UNITED LUTHERAN CHURCH
INDORSES FEDERAL COUNCIL

The United Lutheran Church's executive committee recommended that the full membership of its body join the Federal Council of Churches in America, at meeting held in Philadelphia last week.

The action, which at the same time approved the general policies of the council, was taken at the session of the committee in the Mühlenberg Building, 13th and Spruce sts.

It was the direct outcome of a request for withdrawal from the council, principally because of the declaration of a subcommittee two years ago endorsing birth control.

Through the reorganization of the council recommended by a special committee, of which Dr. George W. Richards, of Lancaster, was chairman, all future utterances of the council must have the approval of the entire body.

When the revision in the council's procedure was reported by Dr. A. R. Wentz, of Gettysburg, and Dr. A. H. Kech, of South Bend, Ind., official representatives of the Lutheran church, the council was indorsed by the executive committee and the action for closer relationship taken.

Investigations into the investments of all boards of the church, particularly the Board of Pensions will be continued by the investment commission, the committee also decided.

The pension board was criticized sharply at the October meeting of the Lutheran convention for its reputed disproportionate investment of trust funds in blocks of houses in Philadelphia.

A reduction of pensions to retired and disabled ministers of the church from \$400 to \$300 was approved. The action was taken after representatives of the pension board declared that a serious drop in benevolence payments to the board made such action imperative.

Benevolence gifts dropped 25 per cent, during 1932, it was reported, although income from investments showed a \$10,000 increase for the year.

Final action on complete adherence to the Federal Council will be taken at the next convention, to be held in Savannah, in October, 1934.

JUDGES REDUCE OWN PAY
BY TEN PER CENT.

Judge Erwin Cummins, of the Common Pleas Court, and Judge J. Boyd Crumrine, of the Orphans' Court, of Washington county, announced they would take a voluntary cut of 10 per cent. in their \$12,000 salaries and that all attaches of the two Courts would be reduced by a similar amount. Orders and tip-taxes will be placed on part time and will be paid only for the time they work.

Judges Howard W. Hughes and Jas. J. Brownson, of Common Pleas bench, who concurred in the order providing the reductions, did not make a voluntary slash in their salaries, but it was pointed out that they contributed \$1900 to the community chest and large amounts to other charities.

Judge Hughes, while concurring in reductions for Court employees, declined to accept a pay cut.

During his active life the deceased engaged in farming, having been a tenant on several farms near Centre Hall, and later located in Mifflin county where he followed the same occupation. CHEVROLET

ANNOUNCES AN IMPROVED LINE OF SIX-CYLINDER TRUCKS SELLING AT GREATLY REDUCED PRICES

Again Chevrolet leads the way to economical transportation! Chevrolet announces a greatly improved line of Chevrolet six-cylinder trucks—featuring a new engine. A new rear axle. A new frame. Many progressive changes in design and construction. And selling at new, greatly reduced prices that only the world's largest builder of cars and trucks could achieve.

All 1½-ton models are now powered by a remarkable new Six-Cylinder Special Truck Engine. This is basically the same reliable power plant of last year—but Chevrolet has made it even smoother, more powerful, and more economical by the addition of 33 new improvements and refinements.

Chevrolet has also introduced an entirely new type of rear axle with the outstanding mechanical advantages of a four-pinion differential and a straddle-mounted pinion with bearing support on both sides.

In addition, the Chevrolet 131-inch truck now has a much stronger frame, with deeper, heavier side members. The 1½-ton models have a sturdier universal joint, as well as larger brakes, improved springs, and a new 15-gallon fuel tank.

Nothing that Chevrolet has ever done before in trucks can equal the importance of this announcement: A stronger, more powerful, more durable six-cylinder line. Ever more economical than last year. And priced as low as \$440!*
