

Spring Mills

A Collection of Newsy Happenings and Personals from Gregg Township's Metropolis.

George Zerby, the Penn Hall antique dealer, made a shipment of his collection to points in Ohio and several other adjoining states. The articles were crated by Guy Corman, who is his "official" crater.

Albert Lingle, an enthusiastic Republican of near Millburg, circulated among residents in Spring Mills on Monday. He was a former resident of Georges Valley. Although turned down at the primaries as the Republican party's candidate for sheriff, Mr. Lingle continues to march with those who punctured his political balloon before it soared out of reach.

Nine stiches were required to bring together the rend a saw made in the back part of the thigh of Albert Lingle, while sawing wood into stove lengths at the home of his brother, Edward Lingle, in Georges, Valley. While in a stooping position the part of the circular saw extending on the under part of the saw frame struck him. A large two foot rule carried in his hip pocket was picked from it by the saw teeth and hurled a considerable distance. It is likely that the rule was largely responsible for the injury to be even as slight as it was. Mr. Lingle is aged about 42 years and makes his home with his brother, Calvin Lingle, Spring Mills.

Jacob McCool, tenant on the Krape farm at Beaver Dam, who was confined to the house due to an attack of lumbago, is able to be about again.

The G. T. V. school soccer team tied with Rebersburg in a game last week. They are preparing to play the P. S. C. freshman team this week.

C. B. Stover made an early morning trip to Sunbury on Monday.

A regular meeting of the Spring Mills Fish and Game Association will be held in the Vocational school building this (Thursday) evening at 8:00 o'clock.

The Hallowe'en parade sponsored by the Spring Mills band was a huge success. FARM CALENDAR.

Timely Reminders from Pennsylvania State College School of Agriculture

STORE WINTER VEGETABLES—Store beets, carrots, turnips, cabbage, celery, and potatoes in a cool, slightly moist place, onions in a dry, cool place, and pumpkins, squash and sweet potatoes in a dry, fairly warm place.

FEED SYRUP TO BEES—To prevent dysentery, feed each colony of bees from 10 to 12 pounds of sugar as a thick syrup. This syrup can be made from 2 1/2 parts of white granulated sugar and 1 part of water by volume. Heat only enough to dissolve the sugar and make a smooth syrup.

PRODUCE WINTER EGGS—Records kept on Pennsylvania flocks show that winter egg laying is necessary for the highest and most profitable egg production. The high-producing flocks laid practically two and one-third dozens more eggs per hen during the months of good prices than did the low-producing group of flocks.

FEED TO MEET NEEDS—Dairy-men who produce the cheapest milk weigh or measure the grain for each cow. Guernseys and Jerseys should receive one pound of grain for three pounds of milk produced, while Holsteins should get one pound of grain for 2 1/2 pounds of milk. The amount will vary somewhat with the richness of the milk.

RED CROSS MEMBERSHIP DRIVE SOON TO START ABOUT HERE

Next comes the Red Cross drive.

There are few organizations which stand out so conspicuously before the public as the American Red Cross. It has proved its worth on thousands of occasions, in disasters, floods, fires, drought and wind storms which have laid property waste and caused distress to the people of wide areas. But this is only some of the functions of this splendid organization.

The Red Cross as a local unit has done a noble work and has maintained its integrity for many years. It has been the source of relief to hundreds of persons in distress and many families have been given aid through the funds which are provided for the Red Cross through the memberships. The memberships really provide the only funds through which the local chapter is able to operate and carry on the splendid work which has always been its part in the great social program.

There is no other organization which is so completely equipped to furnish immediate help in time of real need as the Red Cross. In times when speed is important for aid to the distressed the Red Cross is in a position to function immediately. It does not have to go through long processes of unwinding red tape but is on the job immediately with complete equipment for handling any condition. The Red Cross is one organization which deserves and should receive the hearty support of everyone. The small amount which is called for in a membership may be the means of doing a great deal. The solicitors, who will call at the homes should be greeted with a smile and their work facilitated by an immediate signing up for membership. The number of members this year should very much exceed those of last year.

The only people we know of who are as foolish as those who ridicule all new ideas because they are new are those who ridicule all old ideas because they are old.

THE TRUTH ABOUT HAIR AND HAIR TREATMENTS

You may be one of millions who has wasted time, hope, money on "tonics" and treatments... Now Charles Nessler, inventor of the permanent wave, leading hair scientist, author of "Story of Hair", makes a simple but revolutionary discovery that ends

BALDNESS • DANDRUFF OILINESS • THINNING HAIR

In the past, tonics and treatments tried to stop hair from falling. That is as useless as to try to stop an animal from shedding! What you must do is make your scalp replace the hair that falls—in short, complete the hair growing cycle. It is on that scientific principle

that Charles Nessler's Pro-Ker is based. 30,000 tests have proved that Pro-Ker produces results. Hair for hair, it makes the scalp replace falling hair with new hair. Enjoy your birthright—beautiful, lustrous hair. Send for Charles Nessler's revealing booklet. Better still, buy Pro-Ker at your druggist, or mail the coupon below.
