The mid-winter number of The Tig er, the local High school paper is out. and it is an unusually newsy number. There should be a hearty welcome accorded the school paper in the homes of townspeople and rural felk in Potter township, for The Tiger reflects the activities of the local school. All matter contained in the eight pages is strictly original, and to the credit of the school it may be said there is nothing "trashy" about any of the text. Indeed, much of the writing rates above the average High school grade As usual, local firms and individuals have been generous in their support of its advertising pages, without which, of course, publication would be impossible.
