The appointment of Warren Van Dyke to the position of collector of customs at the Philadelphia port, is hailed with delight by Democrats in Pennsylvania. His selection was the first of importance made in the State by the President, and was undoubtedly made on the score of personal fitness and activity prior to and subsequent to the Democratic National convention.

This activity was not only in the interest of the successful candidate for the nomination but for the Democratic party as a whole, State and National.

QUILT SNATCHER CAUGHT.

Recently two men appeared at Pleasant Gap and bargained to repair a slate roof on the residence of Mr. Noll. While the work was in progress a third man arrived in an automobile and represented himself the "boss." He asked and was granted permission to go to the attic by the stairway to converse with the men on the roof. On returning he left the house by a door other than the one he entered, thereby avoiding coming in contact with Mrs. Noll, and this aroused the lady's suspicion. The man was watched and was seen carrying a package and putting it into his car, after which he went to the rear of the house. Desiring to prove her suspicion Mrs. Noll investigated and found one of her best quilts hidden in the car. The stranger was "put on the carpet" and his explanation was that he desired the quilt to be used by his men to sit on when working. The explanation was not accepted. Officers were called and appeared, but Mrs. Noll did not order an arrest, the affair being adjusted otherwise.

BOOSTER ASSOCIATION TO CELEBRATE 15TH ANNIVERSARY

It is just fifteen years since a group of Altoona merchants formed an organization termed the Altoona Booster Association, the object of the organization being to render the best possible service to their customers and also maintain a high standard of quality in merchandise at the lowest possible prices.

Throughout these years, the Association has steadfastly adhered to the high standards set at the beginning, to the advantage of the people of Central Pennsylvania, as well as those of Altoona.

Those people who patronize Booster Stores have learned to know that when the Booster Merchants make a statement pertaining to their merchandise, it can always be depended upon.

In their advertisements inviting people in the outlying districts to patronize their stores, Booster merchants have always been fair with the stores in other communities by invariably urging out-of-town people to patronize their home stores first and come to Booster Stores for the things they cannot secure in their home communities.

In their advertisement appearing elsewhere in this issue, Altoona Booster Stores invite the people of this community to attend their 15th Anniversary Sale which they are holding in appreciation of the patronage that has been extended them during the past year.

The Anniversary Sale is to start Wednesday, June 21. Altoona stores observe Eastern Standard time. The summer store hours being 9 A. M. to 5 P. M. during the week, and 9 A. M. to 9 P. M. on Saturdays.

CORPORATION TAKES OVER BELLEFONTE ACADEMY

A transition from one regime to another took place last week when the Bellefonte Academy became incorporated as the Bellefonte Academy and School of Aeronautics. On Monday night of last week Headmaster James R. Hughes invited a number of Bellefonte men to a dinner held in the Academy dining hall for the purpose of introducing a number of the new instructors who will be on the staff next year and to clarify in the minds of the students and local residents just what this transition means.

Former Judge James C. Furst, Thomas Beaver, of Bellefonte, Prof. Gordon H. Sloop, of Harrisburg, present members of the Academy faculty, a student representative, and Russell Hosterman, of Millheim aviator, who will be on the school staff, made short talks. All were enthusiastic in their praise of the addition of the aeronautics course to the present curriculum.

Mr. Kauffman, of Lewistown, will be president of the corporation and Arthur H. Sloop will be dean of instruction. Prof. Hughes will continue to be associated with the institution as will his brother, Charles, and other members of the faculty.

The Academy has been in existence for 127 years. Because of the depression it was found necessary to do something to bring students to the institution and when R. K. Adams of Harrisburg proposed the aviation school the proposal was enthusiastically received.

The appearance of the work leaves no doubt in the mind of anyone that it equally as satisfactory as hand work, and the speed with which it is done is no wise to be compared with the old method. Mr. Durst is finding plenty of work to do with his equipment, and barns, roofs and dwellings are handled with equal facility.
