SPONSORS BILLS OF LOCAL INTEREST

Among the bills passed recently by the State Senate, two of especial interest to Reporter readers were presented by Senator Harry B. Scott.

The first of the bills, number 6, makes counties from which convicts are committed liable for all costs of trial for crimes committed by these convicts within the buildings or the grounds of the penal institution to which they have been sentenced. This bill when a law, will prevent recurrences of heavy costs to Centre county such as accrued in the Collins case last year, when local taxpayers paid the costs for a crime committed by a convict from Beaver county. This bill passed the Lower House Wednesday evening.

The other bill, number 8, designed to give the campus police at Penn State College the right of arrest, similar to that of any other peace officer, thus enabling them to enforce traffic laws and maintain the peace with the power to make arrests. The police force at Penna. State College will be uniformed as they are at present, but will wear "Special Police" badges. This bill has been reported out of committee by the Lower House.

Among other bills introduced by Senator Scott is one to cut court costs and fixing mileage for jurors. This bill is in line with other economy bills presented by Mr. Scott, such as legislation to cut jurors' and witnesses' fees.

Another bill submitted by Senator Scott empowers the commission to regulate private motor truck carriers of property. It classifies as common carriers those who transport for more than two or more firms. At present the dividing line between the private and the common carrier is not fixed specifically by law.

U. S. Shows Penna. Trucks Pay Too Much for Use of Roads

THE U. S. Bureau of Public Roads has dealt a blow to the railroad and other propagandists who for years have been trying to convince the people of Pennsylvania that trucks are not paying as much as they should for the use they get out of the State highways.

Thomas H. MacDonald, Chief of the Bureau, after detailed studies of Pennsylvania's State roads, their construction, costs, operating conditions and the fees charged for their use, shows:

That the 226,000 trucks up to 2-ton weight pay \$3,571,519, or an average of \$16.20 each, more than they ought.

That the 29,056 3-ton, 4-ton and 5-ton trucks pay \$325,893, less than they ought, or \$11.20 each.

That passenger cars are paying \$1.50 each, or a total of \$2,190,974, less than they should.

Mr. MacDonald's startling statement was made before the Senate Interstate Commerce Committee. Asked by Senator Keen, New Jersey, to name a state in which the trucks unquestionably paid for all they got out of the roads, Mr. MacDonald unhesitatingly named Pennsylvania. He explained in much detail the engineering tests by which it has been proved that the wear and tear on roads through the use of trucks has been enormously exaggerated.

Mr. MacDonald's Bureau went deeply into the question of how much each class of vehicles contributed, through gasoline taxes, license fees, etc., to road costs, and how much its use of the roads is worth. It was found that the average Pennsylvania

passenger car pays, in fees and gasoline taxes, \$24.50 annually; whereas, to compensate for all it takes out of the roads, it should pay \$36.00. As there were in 1931 1,527,316 passenger cars in the state, they were actually paying \$2,190,974 less than the value they were receiving from the roads.

On the other hand, all trucks up to and including those of 2-ton weight, are actually paying for more than they get out of the roads. There were in 1931 no less than 226,450 trucks in this category; they were paying \$3,571,519 each, on an average, more than they get out of the roads. The figures follow:

Table with 4 columns: Weight, Number, Over-taxed, Total Excess tax. Rows include 2-ton, 3-ton, 4-ton, and 5-ton categories.

The only trucks under-taxed are those of 3, 4, and 5 tons, numbering 29,056. They pay \$325,893 less than they should, or \$11.20 each.

Thus it appears that trucks as a whole are paying \$3,245,626 more than they should; passenger cars \$2,190,974 less than they should.

The Highway Users Conference of Pennsylvania, in a bulletin setting forth the foregoing analysis, declares that "on the face of this showing, it is simply ridiculous for the enemies of the free highway longer to demand further taxes or restrictions on trucks."

"If the railroads should succeed in driving out the trucks, they would gain only 5 per cent. of freight, while the damage to business would lose them twice as much."

Lost 20 Lbs. of Fat In Just 4 Weeks

Mrs. Mae West of St. Louis, Mo., writes: "I'm only 28 yrs. old and weighed 170 lbs. until taking one box of your Kruschen Salts just 4 weeks ago. I now weigh 150 lbs. I also have more energy and furthermore I've never had a hungry moment."

Fat folks should take one half teaspoonful of Kruschen Salts in a glass of hot water in the morning before breakfast—it's the SAFE, harmless way to reduce as ten thousands of men and women know.

For your health's sake ask for and get Kruschen at any drugstore—the cost for a bottle that lasts 4 weeks is but a trifle and if after the first bottle you are not joyfully satisfied with results—money back.

Goods will not move themselves out of a store automatically, without some force making them move. You need to hitch them up to the power of advertising.
