**NRA CODE AS APPLIED TO SMALL ENTERPRISES**

Many business men face the application of the NRA code to their little enterprise with apprehension. They want to be loyal, they are good citizens, they want to help but they lack the faith to believe that they can increase salaries and continue to stay in business.

There is something to be said for those who hesitate. Many of them have remained in business only by a slight edge during the past few years. Most of them have seen savings go as they continued to operate in the hopes of returning prosperity. Many have no reserve fund upon which to call at this time to maintain themselves upon a higher cost of operation during the transitional weeks and months before they individually feel the benefits of the new policies.

Yet, there is nothing else to do. These men must follow the course of those who are more courageous and possessed with a larger faith. Either the new methods will restore prosperity, or if they fail there is no way to gauge the economic disaster which will result. Surely, the failure of the Roosevelt efforts will bring a greater loss to everybody than a common effort to sustain them. Then, too, the Roosevelt program can succeed, with general support.

Every citizen should cooperate with the National Recovery Administration. It means more than a return to business prosperity. It means a better day for millions of American homes, where children are being raised and educated. It means better living conditions for these millions, many of whom have been reduced to begging and need during the past few tragic years. The goal is worth the adventure, the attainment equal to any temporary sacrifice involved.

**BELLEFONTE TRAFFIC OFFICER, ON DUTY, HIT BY CAR**

Ralph Eyer, traffic officer, while in the performance of his duties at the corner of Spring and High streets, Bellefonte, Saturday evening, was hit by a car driven by William Roan, of Coleville, and thrown to the highway. He received injuries to his knee and hand but no bones were broken. He was taken to the office of a local physician and later to his home.

**Historical Facts**

The first county tax levied Feb. 24, 1801, amounted to \$1755.50.

Upper Bald Eagle was renamed Spring township in 1801. It embraced all the present township of Spring, Benner, Union, Snowshoe, Burnside and nearly all of Boggs.

Centre county was erected Feb. 13, 1800, but since then the boundary lines between adjoining counties have been changed to some extent, though not radically. The commissioners appointed under an act of Assembly were William Swansey, Robert Boggs and Andrew Gregg.

Believing it to be detrimental to the best interests of the inhabitants to erect a prison in the public square, permission was sought to erect it on a site selected. The prison was to be 30 feet long and 25 feet wide. Among other specifications was one calling for 'an apartment in the cellar for a dungeon, 15x9 feet in the clear, covered above with hewed logs laid close together under the plank of the floor and a proper trap-door to let light into the dungeon.' The contract price for the prison was \$1162.
