WILL SHOW TURKEYS—There will be a display of turkey carcasses in eight different classes at the State Farm Show in Harrisburg in January. These will be grouped according to the sex and weight of the birds.

Celery hearts filled with tall stalks are desirable, especially when the plant has a goodly number of edible outside stalks.

USE PITS FOR SEED—Storing seed potatoes in outdoor pits is a good way to keep the tubers in fine condition for seed purposes. The potatoes keep best when they are cold at the time they are pitted.

THE TRUTH

ABOUT HAIR AND HAIR TREATMENTS

You may be one of millions who has wasted time, hope, money on "tonics" and treatments... Now Charles Nessler, inventor of the permanent wave, leading hair scientist, author of "Story of Hair", makes a simple but revolutionary discovery that ends

BALDNESS • DANDRUFF OILINESS • THINNING HAIR

In the past, tonics and treatments tried to stop hair from falling. That is as useless as to try to stop an animal from shedding! What you must do is make your scalp replace the hair that falls—in short, complete the hair growing cycle. It is on that scientific principle

that Charles Nessler's Pro-Ker is based. 30,000 tests have proved that Pro-Ker produces results. Hair for hair, it makes the scalp replace falling hair with new hair.

Enjoy your birthright—beautiful, lustrous hair. Send for Charles Nessler's revealing booklet. Better still, buy Pro-Ker at your druggist, or mail the coupon below.
