A "clean-speech" campaign was conducted by the Hi-Y club of C. H. H. S. Principal R. S. Jamison has been taking care of the furnace during the illness of our peerless janitor, R. S. J. has not one mark against him on the "clean-speech" campaign's blacklist. The age of miracles is not past. Maybe the furnace accounts for this. This could not happen during soccer season. When asked in an interview "How do you do it," he nonchalantly explained, "I use climatic control." Some of the Hi-Y members wore strings about their fingers to remind them of the campaign. It has been recommended that huge red ribbons be used because simple strings do not seem explicit enough.

It seems strange that the same lousy smell should come from the chemical laboratory as it did during the year of '33. The class of '34 must have inherited the formula from the preceding classes.

The clock for many moons has seemed to say as Coolidge did: "I do not choose to run." The golden bird perched above its face says nothing but its countenance implies, "Quoth the eagle, nevermore."

EXAMS. REPLACE CLASSES FOR TWO DAYS THIS WEEK

The following schedule was used for the first semester examination Monday and Tuesday, January the twenty-second and twenty-third.

MONDAY, JANUARY 22—First period, P. O. D., Engl. 3, Math. 2 and Gen. Sci.; second period, Civics, Eng. 2,

Math. 3, and Chem.; third period, Hist. 2, Engl. 1, and Physics.

TUESDAY, JANUARY 23—First period, Hist. 3, Biol., Math. 1 and Econ.; second period, Econ. Geog., Health, and Latin.

On Wednesday the regular schedule was resumed.

If anybody could go to high school more than once, one would notice a change in many of the studies, clubs and social events.

Seven or eight years ago the students enjoyed fewer social events during the year. The big social event was the Halloween Party. The members of the classes would mask and the school had a parade through the town. The Senior class held several box socials during the year and the money made from this would go toward the Washington trip, an activity which began as a graduation outing.

Some of the outstanding clubs were Nature and Dramatics. Clubs such as Hi-Y and Tri-Hi-Y were not known to them.

The class of '27 was the first class to wear caps and gowns at their Commencement exercises. This class was the class that organized the Alumni Association of Centre Hall High School. This organization has been continuing since that year.

The class of '28 instituted the custom of paying a speaker to deliver the address at the Commencement exercises. Senior class plays and operettas were unheard of until within the last six or seven years. School plays were given instead.

The culmination of all school social activities in years past was the annual spring school picnic. The event took place rain or shine in some nearby park or occasionally at a hunting club.

With the increased enrollment many of these activities have been outgrown and school "society" centers around the class rather than the school as a social unit.

SENIOR CLASS PRESENTS PLAY, "FULLER'S FORTUNE"

A play, "Fuller's Fortune," was presented by the Senior class in the Grange Arcade, December 9, 1933. The play proved a success financially as the class cleared nearly thirty dollars.

The cast follows: Judge Fuller ..... Richard Ross  
Bronco Bright ..... Jack McClenahan  
Betty Bright ..... Ruth Hartley  
Mary White ..... Mabel Burkholder  
Mrs. Scotty ..... Beulah Meyer  
Mrs. Scotty ..... Paul Foust  
Mrs. Brittlepop ..... Ruth Reiser  
Walter Davidson ..... Reuben Ricker  
The money received will go toward the Senior trip to Washington.

THE MODEL "T."

None other than a Senior girl comes in the road in an old black Ford every morning about 8:30. The rattling of the engine can be heard above the hollow clanking of the milk cans.

When the four o'clock bell rings every boy rushes out to push the model "T." If it doesn't start by the push method the hind axle is jacked up off the ground, and some energetic student

turns the crank until the putt-putt of the engine is heard. Alas "gives it the gas" and after four or five students clamor on, the Ford hops along the old familiar pike into Centre Hill.

What a life for the Model "T." No wonder it is rugged and its streamlines are bent. Its outstanding features are its three-wheeling and complete air-cooling.

Each pair of pupils finds material on the given subject and then one of the two reports individually to the class while the other members of the class take notes on the reports. PROF. J. F. WETZEL PLANS RETURN TO SCHOOL FOR EARLY PART OF SEMESTER

Mr. Wetzel has been improving rapidly from a severe attack of pneumonia and expects to return to his position as principal by the first of March. His position is being filled in the meantime by Mr. Bringer as teacher and Mr. Jamison as principal. Mr. Wetzel has been returning to school an hour or two at a time during the past week.

He has been taking treatments at the Geisinger Memorial hospital at Danville in order to completely recover his health.

OUR ALARM CLOCK.

Our alarm clock sits quite boastfully on top of the kitchen cabinet. Its former home was upstairs on the dresser, but since the downstairs fireplace is broken, Mr. Alarm Clock was transferred to the kitchen.

It plays a very important part in the lives of our family. The whole day's schedule is based on the face of that little clock, and I guess it has a right to be proud. I have often wondered how it keeps from bursting at all the stares and glances it receives. It attracts more attention, by far, and suffers more glances than anything else in the house.

It must, however, suffer some nervous condition, because sometimes it screams aloud, right in the middle of the day. On the other hand, when a member of the family feels industrious enough to get up early, the clock dozes off and forgets to ring.

When it feels quite cocky, and wonders what we would do without it, it stops working. Then someone winds it and its usual good humor is again restored.
