Sumner Irey, Ex. '30, University of Pittsburgh.

MUST PAY TAX.

Under the new sales tax, hotels, restaurants, cafes and all other eating places, must pay a one per cent. tax on their gross receipts from all sales on food and meals, but not on their receipts from rooms. The same rule applies to rooming houses which serve meals, and to tourist rooming places, tourist cabins and camp grounds which serve only breakfasts. There are no exceptions.

FARM CALENDAR.

Timely Reminders from Pennsylvania State College School of Agriculture

Save Garden Seeds— In selecting garden seeds the whole plant, and not merely an individual tuber, should be considered. Only vigorous plants producing high yields of a desirable product in proper season should be used for seed production.

Gradual Changes Best— When pullets are moved from the range to laying houses changes in feed and equipment should be made gradually. It is better to make these changes before laying starts. Every effort should be made, also, to keep from frightening the pullets.

Stop Celery Blight— Spraying with bordeaux mixture is recommended by extension pathologists of the Penna. State College to control late blight of celery. Spraying can be done the same as for potatoes.

Has Four Vitamins— Tomatoes contain four vitamins. These are Vitamin A for growth and well being; vitamin B to stimulate the appetite; vitamin C to help to build teeth and bones, and vitamin G which also promotes growth.

Take Care of Lawn— Lawn grass should not be allowed to grow too long before frost, and after frost the grass should not be cut.

Save Brood Sows— Sows and boars should be separated if this has not been done. Sows saved for breeding purposes should not be too fat at breeding-time but they should be in good condition and gaining rapidly.

FOREST RECEIPTS ARE ALLOTTED TO STATES

According to a statement of the Forest Service, United States Department of Agriculture, issued September 29, road and school funds amounting to \$598,255.51 will be distributed this year to thirty-three states and territories containing national forests, as their 25 per cent. share of the national forest receipts for the fiscal year 1932. Pennsylvania's share will be \$1,774.48. This twenty-five per cent. is paid annually in lieu of taxes on national forest lands within the borders of these states and is turned over to the counties containing the national forests, for local county road and school use. An additional ten per cent. of the forest receipts is set aside each year to be expended for national forest roads and trails within the counties containing national forests. This fund amounts this year to \$227,302.60. Pennsylvania's share of which is \$709.80.

Do This, Please, When You Change Address

Will REPORTER subscribers who change their address, kindly bear this in mind: To Send Us a POSTAL CARD immediately upon removing to a New Location, notifying us both as to the OLD and the NEW Address.

Doing so will cost you only a penny. For some reason unknown to us, Uncle Sam exacts 2 cents from us every time he notifies us of the change of address of a subscriber. These changes of address, kind reader, amount to a considerable number in a year's time, and the cost incident thereto cuts in to the meager income obtained these days in the Country Weekly Newspaper office.

It is only fair to ask you to do this—spend a cent in notifying us of your change of location.

We shall consider it as being very thoughtful on your part, and thank you.
