HOSPITAL BOND ISSUE MEETING WITH SUCCESS

Thirty Centre county investors have already taken advantage of the opportunity to make a good investment in a local institution, and have purchased to date bonds aggregating \$20,000 in the Centre County Hospital. These bonds are part of the \$70,000 bond issue being sold at this time for the purpose of retiring the present issue of \$50,000 and the building of a new Nurses' Home.

The bonds are issued in denominations of \$100, \$250, and \$500, and are tax free. The interest rate is six per cent and payable by detachable coupons, which will be honored at any Centre County bank each six months. With the completion of the new Nurses' Home the properties and buildings of the Centre County Hospital will have an appraised value of \$190,000, or nearly three times the bond issue. In view of this it is evident that the trustees are confident that the entire issue will be sold in a very short time.

Bonds can be purchased through your local bank.

The Hospital Board especially recommend this issue as a gilt-edge investment for fraternities, lodges, fire companies, and for the small conservative investor as well as the individual who has larger amounts to invest.
