Those who have been wondering where this country was headed may find their query answered, in part at least, by a statement from Chicago that more than 20,000,000 visitors, approximately one-sixth of the nation's population, have passed the turnstiles of the Century of Progress exposition.

E. B. Thompson, who at present is a guest of his niece, Mrs. S. W. Smith, on leaving here will go to Milwaukee, Wis., and shortly thereafter to St. Petersburg, Fla., where he will spend the winter, as has been his custom for the past few years. The four-year-old daughter of Mr. and Mrs. George Harter, at Stone Mill, who had been in a hospital patient for several weeks, is back to her home and is reported improved in a general way. While removing a tire from a truck wheel, the locking ring suddenly loosened and hit the operator, Harold Bohn, a R. S. Hagan Garage employe, over the right eye, cutting a long deep gash. The wound was neatly dressed by Dr. Hugh Morrow. No serious results are anticipated although the injury causes more or less continuous pain.

H. C. Hassinger, who was at home here over the week-end from his employment at Shinglehouse, says the Millheim Journal, underwent a surgical operation upon his left eye at the office of Dr. Foster at State College on Monday. A cyst was removed from the lid of the eye, a painful operation, incidentally, and "Mike" now has some relief from his eye pain.

An Army of Children

The membership in the Junior Red Cross last year was 6,529,366 boys and girls in schools, private, public and parochial. They enjoyed volunteer work in hospitals and for orphans, the aged and crippled, and also aided their schoolfellows by providing attention for their eyes, purchasing their glasses, and giving many other types of service to them. The Juniors aid their school work by carrying on correspondence and the exchange of portfolios with school children in other nations.

TRIP TO CHICAGO DESCRIBED

BY THREE LOCAL YOUTHS

Russell Colyer and Jack Coldron, of town, and Paul Myers, of Pine Grove Mills, tell of their trip to the Century of Progress exposition in this fashion:

Four days were occupied in making the run to Chicago, beginning Sept. 18. We camped along the way, and also cooked our meals. Among the camps visited was at Kittanning, on the banks of the Allegheny river; Portage Lake State park, Akron, Ohio; along the Maumee river at Napoleon, Ohio; and Miller Beach, Gary, Indiana. Interesting points along the way were the Briam oil plant, Valvoline oil refining plant, Austin automobile factory, all in the vicinity of Butler, this State. In Akron, Ohio, the Goodrich rubber works, and municipal air port, and hangar, in Indiana a peppermint still, Gary's recreation center, Miller beach, on the shore of Lake Michigan.

Our first few days in Chicago were devoted to seeing the Illinois Steel Company works, Shedd Aquarium, Field Museum of Natural History, the beautiful Buckingham fountain, with its myriads of colored lights at night.

During the days we devoted to the fair we made our quarters at the Manhattan Lake Front Tourist Camp. The buildings that interested us most were the Traveland Transport, Hall of Science, Electrical, General Exhibits, Food and Agriculture, Dairy, Hall of States, Adler Planetarium and the Federal.

Exhibits most admired were the Modern Homes, Firestone building, Chrysler Motors sandpit demonstration, General Motors building of Chevrolet, White Owl cigar factory, Yankee shirts, Coca Cola, Havoline thermometer, auto parking tower by Nash, and the evolution of the modern reaper by the International Harvester Co.

Some of the most interesting concessions were the Belgian, Midget, African and American Indians, Abraham Lincoln Villages, Days of '49, Great Beyond, Lion Motordrome, Hollywood, Streets of Paris, Sky Ride.

Outside the fair grounds we visited the stock yards, Stock Exchange building, Swift meat packing plant.

Completing our sightseeing in Chicago we went on to Orangeville, Ill., and Monroe, Wis., the latter noted for its manufacture of Swiss cheese in many forms. The Orangeville community High School fair was also visited, as were also the Melody Boys at their home in West Chicago. At Green Springs, Ohio, we visited the health resort located at the largest sulphur mineral springs in the world.

The mileage for the trip was 2,311, and the time three weeks and three days.

Nerves Do they torture you by day? Keep you awake at night? What is it that keeps hospitals open and doctors busy? NERVES. What is it that makes your face wrinkled and makes you feel old? NERVES. Nine times out of ten it's NERVES that make you restless, worried, haggard.

Nerves Do they make you Cranky, Blue—give you Nervous Indigestion, Nervous Headache? When nerves are over-taxed, you worry over trifles, find it hard to concentrate, can't sit still. Nerve Strain brings on Headache. Nervous people often suffer from Indigestion. There may be absolutely nothing wrong with the organs of digestion, but the Nerves are not on the job to make the organs do their work properly.

Nerves Do they interfere with your work; ruin your pleasure; drive away your friends? You're cheating yourself and the man who pays you if you work when your NERVES are not normal. You can't have a good time when you are nervous. You can't make or keep friends when you are keyed up and irritable. You may excuse yourself, but to others you are just a plain crank.
