A short time ago he was bitten by a dog while in State College, and this for a time somewhat unnerved him, but he finally seemed to have recovered from the effects of it. Later he became ill again. Exposure before he had fully recovered was a contributing cause to his present sickness.

Estimated majorities for Robert J. Miller over Hon. J. L. Holmes, in Harris township continue to mount. Residents are much incensed because of the fact that the road construction program between Boalsburg and State College, the home of Mr. Holmes, is reported to be giving but three local workmen employment. The West precinct of Harris township has not been favorable to the present representative, and by all accounts he is not now hot for West Harris. Robert J. Miller, also of State College, will reap the benefit on November 8th.

INITIAL STEPS FOR

ROOSEVELT-GARNER CLUB

Tuesday evening a small group of local Democrats met in the Masonic club room and took the initial steps to organize a Roosevelt-Garner Club, under the general rules of the National and State organizations for campaign purposes. The request to assemble was made by the local Democratic chairman, C. W. Booser, who stated the purpose of the gathering. It was agreed to elect temporary officers to preside until more general public notice was given of the movement. Consequently, Friday night, October 14, 8:00 o'clock, was set as the time for the formation of a permanent organization of the club. To this meeting all voters interested in the election of the Democratic candidates on the National, State, District and county tickets are invited to participate. The territory includes Centre Hall borough and Potter township. The constitution of the club provides that all moneys collect-

ed by it, may be retained for local use, leaving the matter of finances wholly with the individual club. At the same time the State and National Roosevelt-Garner clubs will give all possible assistance to make local organizations effective.

The temporary organization, which will function until a permanent one is formed October 14th, is officered by C. W. Booser, chairman; F. V. Goodhart, vice-chairman; S. W. Smith, secretary; J. W. Bradford, treasurer.

"The Headlines screamed 'SHANGHAI' but the real war is HERE"

Floyd Gibbons

I SAW THEM MOWED DOWN at Shanghai. Plenty bad, that stuff. War at its worst. But the greatest shock came when I got back. Found how many had been killed here. In peaceful America!

HELLO EVERYBODY: Floyd Gibbons speaking. I'm just back from China. Plenty war there. Messed around with it for four months, from Manchurian madness to Shanghai slaughter.

They killed six thousand over there. That's the best estimate I can give. They wounded twenty thousand more. Men, Women and children. Mowed them down. Rightful.

But wait. What did I find out when I got back? Eight thousand had been killed. A quarter of a million injured. Right here in America. During the months I was gone. In automobile accidents!

This happened to my own kind. Men, women and children. No screaming headlines. No war correspondents. Just death. Maiming. Suffering.

Just too common to be news.

This burned me up. Seeing women and children killed in China made me realize the awfulness of it here.

I stopped in Akron. There I found a tire manufacturer doing something about it. Goodrich. Goodrich was crusading for safety. Goodrich was developing more safety in tires.

You know, your tires are a sort of endless belt between your car and the road.

That car held its path like it was tied to it—running on rails. That's SAFETY!

With thousands injured in skidding accidents every year, I want to say that Goodrich has done something BIG—SENSATIONAL.

They told me out there in Akron that 57% of the cars now on the road have at least one tire that invites disaster.

Yet their new Safety Silvertown can be bought for a price that astonished me. It doesn't cost one cent more than any standard tire.

Peace negotiations stopped the killing in Shanghai. Goodrich engineers have at last put something into a tire that will reduce the highway slaughter.

It's the price of safety on the road.

I'm for stopping the HIGHWAY SLAUGHTER. I'm for Safety Silvertowns—the tires which have scouted the scare out of the skid!

THE Safest TIRE EVER BUILT

I'm for this League, too!

Here's something: The Silvertown Safety League. It gives me driving rules to follow—an emblem for my car. I joined up! Any Goodrich dealer will enroll you, they tell me.
