Master C. Fred Miller, 9, of Spring township, was discharged Sunday after receiving medical treatment.

There were 35 patients in the hospital at the beginning of the week.

FARM CALENDAR.

Timely Reminders from Pennsylvania State College School of Agriculture

Sow Cover Crops—
Orchard cover crops should be sown immediately. Legumes are considered best in most cases. Where legumes cannot be grown to advantage, millet, sudan grass, oats and rye are better than no cover crop at all. By seeding cover crops in the peach and apple orchard now, the cost of cultivating for the remainder of the season is eliminated.

Make Room for Growth—
Thin vegetable plants as soon as they show signs of being crowded and give the remaining plants a chance to mature. Onions, spinach, and leaf lettuce thinnings can be used for food.

Cut Pulp Wood—
The bark slips easily in June and July. To save time, fall the trees, trim and peel them, and allow them to season in the 'cut.' Cut up and market the wood next fall and winter. Since the price of wood is low, thin out the poorer trees and save the better ones for the future.

Provide Cow Feed—
Plant supplementary crops to help carry the dairy cows through the short pasture season, which is almost inevitable during the late summer and early fall. Green feeds, such as oats and peas, corn, clover, or soybeans are suitable, or if good land is available, a field of sudan grass will provide a lot of feed that he cows can harvest themselves.

Spread Lime Correctly—
Lime is much more efficient if well spread and thoroughly mixed with the soil. Burned lime should be carefully slaked and then spread and harrowed in while in a fine powdery condition. Hydrated lime and limestone will do much more immediate good if harrowed in before rain, or even heavy dews make it run together or become crusty or sticky.

Goods will not move themselves out of a store automatically, without some force making them move. You need to hitch them up to the power of advertising.

HUNTINGDON PRESBYTERY MET HERE, MONDAY

The Huntingdon Presbytery met in the Centre Hall Presbyterian church on Monday. The Presbytery found that the April and October meetings did not give sufficient time to attend to all work of the Presbytery, so an extra one-day session in June was added that all the work may be cared for. Rev. C. R. Howell preached the sermon. A roll call of commissioners at the beginning of the session revealed 90 per cent of the number present.

This special session takes in principally the reports of Presbyterial Council, Presbyterial executive, atated clerk, appointment of standing committees, trustees of Presbytery, Commissioners to the General Assembly, sessional records, necrological, Evangelistic committee, and judicial committee.

The pastoral relations were dissolved between Dr. Francis and the First Church of Altoona. One young man was taken under the care of Presbytery who is studying for the Ministry in Princeton Seminary, and another was licensed to preach.

About 150 commissioners and visitors partook of the luncheon which the good women of the church know so well how to prepare.

HERE'S

WHEN A CHILD dashes unexpectedly into the road—a street car stops abruptly—another motorist crashes a red light—you need tires that grip and bring you to a quick stop.

THE TIRE

WE HAVE the tire that was built for just such emergencies. It's the new Goodrich Safety Silvertown—the Safest Tire Ever Built, the tire that stops before it's too late.

THAT

EXACT TESTS with a dynamometer prove that this new Silvertown offers far greater resistance to skidding than other tires. When you jam on your brakes, this tire really holds.

STOPS

ITS NEW, modern, scientific tread design offers 14 sharp skid-resisting edges of rubber, seven in each direction, to keep you from skidding on wet, oil-filmed pavements.

BEFORE

AND THE Safety Silvertown gives you greater protection against blow-outs, too. Every cord of its strong carcass is full-floating in live rubber, preventing friction, guarding against blow-outs.

IT'S TOO LATE

YET SAFETY SILVERTOWN'S cost no more than ordinary tires. The 4.40 and 4.50-21 for Fords and Chevrolets, for example, is only \$7.05, and you get an allowance for your old tires, too.
