

ITEMS OF LOCAL INTEREST

Mrs. John Mowery has been seriously ill for the past week at her home west of Centre Hall with sinus trouble.

A son was born on Thursday to Mr. and Mrs. Harry Evans, Jr., Millheim. The new arrival is the second child, the first having been a girl.

James Hosterman, aged about thirty-five years, was taken to the State Hospital, Danville, on Friday, by relatives. He is a resident of Millheim. Hard liquor, it is said, is largely responsible for his present condition.

Miss Gladys Heckman, a graduate nurse from the York City hospital, was among friends about here for a week or more. She was taken back to the hospital by her brother-in-law and sister, Mr. and Mrs. Archey Moyer, on Sunday.

Through the efforts of the Spring Mills Fish and Game Association a large number of minnows were recently placed in Penns and Sinking creeks. The minnows were shipped from Pleasant Mount fish hatchery, located in Wayne county, and are intended for food to be consumed by game fish.

Mr. and Mrs. C. N. Kryder returned Tuesday evening after a few days' trip to Ohio. At Cleveland they visited friends, and while Mrs. Kryder remained there, Mr. Kryder made a run down to Parkersburg, W. Va., where he attended a stockholders' and directors' meeting of the United States Lumber company.

Up to the beginning of this week the expenditure for labor and teams from the CWA funds for the Hoffer street project sums up to approximately \$2500. This does not include material, which is paid for from borough funds. The school project is pretty well completed, and the water plant project was completed a week ago. The funds allotted will be sufficient to complete the remaining two projects as was the case in the water plant.

Harold Potter, formerly of this vicinity, and half-brother, Herman McMahon, brothers of Miss Edith Potter, of near town, took a trip to California and Texas. On the way out they took the South-rn route, going through Kentucky, Tennessee, Arkansas, Texas, New Mexico, Arizona and California, visiting Hollywood, and Los Angeles. Returning, the came by way of Nevada, Utah, Wyoming, Nebraska, Iowa, Illinois and Indiana. The trip covered over 7,000 miles. The boys left Nov. 22, 1933, and reached home January 7. Harold has been making his home in Meadville for some time.

GRAND AND TRAVERSE JURORS DRAWN FOR FEBY COURT

The following list of grand jurors have been drawn for service the second Monday of February: Harold Ashby, laborer... Phillipsburg Roy Barto, laborer... Penna. Furnace Oliver Bell, laborer... Clarence Wilbur Bachman, laborer... Spring T. Geo. Barnacough, farmer... Snow Shoe Charles Burrell, farmer... Gregg T. Cordis Chambers, miner... Clarence J. T. Dunkle, farmer... Walker T. Miss Luetta Edmiston, stenog. St. Coll. Toner Heverly, laborer... Bousburg John Hubler, laborer... Phillipsburg George Hoffman, salesman... Phillipsburg D. M. Kline, raised... Bellefonte Samuel Leitzel, laborer... Fort Matilda Elmer Limbert, farmer... Millheim Charles Musser, clerk... Bellefonte Van D. Meeker, farmer... Potter T. Victor Rupeck, laborer... Osceola Mills Wm. W. Smith, farmer... Spring Mills Jasper Shawver, laborer... Spring Mills James Starrett, laborer... Milesburg Mrs. Harry Ulrich, hkr... Bellefonte Mrs. Alpha Ziegler, hkr... Rebersburg

Among the traverse jurors drawn for the fourth Monday of February are these from this vicinity: John Q. Bohn, farmer, Potter township; F. A. Carson, merchant, Potter township; Mrs. Harry Condo, housekeeper, Spring Mills; Ross Lowder, farmer, Oak Hall; Robert M. Smith, postmaster, Centre Hall; Grace V. Tressler, housekeeper, Potter township.

CWA SAFETY FIRST PROGRAM: SAFETY INSPECTORS APPOINTED

In order to reduce and prevent accidents and to insure proper care for the injured until medical attention is secured, the Federal Civil Works Administration has inaugurated a safety first aid program in connection with the thousands of CWA projects under way throughout the country and has called upon the Red Cross to assist in carrying on this program. A National Director of Safety and a Director of Safety

Spring Mills

A Collection of Newsy Happenings and Personals from Gregg Township's Metropolis.

Mr. and Mrs. J. A. Wagner spent the week-end in Williamsport with their son, Theodore Wagner, and family. Mrs. C. A. Krupke became ill and on Monday a physician was called to give medical aid.

Mr. and Mrs. Bruce Bailey, during the latter part of last week, were transported to Lewisistown by Blaine Bitner.

F. T. Jamison was able, on Saturday, to make a trip to Bellefonte and while in the county seat called on R. F. Hunter, county treasurer, who is ill.

Mrs. Erdley, wife of cashier H. F. Erdley, mention of whose illness was made last week, is gradually recovering and on Monday was able to be down stairs for the first.

The well bred and well trained fox-hound owned by Jacob Sharer, Jr., is given much credit for making it possible for his owner to capture a fine fox recently.

Mr. and Mrs. Elmer Rossmann and Mr. and Mrs. Harvey Rossmann, of Bellefonte, were recent guests of Mr. and Mrs. H. F. Rosman. The latter Mrs. Rosman, by the way, beginning of this week suffered from a severe cold.

The Groce Silk Mill shut down on Friday, but it is thought the employees will be called back to work again before this week is over. The only reason for the mill closing down was the fact that the material on hand had all been consumed.

Fred Vonada, of Zerby Station; W. F. Keller, of Centre Hall; Mr. and Mrs. John Foster, of Millheim; Z. A. Weaver, of the Sheffield Farms milk plant, Cohn, were in the village on business during last week.

Mrs. Mathias Weagley, one of the aged ladies in Gregg township, now living with her daughter, Mrs. A. B. Lee, is ailing again. Mrs. Weagley suffered two paralytic strokes during the past year—one recently. Her condition at present is very serious.

Clayton B. Stover, elected a justice of the peace in Gregg township, lifted his commission and is now functioning as a justice. Mr. Stover is well qualified to fill the position, one of much more importance than many people realize. The other justice in the township is Robert Musser, one of the Centre county magistrates.

Many villages and township residents are anxiously awaiting the report on the Community Hall project, and are hoping the project will be accepted by the CWA. Unlike in many projects undertaken in some sections, the movement is backed by a large percent of township taxpayers, a spirit highly commendable.

The county commissioners—Messrs. Spearly, Brungart and Holtzworth—sat to hear appeals from the judgment of J. S. Reich as assessor for Gregg township. Quite a few property owners appeared before them, but it is said most of them failed to present sufficient evidence to induce a change of valuation. The assessor elected at the November election, is Harvey Rote, but he had no part in making the last assessment.

(Continued from previous column)

ty for each State has been appointed or will be appointed by the F.W.A., and each State Director will in turn appoint district directors to cover definite sections of the State. There will be eight district directors in the State.

Through these district and community directors arrangements have been made to select a group of CWA employees, arrange for their training in first aid and safety work, and assign one to each CWA project employing over 10 men. On the smaller jobs this man, who will be known as the "Safety Inspector," will, of course, have other duties. On the larger jobs he may devote all of his time to safety and first-aid work.

Courses in instruction started on Monday at the W. C. T. U. rooms in Bellefonte and will run three hours each day for five consecutive days, hours to suit local conditions. Instructors will cover complete Red Cross standard first-aid course and examination. A man will be selected from each project to take the course. Drs. Richards H. Hoffman, Paul M. Corman and Joseph Parrish, Miss Eckert, superintendent of the Centre County Hospital Training school for nurses, have been asked to volunteer their services as instructors along with the first-aid crew of the West Penn Power company and the safety instructor from the several industries in the community.

For Centre Hall, safety inspectors appointed are Richard Bailey and Ralph Neff, while Russell Colyer is the "safety" man on the Blue Ball road job.

THE TIGER

[Taken from the current number of "THE TIGER," Centre Hall High School paper.]

"TIGER" PLACES SECOND IN SCHOOL PRESS ASS'N CONTEST AWARD

The "Tiger," for the second successive year, received the medal for second place in the Pennsylvania School Press Association contest held annually during the Christmas holidays.

The magazine was judged this year at Philadelphia where the contest was held in conjunction with the P. S. E. A. meeting of teachers.

The staff has not received any details of the contest yet, so the other winners are not known. Last year however, Coughlin High School of Wilkes-Barre won first place and Roosevelt Junior High of Altoona placed third.

FIVE C. H. H. S. STUDENTS COMPETE IN FARM SHOW

Competing with the winner of first place in every breed, the Southdown lambs owned by Alice Foust 34, won the grand championship at the State Farm Show in Harrisburg last week. When auctioned off after the show these lambs brought fifty-one cents a pound.

Freda Burkholder, '35, exhibiting Hampshire, won first place in that breed and Richard Ross, '34 and Margaret Ross, '36, placed eighth and tenth respectively. The Shropshire lambs owned by Richard Luse, '37, placed fourteenth.

Alice Foust, Freda Burkholder and Margaret Luse also composed a corn-judging team which won the first prize of forty dollars.

During the past year Richard Ross has been president of the lamb division of the County 4-H Club of which all these young lamb raisers are members.

County Superintendent Rogers excused from classes all the High school exhibitors of stock so that they might attend the Farm Show for three days, and yet not be counted absent from school.

H-I-Y CLUB INAUGURATES CLEAN-SPEECH CAMPAIGN

The local H-I-Y Club sponsored a clean-speech campaign from January 2 to January 16. The purpose of the campaign was to eliminate the use of swearing and bad speech.

If a H-I-Y member using unbecoming speech was heard, he was given a black mark. At the end of the two-week period black marks were totaled and the man with the lowest number was given the right to paddle all members who had more black marks against their names than he. The severity of the punishment depended on the number of lapses in the clean-speech habit.

OUTDOOR BASKETBALL PLEASES WINTER SPORTS ENTHUSIASTS

The first basketball team of C. H. H. S. is being developed by Hugo Bringer, who plans to pit it against one from Spring Mills.

Basketball was started in the early fall by those not competing in soccer. An outdoor court was laid off and baskets were erected. Since the close of the soccer schedule several inter-class games have been played, the Sophomores proving the victors.

School Janitor Loses Time Because of Rheumatism

Mr. Frank Arney, janitor of the local schools has been ailing from rheumatism in his left hip. The rheumatism has affected him to the extent that he can not fulfill his duties as janitor. He has been absent from his work since January second.

Mr. John Whiteman is filling the place until Mr. Arney is capable of doing the work again.

"RUTHS" AND "SARAHS" TIE FOR POPULARITY: "DONALDS" FIRST AMONG BOYS' NAMES

What a conglomeration of names! Christopher, Graham, Elise, Malten, Willie, Bowers, Geneva, Athlon, Rhoda, Waldo, Lorenzo, Eida, Vinton, Violetta, Adella, Lamuel, Laurine, and Felix are only a few of the unusual names which are represented in this school. (Many of these are "middle names.")

Looking through the records on file at Centre Hall High School one finds

all kinds of information. Here's something: There are more "Ruths" and "Sarahs" than any other girl's name in school, and incidentally these names tie for prominence. Among the boys the name "Donald" has a large majority over the remaining boys' names. The "Robert" and "Williams" rank second.

Did someone say "Smith" is the most common last name? Right. (It's too bad the Brown family isn't represented.) The "Bradford" are next in line.

Nine pupils answer to middle names. By the way, the youngest person attending high school is eleven years of age.

SOPHOMORES WIN OUTDOOR BASKETBALL ACTIVITIES

The Sophomores were victorious in a series of inter-class basketball games against the Juniors and Seniors. The Sophomore team was composed of: Forwards, Donald Coldron and Robert Horner; center, Kenneth Frank; guards, Dean Weaver and Woodrow Bradford.

It is the intention of the basketball players of the school to form a team and contest with a secondary team at C. T. V. S. This game will be largely for practice and experience.

BOARD PROPOSES GRANDSTAND ERECTION ON B. B. FIELD

The School Board is contemplating the erection of a grandstand on the high school baseball plot to replace the wooden bleachers that have been in use for the past eleven years. The new stands, which would be erected by C. W. A. labor, would accommodate approximately four hundred fifty persons and would be available for use in the next baseball season.

Grading of the diamond and outfield are also included in the proposed project.

TRI-HI PARTICIPATES IN DISCUSSION GROUP AND CHURCH ATTENDANCE

The Tri-Hi-Y has organized a "discussion group" with the purpose of asking and discussing questions on Biblical subjects.

The Club also attended church in a group on Thursday, January 4. The sermon was given by Rev. J. W. Zang on "Problems Outside the Church."

New members will be initiated into the Tri-Hi-Y club after the First Semester of school is over.

HONORS ARE CONFERRED UPON 4-H CLUB MEMBERS

The 4-H County Lamb Feeding Club held a local round-up at State College on January 6 to select the eight best pens of ten, which are to be taken to the Farm Show at Harrisburg January 17. Members of the 4-H Club who attend the C. H. H. S. and received high places in the round-up were: Alice Foust '34, first place; Freda Burkholder '35, second place; Richard Ross '34, fourth place; Margaret Ross '36, fifth place.

New "Knee-Action" Chevrolet Gives Passengers Ride Like a Glide

In the design and development of the new 1934 Chevrolet, particular attention has been given to driver and passenger comfort, all annoying vibrations of disagreeable sound and feeling having been eliminated. The upper photo shows the new Chevrolet coach with its long, sleek lines. Wind rush has been eliminated by the Fisher No Draft Ventilators and the new streamlined bodies. Chevrolet's "Knee-Action" wheels enjoy the advantage of being completely enclosed in a weather-tight housing the coil springs and shock absorbers ride in a bath of oil. William E. Holler, Chevrolet's general sales manager, is shown at the left holding a chart which shows the internal construction of the system. The radiator of the new car has added heft through its graceful and sharply pointed design. Smartness has been the theme in every line of this year's Chevrolet.

The driver and passengers in the new 1934 Chevrolet get a ride like the glide of an airplane. One of the main factors in improving the riding qualities of the new car to such a great extent is the "Knee-Action"—or independently sprung front wheels, to use the technical term. So much has been written about independent springing that the public has doubtless concluded that it is something too technical to understand. As a matter of fact, there is nothing complicated about either the principle involved or the construction of the system. Chevrolet's "Knee-Action" enjoys the advantage of being enclosed in a welded weather-tight housing in which the entire spring mechanism and shock absorbers ride up and down in a bath of oil. An automobile gives a perfect ride when both the front and rear springs have the same "frequency," or tension. Actually this has been impossible to carry out in the past because the front springs had to be over twice as "stiff" as the rear springs in order to hold the front axle, wheels and brakes in place. In independent springing, the wheels and spring mechanism are rigidly attached directly to the frame and there is no front axle. By relieving the front springs of the task of carrying wheels and axle, therefore, it became possible to make the front springs as "soft" as the rear springs. When the new Chevrolet strikes an irregularity in the road, both front and rear move up and down with the same frequency—there is no inclination on the part of the rear end of the car to leap into the air and throw the passengers forward and upward.

Chevrolet's "Knee-Action" has additional advantages all contributing to a comfort in riding never before thought possible in a motor car. There is a decided improvement in handling, steering, safety at high speeds and tire economy. In design, the front spring is a neat, compact and efficient unit, as Mr. Holler points out in the above picture. The entire spring mechanism is attached rigidly to the frame. From this enclosed unit the wheels spring vertically at the ends of strong, steel horizontal arms.
