SPACE GRAFTERS.

A waste paper basket mounded high with "junk" from the morning mail convinces us once again that no one receives the amount of propaganda, canned material, free readers and plain efforts to graft space, that a newspaper editor does.

No one would think of asking a clothing merchant for a \$20 purchase gratis; or a grocer for \$5 worth of produce; or a garage for \$4 in free service. Yet individuals, corporations, causes, churches, societies, manufacturers, inventors, and just plain nuts write in weekly to ask for more space as "free matter" than the average newspaper is able to sell at advertising rates. If one out of every thousand gained one-thousandth of what they asked, every newspaper in the country would be in the hands of a receiver before the six-month period had ended.

OLD AGE ASSISTANCE PAYMENT DUE DEC. 1, MAY BE DELAYED

The last session of the State Legislature passed the Old Age Assistance Bill, the funds for which will be allocated to counties on the basis of population and are to be administered by the County Mothers' Assistance Board. The amount Centre county will receive for the first two months is \$294.40, or \$162.20 a month, as was mentioned in these columns last week. The board in its statement sent out last week says:

A maximum payment to any one person will be \$30 per month. First payments of these pensions shall be made for the month of December, 1934, but owing to the vast amount of investigation incident to satisfying the legality of this new law, the checks may be developed somewhat.

Pensions shall be granted under this Act only to an applicant who:

- 1. Has attained the age of seventy years, or upwards;
2. Has been a citizen of the United States for at least fifteen years before making application for this pension;
3. Has resided in Pennsylvania continuously for the past fifteen years;
4. Is not an inmate of any prison, jail, workhouse, insane asylum or public reform or correctional institution;
5. Has not, in the past two years, been a professional tramp or beggar;
6. Has not, within the past 15 years, without just cause, deserted husband, wife or minor children, or failed to support same, for a six months' period;
7. Is indigent and has no child or other person responsible under the law of Pennsylvania, able to support him or her.

The Mifflinburg Telegraph produces figures showing how much each pensioner will receive. The figures are interesting and are reproduced here:

Sixteen cents a day, enough for a loaf of bread and a pint of milk, will be the portion of Union county needy persons over 70 years of age who will receive "pensions" under the Pennsylvania's so-called Old Age Pension Act when it goes into effect in December. Only sufficient funds are available to operate the system during December and January.

Union county has been allotted \$1,200 per month for December and January. Two hundred and fifty aged persons in Union county are due to receive the assistance which if equally divided would give each person \$4.80 per month, or 16 cents a day, for food, clothing and shelter. The local authorities are also required to contribute \$100 to the funeral expenses of any pensioner who dies. This would further reduce the pittance which is allowed the surviving pensioners.

The inadequate Old Age Assistance plan was enacted by the special session of the legislature in 1933. The legislation drawn up by Attorney General Wm. A. Schnader appropriated \$4,000,000 for old age assistance from the anticipated net profits of the State Liquor Stores System, which profits failed to materialize.

1934 Red Cross Poster Invites Your Membership

A history of the disasters in the United States in any year is written annually by the American Red Cross, according to Chairman John Barton Payne, commenting on the report for the year ending June 30, 1934, which has just been issued in Washington. "Because of the charter provision which places upon the Red Cross the responsibility for disaster relief, our chapter and staff workers are notified of all calamities of storm and fire and flood," he continued. "The emergency period may prove to be brief, in cases where the victims have their own resources to draw on. While it lasts, however, whether it brings the immediate need of food, clothing and shelter for the homeless, or entails a program of investigation and rehabilitation, the Red Cross is the official director of all relief." "Technique acquired by the Red Cross in these disasters and the hundreds of others we have handled is at the service of the public," Chairman Payne said. "To make this possible the disaster relief service has issued a manual containing instructions for chapters interested in advance preparations for emergencies. Disaster institutes were held last year in 25 strategic locations, to enable Red Cross and civic workers to formulate plans for possible disaster emergencies in their communities." "Support of the disaster relief activities of the Red Cross comes from the annual roll call held each year from Armistice Day to Thanksgiving Day.
