WORTH WHILE!

You have an investment in your livestock, your barns, your machinery. How much is its protection worth? • It's at least worth the small cost of having a telephone! Then, when emergencies come—sickness or fire—you can summon aid without delay. Day and night, neighbors, the veterinarian, the nearest fire department are within instant reach by telephone, ready to answer your call for help.

It is far better to have a telephone on the farm and "not need it" than to need one in an emergency and not have it. You can have a telephone for less than a dime a day!
