

ITEMS OF LOCAL INTEREST

While we have already had some real 100 per cent. winter weather, the winter season didn't start officially until yesterday.

The borough public schools close for the Christmas vacation on Friday of this week and will reopen the first Monday of the new year.

The 3-year-old daughter of Mr. and Mrs. Dewey Neff, of State College, was very seriously ill last week, suffering an attack of intestinal influenza.

The Gregg Township School Alumni basket ball boys and girls teams will play the G. T. V. S. teams at Spring Mills, on Friday, 7:30 o'clock. Admission, 20 and 10 cents.

Miss Maxine E. Springer, daughter of Mr. and Mrs. Guy Springer, of State College, is the only student from Centre county in the list of officers named by the Freshman class in Penn State.

John Benner claims a certain young man is carrying off his chickens, two at a time, from his barn in town. John named the fellow, so if he sees this notice he'll know John is all "het up" about it.

Operators' renewal cards for 1933 will begin to appear January 2nd. Better get your check off for license plates so your bank account is not shocked too much with slips in favor of the Commonwealth of Pennsylvania.

The concrete road through the borough of State College was completed last week. The important thoroughfares much wider in the borough than the regulation State highway. The cost of the extra width is assessed against the abutting property owners.

John Slack, of near Coburn, son of Mr. and Mrs. C. W. Slack of town, was a caller at the Reporter office last Thursday. Mr. Slack is engaged in farming, and is hoping for the return of days when 50-cent wheat will be only a memory. And aren't we all?

The great masters of words are continuing in their search for the ten most beautiful words in the English language. So far we have failed to note any of them giving consideration to two words which to us are THE most beautiful; viz, "check" and "enclosed."

Ground has been broken for the new nurses' home at the Centre County Hospital. The site is back of the hospital on a plot of ground donated for that purpose. The sale of the \$70,000 bond issue is progressing in a satisfactory manner, \$20,000 of the issue having been sold.

The students at Penn State represent religious denominations, with the Presbyterians leading with 842. Methodist come next, having a representation of 721, and Lutherans third. Roman Catholics, Reformists, Protestant Episcopalians and Hebrews follow next in succession as to numbers.

William Richelieu, brother of Charles H. Richelieu, of the Richelieu Theatre, Bellefonte, a resident of California, has been in the East for several weeks and spent part of the time in Bellefonte. He accompanied Fred Fisher, manager of the Richelieu, to Centre Hall on one of his trips through the valley.

Two Centre county women figured in the awards given in the International Canning Contest, of Aurora, Ill. They were Catherine M. Evans, of Spring Mills, who was awarded a dollar for a jar of apple sauce, and Mrs. S. M. Fetzer, of Fleming, who got a pair of 9-inch household tongs for a can of fruit.

In the closing days of the deer season Charles Arney and Harry Gross each missed getting his buck because their guns finched on them. Harry, especially, worked himself into a wrath because his ammunition was in the magazine of his gun while the rifle chamber was empty. More bucks would like to meet the absent-minded hunter.

Wilbur Runkle is assisting the railway mail clerk on the L. & T. R. R., during the Christmas season, at which time the quantity of mail handled is doubled or tripled. He began work last Thursday for the second Christmas season help-out. Last year he got only a few days' work, but this year he will have at least a few days over two weeks.

The quantity of mail going out and being received at the local post office is increasing owing to the approach of Christmas. The bulk of mail is about up to the standard of flush times, but there may be a great reduction in the value of the parcel post packages. The increase in volume began the first week of this month, and will reach its peak today (Thursday.)

Mrs. Leonard Stover, who had been in a Pittsburgh hospital several weeks for treatment, was brought to her home at Coburn on Saturday in an ambulance. Her condition is very critical, and her friends have no hope for her recovery. Mrs. Stover was Miss Minnie Fye, sister of H. E. Fye, of town, before her marriage to Mr. Stover, whose death occurred a few days before she was obliged to enter a hospital.

Henry Blausier, a senior at Penn State, will be at the home of his parents, Mr. and Mrs. John Blausier, at Potters Mills, during the Christmas vacation. The young man is a Centre Hall High school graduate and has selected Dairy Husbandry as his line of work. Two other Penn State students from the same village who will have Christmas at home are William and Robert McCormick, sons of Mr. and Mrs. George H. McCormick. The former is also a senior, and the latter a sophomore. Both are taking a course in chemistry engineering.

FARM CALENDAR.

Timely Reminders from Pennsylvania State College School of Agriculture

Water Holds Needles—Christmas trees will hold their needles longer if the butts of the trees

are set in containers filled with water. The water can be renewed as it is absorbed by the trees. With some species, the water will acquire an odor and should be replaced with fresh water.

Choose Garden Site—Select the site now for the 1933 garden. Penn State vegetable gardening specialists recommend. Use ground that is in good state of fertility and located near the home. Apply manure

in the winter and plow early in the spring.

Berries Yield Best—Aberdeen, Jupiter, Howard 17 or Premier, and Howard Supreme were the most outstanding strawberry varieties in extension demonstrations conducted in the State this year. Profitable production was found to be correlated with the use of proper cultural practices and high-yielding varieties.

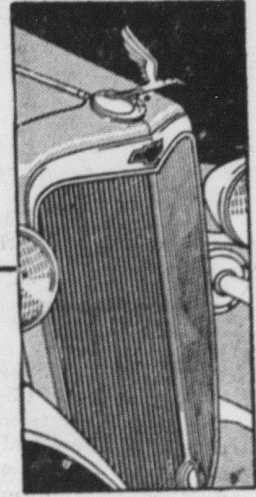

Can Burn Own Lime—Lime for use on farm fields can be burned in open stacks at home. General directions on burning lime can be obtained from the extension service at State College. The services or advice of someone who is experienced in the use of local stone and coal will be helpful to the amateur.

Select Good Turkeys—The best type and conformation can

be produced in any breed of turkeys through proper selection of breeding hens and males. Broad backs, full breasts, medium short legs and necks, and straight, widespread legs are found on birds with the proper conformation and early maturity.

Guard Against Danger—It is best to store big cans or barrels of gasoline and kerosene a safe distance from the farm buildings.

THE LEADER CAN ACCOMPLISH

WHAT OTHERS DARE NOT TRY

CHEVROLET PRESENTS A NEW SIX

Longer · Larger · Faster · Smoother · New in Styling · More Economical · And Featuring Fisher No-Draft Ventilation

THIS is Chevrolet Week throughout America. And the new car that millions have been watching and waiting for—the latest product of the world's leading builder of automobiles—is now on display: the New Chevrolet Six—at a new scale of low prices. Front, side, rear—inside, outside—everything about this new car is advanced, improved, exciting. Longer wheelbase makes it the biggest automobile in today's low-price field. The latest principle of car design, "Aer-Stream" styling, gives it a totally different, ultra-modern appearance. The new Fisher bodies are larger, wider—faultlessly streamlined—swung lower to the road—and offer the first basic improvement in travel comfort in over ten years: Fisher No-Draft Ventilation. Chevrolet performance in every gear is faster, flashier, more brilliant. The time-proved six-cylinder

engine is more powerful as well as more economical. Improved Free Wheeling is combined with a "silent second" Syncro-Mesh gear-shift. Chevrolet engineers have developed a remarkable new invention that wins a complete victory over vibration: The Cushion-Balanced Engine Mounting. And as far as prices are concerned, several models now sell at the lowest figures in Chevrolet history. Chevrolet is able to do all this because Chevrolet has the advantage of being the world's largest builder of cars for 4 out of the past 6 years. Chevrolet builds cars in greater volume—buys materials in greater quantities—does everything on a bigger, more economical scale. Hence, Chevrolet is in a position to provide a better car at a better price than could possibly issue from any other source. The leader can accomplish what others dare not try!

CHEVROLET MOTOR COMPANY, DETROIT, MICHIGAN
