

Spring Mills

A Collection of Newsy Happenings and Personals from Gregg Township's Metropolis.

The new bridge over Penns Creek, on State Highway No. 45, at the Spring Milling Co. mill, will be completed and opened for travel in ten days, according to the prediction of Carl Flier, of State College, the construction boss, and all round gentlemen. There is not a rivet in the whole structure, all the heavy girders, braces, etc., being electrically welded as they were placed in position. Beginning of the week the floor was being laid. The floor is made up of pine rails, six or seven inches wide and one and one-fourth inches thick, set on edge, the pine having first been thoroughly saturated with creosote. On this will be laid the wearing surface consisting of two inches of Macadam. The walk floor will be of the same wood as the main bridge floor, laid flat, the Macadam omitted.

The Erdley and Watts families are located in their new homes, and the exchange was much like swapping horses, each one was better suited after the deal.

They reached the well known camp over the new road through Synagogue Gap and over the mountain.

Mark, Mrs. Paul Swabb and daughter Isabel, on Saturday, autoed to Lewisburg, where they devoted the day to shopping and calling on friends.
