, Pa., will speak. She is a representative of the Foreign Mission Board of the Reformed church, working at present within the bounds of the Eastern Synod. She will exhibit curios she has gathered personally on the foreign mission fields of the Reformed Church. The repainting of the dwelling house owned and occupied by H. E. Fye, in town, was completed last week by J. M. Coldron, painter and decorator. Since coming into possession of the place, Mr. Fye has completely transformed the home from one with undesirable surroundings and outward appearance to one a credit in the local city in which it is located. S. Paul Dinges, of Philadelphia, made one of his infrequent visits to Centre Hall on Tuesday. He was traveling with a group of Philadelphians by auto whose destination was Penn State, probably attracted there by the boxing bouts. Mr. Dinges is engaged in the insurance business. He is a younger brother of H. W. Dinges, of town. Forty-nine contractors bid for the construction work on the \$250,000 public building, a post office, in Lewistown. Robert A. Henderson, Esq., prominent Altoona attorney, accompanied by Mr. Cronister, former sheriff of Centre county, came to Centre Hall Friday night to interview as many Democrats as was possible in a short time. Mr. Henderson is a candidate for District Delegate from this (the 23rd) Congressional District to the Democratic National Convention. More than anything else, he wanted to make clear his stand to Democrats regarding his choice for President. While he personally favors Franklin D. Roosevelt, he nevertheless is pledged to support whomever the voters of the district shall select at the primaries. In other words, he will go instructed, for he believes that the will of the people is paramount.

Monday morning at 7:00 o'clock, Governor Pinchot and party passed through town on their way from political gatherings in Centre and Clinton counties, to Harrisburg. One of the party is supposed to have been General Smedley D. Butler. On the front seat with the Governor was a chauffeur uniformed in the style of a State Highway Patrolman. Well, this is all preliminary to what happened near the junction of the Earlytown road (a Pinchot road) and the State Highway Route No. 53, where a road sign indicates "road crossing," the legal speed being twenty miles. It was here the brakes of the Governor's Cadillac squeaked when applied to stop because Curtis Reber's milk delivery truck was parked partly in the road while he was delivering milk to the John Lingle family. The copy-writer chauffeur parked the Governor's car and began bawling out Reber because he had obstructed the passage of the Governor of the Commonwealth of Pennsylvania, Gifford Pinchot, while at the same time the governor's car was parked at the intersection of State highways. The conversation between the patrolman and Reber, not previously rehearsed, was pointed and spirited and brought to the scene the Governor himself—and still the dialogue continued, with Reber, from reports, running neck and neck with the big shots.

Linden Hall.

Mrs. J. H. Ross is spending some time with her daughter, Mrs. George Mothersbaugh, at Boalsburg. Mr. and Mrs. M. K. Green and daughter, Miram, and Miss Christina Bailey, of Boalsburg, returned home just Thursday from Philadelphia where they spent almost a week visiting with friends and relatives. They were accompanied home by Mr. Green's brother, Herman, and Miss Mamie Doran, who spent the week-end at the Green home. Mr. and Mrs. Joseph Brooks and children, of Cleveland, Ohio, spent several days last week at the home of Mrs. Brooks' parents, Mr. and Mrs. John Carper. Hugh McClintic, son of Mr. and Mrs. Wm. McClintic, is confined to his home suffering with mumps. Mrs. Lola Schreckengast and children, Roy, Lester and Regina, of Loganton, and Clyde Wateman, of Lock Haven, spent Sunday at the home of Mrs. Schreckengast's parents, Mr. and Mrs. Wm. Mesmer. Mr. and Mrs. Rufus Sharer spent Sunday evening at the Frank McClintic home.

**Repair Rodent Injury—**  
Apple and pear trees girdled or partly girdled by mice and rabbits during the winter may be saved by bridge grafting. It is important to note the damage early so that dormant scion wood may be obtained. Vigorous terminal shoots of last year's growth make the best scions, but suckers will do. Trees under five years old generally are not worth grafting.

**Feed Balanced Rations—**  
Milk is made from digestible materials in feed. When rations are properly balanced to meet the needs of the cow, there will be greater and cheaper production of milk than where unbalanced rations are fed. Balance rations carefully and increase profits.

**Make Gardening Easy—**  
The modern garden is planned so that its management will prove economical in use of time and labor. Vegetables planted in long rows make it possible to cultivate with a wheel-hoe or horse drawn cultivator. This cuts down the biggest item of expense and enables the gardener to grow more vegetables with the same labor.

**Prune Raspberries—**  
Fewer but larger and better quality raspberries should be the objective in pruning the fruiting canes. Size of the canes, the kind of berries, and soil conditions determine the pruning treatment. For details see your

**Eradicate Sheep Pests—**  
Both ewes and lambs should be dipped to eliminate ticks from the flock. Use any good stock dip and repeat the process 8 to 10 days later to kill the nits hatched after the first dipping.

**Feed Hungry Bees—**  
Colonies short of food should receive

honey or sugar syrup now, State College apiarists recommend.

**FOUR CONFESS STAGING TWO BANK HOLDUPS**
