FARM CALENDAR.

Timely Reminders from Pennsylvania State College School of Agriculture

Grow Early Plants—

Well-grown healthy plants of the best vegetable varieties increase earliness and total yield. In February seed can be sown of Golden Acre cabbage, New York No. 12, White Boston, and Grand Rapids lettuce, Italian Green sprouting broccoli, and Riverside Sweet Spanish onions.

Finish Easter Lambs—

To realize the greatest returns and to produce the kind of lamb the Easter market demands, it is necessary to finish these lambs early. Liberal feeding of a grain ration and legume hay develops the proper finish.

Poultrymen Health—

Poultrymen who used sanitary practices in growing their chicks last year lost less than seven per cent. of their birds. Recommended practices, according to poultry specialists of the Penna. State College, are early hatching, quality chicks from vigorous disease-free stock, clean brooder houses, clean feeders, and clean ground.

Start Maple Grove—

Wild seedlings of sugar maple up to 10 feet high may be pulled and transplanted satisfactorily in the spring. In planting a sugar bush, the trees should be set about 15 feet apart each way. Some persons grow a sugar bush by planting a row of trees along each side of the road.

Tomatoes Aid Health—

Tomatoes are a valuable food. They contain iron and phosphorus for building strong bones, teeth, and tissues and they also supply iron for making red blood. Vitamins A, B, C and G, which promote growth and health, also are carried by tomatoes.

Nut Trees to Plant—

Black walnut and hickory trees can be planted to provide nuts for home use. In the most favorable sections of the State the harder varieties of English walnuts may be matured.

THE GRANGE BELIEVES IN PUSHING FORWARD

Its Adoption of An Expansion Policy Is Most Encouraging.

Contrary to the policy of most fraternal organizations, as well as community groups in general, the Grange program universally adopted for the year is to be one of expansion rather than contraction. The pace was set by the National Grange session at Winston-Salem, which decreed by unanimous vote of the body that there shall be no curtailment of organization activities this year, but that new fields shall be cultivated as far as possible and old ones stimulated and strengthened; the National Grange evidencing its practical faith in the year's possibilities by appropriating \$40,000 for extension and organization work in its own fields.

Following this lead, State, Pomoa and Subordinate Granges are planning new activities, and among these is preparation for another nation-wide observance of Booster Night, following the inauguration of a similar plan in 1932. Thousands of subordinate units will plan special programs for the coming booster occasion, to be held simultaneously in every Grange in the land, while a canvass of new members, beautification of the Grange hall property, tackling some community improvement project, or a definite assistance program to church, school, library or other local agency, will be included in the booster program being as widely set in motion among the Granges.

That the Granges are justified in their expectation that an expansion policy can be successfully carried out this year is supported by the fact that reports from all the States indicate larger attendance at Grange installation occasions this year than ever before, and the disposition of local Granges almost without exception to plan activities far in excess of previous years, even during prosperous times. If this Grange policy could be extended to all the fraternities, and to the community groups in general, a big start would be made toward restoring normal living.

TWO BILLS PASSED FINALLY RELIEVE COUNTY TREASURY

The two bills passed finally by both the House and Senate at Harrisburg are measures of local interest. The first provides that expenses incurred in the trial of convicts escaped from a State prison shall be borne by the county originally committing the prisoner to the institution. Heretofore this expense was saddled on the county in which the prison was located. For instance, the expense incurred by prisoners escaping from Rockview prison was paid by Centre county.

The second bill refers to the payment of damages resulting from right-of-way privileges in building roads by the State. Under the measure just passed, the State will pay all or the damage claims where as heretofore this expense was borne entirely by the counties.

Sheffield Milk Prices.

The net cash price to be paid the members of the Sheffield Producers Cooperative Association, Inc., for the milk delivered by them during the month of January, 1933, is 91 cents a hundred pounds for 3 per cent. grade B milk in the 201-210 mile zone, with the usual freight, grade and butterfat differentials. This is the same as \$141 a hundred pounds for milk old on a 2.5% butterfat basis.

Nerves NERVES Nerves Dr. Miles' NERVINE "Did the work" says Miss Glivar WHY DON'T YOU TRY IT? After more than three months of suffering from a nervous ailment, Miss Glivar used Dr. Miles' NERVINE which gave her such splendid results that she wrote us an enthusiastic letter. If you suffer from "Nerves," if you lie awake nights, start at sudden noises, tire easily, are cranky, blue and fatigued, your nerves are probably out of order. Quiet and relax them with the same medicine that "did the work" for this Colorado girl. Whether your "Nerves" have troubled you for hours or for years, you'll find this time-tested remedy effective. The Forgotten Man We hear much talk of the Forgotten Man these days but no one seems to know who he is. We believe that the small-town newspaper publisher comes as near being the Forgotten Man as anyone. The great majority of those who receive this paper each week and forget to pay for it, no doubt forget that the publisher must pay the same amount for newsprint and ink that freight and electric power rates have not been reduced, and salaries must be paid. Dear reader, kindly look at the label on your paper, and if your subscription is not paid up to date, please remember the Forgotten Man.
