CENTRE HALL, PA., THURSDAY, DECEMBER 7, 1933.

NO. 48.

Wheat Production and Acreage Statements of Members of the Wheat Production Control Association

OF CENTRE-HUNTINGDON COUNTY, STATE OF PENNSYLVANIA

The following is a statement of the production and planted acreages of wheat in the years 1930, 1931, 1932, and 1933 of producers of Huntingdon County and Community who have submitted applications for farm allotments. This publication is made in compliance with the regulations of the Agricultural Adjustment Administration. It is made so that a check may be made on all statements claims, and so that reports may be made to the county Wheat Production Control Association on any inaccuracies which may appear in the statements. The allotment for this county has been definitely calculated from official records of the United States Department of Agriculture, and is 2391 bushels. This is the total allotment for the county. Therefore, if any farmer receives

a greater allotment than his past production warrants, he is thus depriving other farmers in this county of their just share. Total production figures of those who apply for contracts, together with those who do not, must be consistent with the official county production as shown by the records of the United States Department of Agriculture. If the county totals are greater than the official totals, it will be necessary to make a downward adjustment. Any person may make a confidential report if he finds any statement here which he believes to be inaccurate. Such reports should be made to the community or county Allotment Committee, either in writing or verbally. The reports will be strictly confidential. A farmer whose statements are said to be inaccurate will need to prove his

production figures. Farmers have been asked to furnish evidence of sale, such as thresherman's certificates, elevator certificates, or other records and receipts. Satisfactory evidence will be required of any farmer whose statement is questioned. The following statements have been condensed to save space. "A" represents acres planted and "bu." represents bushels harvested. The "3-year average" represents the 3-year average acreage and production of 1930-32. Farmers should refer any questions regarding this publication to their Community Committee or the County Allotment Committee. (Signed)

GEORGE MOTHERSBAUGH, Chairman County Allotment Committee
HARRY A. CORMAN,
NORMAN E. BLACK.

HUNTINGDON COUNTY

Community Committee: Joseph E. Houck, Paul L. Robb, Norman E. Black.

Any person making complaint to inaccuracy of statements shall do so before December 12, 1933, to the County Allotment Committee.

BELLEFONTE AND ALTOONA

COUPLES IN AUTO WRECK

Mr. and Mrs. Luther Shoemaker, and Charles Rhoades, of Bellefonte, R. D., and Mrs. Ruth Hazlett, of Altoona, are patients in the Centre County hospital, suffering from injuries received in an automobile accident about 9:45 Friday evening. The accident occurred when their car left the highway between Bellefonte and Axemann, and struck a tree.

Mr. Shoemaker suffered a laceration of the head injury to the right shoulder and left hip.

Mrs. Shoemaker suffered lacerations and bruises of the body and face.

Mrs. Hazlett and Mr. Rhoades received lacerations of the hip, face and

body. The four suffered so severely from shock that an X-ray examination could not be made immediately, and fears were entertained that probably such an examination will reveal additional injuries.

Penn State Student Injured In Accident

Donald Ayres, 19, a Penn State student, was admitted to the Lewisburg hospital last Thursday with a fractured skull as the result of a motorcycle accident in the Seven Mountains near Potters Mills, when the motorcycle was riding left the road. The cause of the accident was undetermined. Ayres was found along the road by nearby residents who heard the motor-

cycle running. He was of his way to his home for Thanksgiving Day from State College.

SUB-ZERO WEATHER AND SNOW FOR DECEMBER

Snow and sub-zero temperatures are to be anticipated with the arrival of December, according to weather statistics covering this month for the last decade.

There has been only two years in the last 20 years when no snow fell in December. They were 1922, when first snow of the winter did not appear until late in January, and 1928, when more than one inch of snow was registered in November of that year.

LOCAL COUNCIL & SCHOOL BOARD TAKE ACTION ON CWA PROJECTS

If Centre Hall projects for giving work to the unemployed under the Civil Works Administration program go through, there will be a busy winter season for local labor.

Borough council, at a meeting Friday night, passed a resolution requesting an oil-bound Macadam road for Hoffer street, 3600 feet in length and 18 feet wide; also, completion of the water works undertaking.

The local school board, at a session Monday evening, outlined several projects, namely, the digging of a cesspool at the grade school building; excavating at the grade school building to provide a larger cellar, and the painting of the exterior woodwork on both school buildings. Practically the only expense to the borough on the school projects would be the paint for the buildings. On the Hoffer street project, it is believed the item of stone can be reduced to a minimum.

Applications for all projects have been filed with the county administrator and as rapidly as the State approval can be had, work will be authorized to begin.

LOCAL M. E. PASTOR ACCEPTS MORRISDALE CALL

Reverend H. A. Pruy, pastor of the local (Penns Valley) Methodist Episcopal charge, with residence at Spring Mills, has accepted a call to the Morrisdale Methodist Episcopal church, and left with his family for the new field on Tuesday of this week.

The Rev. Seth Russel, of Pine Grove Mills, will be the new Penns Valley charge pastor, and will preach his inaugural sermon December 10.

Rev. Mr. Pruy served the local charge for a period of four years, following Rev. C. E. Hazen. His many Penns Valley friends wish him unbounded success in his new field.

ELECTRIC KILN INSTALLED BY CHEMICAL LIME CO.

An electric lime kiln, the first of its kind in the United States for the separation of limestone into lime and pure carbon dioxide gas, was put into operation Monday of last week at the Chemical Lime Company plant near Bellefonte. The kiln represents about six years of hard work on the part of Robert S. Walker, of Bellefonte, its inventor. The basic patent rights have been granted in Mr. Walker's name and cover the electrical separation of limestone and carbon dioxide.

LOCAL MINISTERIUM MEETS.

The Penns Valley Ministerium met in the Reformed parsonage on Monday afternoon. All of the local ministers were present.

Resolutions were adopted expressing the regret of the members of the ministerium at the departure of Rev. Harold Pruy, pastor of the Methodist church, who has been transferred to Morrisdale. Rev. Pruy during his stay here has endeared himself to his fellow ministers as a Christian brother.

FARM DWELLING NEAR CURTIN IS PREY TO FLAMES

Fire broke out about 5 o'clock Friday morning and destroyed the home of Mr. and Mrs. Harry Leathers, between Curtin and Mt. Eagle. Mr. Leathers was at a hunting camp at the time of the fire. His son and the hired man had made a fresh fire in the kitchen range and had gone to barn to do the morning work prior to going hunting. The fire company was summoned but the fire was beyond control before the firemen reached the scene. By the aid of neighbors they were able to save the barn. The loss has not been determined but it is partially covered by insurance.

Lutheran Missionary Society Members Give Thanks.

"Thanks Living Around the World" was the title of a program given by the various divisions of mission workers in the Lutheran church at their annual Luther-offering service held the other Sunday evening. The contributions for the year were as follows: Woman's Missionary Society, \$38.50; Young People's Society, \$60.00; Light Brigade, \$19.50; total, \$118.00.

HORSES AT GRUENEWALD SALE AVERAGE \$125.48

The horse sale held here Monday of last week by William Gruenewald, of Corsica, So. Dakota, proved satisfactory to the owner. The high team passed for \$359.00; a team of mules brought \$300.00, while the best price paid for a single animal was \$142.50. The average price was \$125.48. It was a good load of horses and Auctioneer E. M. Smith had no difficulty in getting bids.

Following is a list of the purchasers and the prices paid:

Christ, Beaser, Bellefonte, 1,...	\$100.00
Ralph Luth, Centre Hall, 1,...	142.50
W. R. Stoner, Centre Hall, team	350.00
John Neff, Spring Mills, 1,...	127.50
F. Moore, Bellefonte, R. 3, 1,...	117.50
John Lee, Spring Mills, 1,...	102.50
Frank Leister, Lewistown, 1,...	80.00
Frank Leister, Lewistown, 1,...	100.00
W. B. Krebs, Selinsgrove, mules	300.00
George Lohr, black team,...	250.00
George Lohr, 1 mule,...	130.00
George Lohr, Centre Hall, 1,...	100.00
Frank Donovan, Bellefonte, mule	140.00
Ward Tots, Salona, 1,...	85.00
C. E. Kerstetter, Mifflinburg, 1,...	87.50
C. C. McMonigel, Pt. Matilda, 1,...	87.50
Mr. Oliver, Penna. Furnace, team	325.00
John Rimmey, pony,...	30.00

NATIONAL GRANGE MAKES EMPHATIC DECLARATIONS

The annual session of the National Grange, just closed at Boise, Idaho, attracted nation-wide attention, because this great farm organization, with 32 states in its voting body, made emphatic declarations upon live, present-day issues; particularly affecting agriculture and the rural welfare.

Two of the more important issues upon which the National Grange took action were:

Controlled Inflation: The Grange announces its policies in these declarations—

(1) Earliest possible use by the President of the power conferred by Congress to bring about a rise in the commodity price level, through controlled expansion of the currency.

(2) Issuance by the Government of non-interest bearing Treasury Notes to pay at least a part of the public works program; to liquidate the sound assets of closed banks or to retire United States bonds; with definite provision for redemption of such currency at a given rate per year.

(3) Hearty support of the Banking Act of 1933 and vigorous opposition to any proposal for the repeal of that feature which provides for the guarantee of bank deposits.

(4) Better protection for the smaller rural banks and opposing any Federal or State system of branch banking.

(5) Correcting the disastrous period of deflation
