

CORRESPONDENTS' DEPARTMENT

Spring Mills.

Mr. and Mrs. Harrison Dukeman, of Clearfield, made a short visit here last Monday.

Mrs. Alice Adams, son and daughter, also Mr. and Mrs. D. A. Wheeland, of Sunbury, spent Sunday at the home of the former's daughter, Mrs. Dr. George F. Thomas.

Last Thursday morning Messrs. Rufus and Willard Hettlinger and Charles F. Bartges and Frank Ilgen motored to Harrisburg and took in the Farm Show which they report as having been worth while to attend. While there they met Miss Watts, formerly one of the teachers in our Vocational school. Miss Watts is at present located at Pittsburgh on their way home—they stopped about Amity Hall where they met the McClellan family, formerly of Centre Hall. The next stop was at Liverpool, and there they met Mrs. Ida Long, a cousin of the Hettlinger boys, and the next stop was at Solinsgrove where they met Mr. and Mrs. Blumman, the latter also a cousin of the boys. They report having been royally treated.

Mrs. George F. Skies and Mrs. C. C. Bartges are visiting friends at Clearfield this week.

Randall Myers, of Williamsport, son of the late J. F. Myers, spent Sunday at the home of his mother, Mrs. Vera Myers, and brothers. He also stopped off to see his brother, John A. Myers, at Coburn.

The ladies of the local camp of the P. O. of A. had a quilting party in their hall last Saturday. There were about a dozen members of the camp present and they finished a beautiful quilt which they intend to chance off within the near future.

Miller Jamison spent Sunday at the home of his father, Squire Jamison.

SPRING MILLS ITEMS.

Paul Hettlinger, of Millheim, an insurance agent, was circulating among residents here on Monday.

Lester C. Rote, of Rotes Mills, west of Coburn, spent Sunday with friends here.

H. W. Morris, of Pittsburgh, who had been at the home of his sister, Mrs. John Myers, for some time, returned to the Western Penna. city on Sunday.

J. Gross Shook transported a number of Vocational School scholars to the Farm Show, at Harrisburg, last week. The Vocational boys and girls are very proud over having ranked fourth in Agricultural Projects contests.

T. R. Wagner and family, of Williamsport, were guests on Sunday of Mr. Wagner's parents, Mr. and Mrs. J. A. Wagner. The junior Mr. Wagner is a railway mail clerk, his run at present being between Williamsport and Harrisburg. The senior Wagner also is in the mail service, having been a rural delivery carrier for thirty-five years, lacking a few months. The service, with the exception of a few years at Centre Hall, was from this office.

Harry Snavelly, who has been ill for some time, continues in delicate condition. His father, John Snavelly, west of here, who like the son has been ill at various times during the past year or more, is at this time able to lie up and around.

Jacob Sharer and Luther Wagner, on Saturday, went on a fox chase with their hounds on Nittany Mountain. The dogs led them down the mountain from the Sharer farm and then into Greens Valley. The hunters returned after dark, but one of the dogs, a Beagle, with black spots on body and white tipped tail, has not yet returned.

Mrs. Mollie Weagley, who is seriously ill following a paralytic stroke, continues to be cared for by her daughter, Mrs. Ralph Ziegler, near here, at whose home she was temporarily visiting at the time she was stricken. Her condition at present is not at all favorable.

Ralph Ziegler, who has been tenant on the Allison farm north of here, is moving implements, etc., to the Dr. Frank farm, near Millheim, onto which farm he expects to move April 1. The farm he will vacate has not been rented.

POTTERS MILLS.

Harry Foust and Dr. P. C. Frank, veterinarian, have seen under the doctor's care the past week.

Mrs. Harry Gettig, of Braddock, is visiting at the home of her father, T. J. Fleisher.

Mrs. M. N. Miller entertained the Missionary society of the Presbyterian church of Centre Hall on Wednesday evening.

Mr. and Mrs. G. H. McCormick, accompanied by Mr. and Mrs. E. F. Palmer, attended the Farm Show at Harrisburg on Thursday.

Miss Helen Davis, of Allentown, and Miss Madeline Davis, of Spruce Creek, are spending some time at the home of their brother, Thomas Davis.

RECLUSE DIVIDES ESTATE WITH HOSPITALS AND HOMES

The Presbyterian and Pennsylvania hospitals in Philadelphia and the Masonic home at Elizabethtown, share the \$196,000 estate of William T. Snodgrass, 73-year-old recluse who died in Los Angeles, Calif., in 1930, under the terms of the will probated Friday.

He was believed to be a poor man and after his death, when \$100,000 in bonds and \$90,000 in cash were found in a safe deposit box and hidden about his room.

Snodgrass had one son, but he was killed several years ago, lawyers said in an automobile accident on the coast

50 EMPLOYED AS NEW BUILDING GROWS AT STATE COLLEGE

The State College Times tells of a six-story apartment hotel, containing twenty or more three- and four-room apartments, a modern forty by ninety foot swimming pool, a lounge, elevator, offices, storerooms, and private garage facilities, that is rising slowly above the ground level at the corner of Beaver avenue and Pugh street, and giving employment to fifty laborers from that vicinity.

Fair weather has aided construction work, and plans are fast nearing completion. O. W. Houts, local contractor, states that 20,000 loads of ground stone have been used so far, and 45 railroad cars of crushed stone and 36 carloads of sand have been placed. Eight thousand sacks of cement have been used, and 2,000 yards of State highway road mesh have assisted the work. Also 54,000 lineal feet of reinforcing rods, which is equal to eleven miles in the layman's version, have been used, besides two carloads of window frames.

Materials have been sent in from all parts of the State, the contractor says. The tile has come from Adams county, the brick with which the building is to be faced from Clearfield, tiles and from the Barrens, the cement from Lehigh valley and from Maryland, and the steel which will make the structure fireproof has been brought from Altoona.

The settlers are now ready to work in and about the swimming pool, which will be one of the best indoor pools in the east, states P. B. Kapp, architect for the building. It will be situated in the northeast corner of the ground floor and will contain locker and shower facilities besides accommodations for all kinds of swimmers.

The swimming pool, a project for which the townspeople have waited for many years, is poured and plans are so laid that it will not be under any apartment. It is situated in the single-floor portion of the building and will have daylight from two sides. The boiler room will be thirty feet below the level of the street, declared Mr. Houtz.

It has been rumored that the name of the apartment hotel will be "Glenn-Ho." It is expected that four stories will be ready for occupancy by summer.

REAL ESTATE TRANSFERS.

Commissioners of Centre County to Harry N. Meyer, tract in Gregg twp.; \$1.00.

FARM CALENDAR.

Timely Reminders from Pennsylvania State College School of Agriculture

Know What Cow Needs—

This is no time for guesswork on the dairy farm. The milk from each cow should be carefully weighed at regular intervals and the information thus obtained used as basis for determining her fate. If feed is good and production low, her removal from the herd will stop a serious loss if production is good, the milk weights are a dependable guide as to the amount of grain she should have.

Put Tools in Condition—

Garden tools and equipment can be repaired now and put in condition for early spring work. Rust can be removed, cutting edges sharpened, handles smoothed, and broken parts replaced.

Many Markets for Eggs—

In Pennsylvania there are 102 cities of more than 10,000 residents each. These centers of population provide markets for eggs from the 20 surplus-producing counties of the State and from other States. Competition has brought about decided improvement in the quality of market eggs.

Can Surplus Meat—

Canning meat at home during the butchering season provides supplies for future use, saves meat that cannot be eaten immediately, and promotes health by eliminating the desire to over-eat to save the surplus.

Control Potato Disease—

Control of potato disease will play an important part in the economical production of the 1933 crop, say State College plant pathologists.
