FARM CALENDAR.

Timely Reminders from Pennsylvania State College School of Agriculture

OFFERS HORTICULTURAL PROGRAM—Fruit growers, vegetable producers and amateur flower gardeners will meet at the Pennsylvania State College, December 4 and 5, for the annual Horticulture Week. Talks by agricultural economists on the various phases of the marketing system will be heard and round table discussions will give everyone an opportunity to get information on specific problems.

FEED MIXTURE TO PULLETS—To aid heavy-producing pullets to maintain body weight, continue egg laying, and avoid a molt, the following mixture may be fed at the rate of three pounds (before molting) to each 100 birds daily: 10 pounds yellow corn, 10 pounds ground rolled oats, and 10 pounds condensed milk. One-third as much dried milk can be

used in place of the condensed. POTATOES MAY BE FED—Experimental results show that, on the average, 420 pounds of potatoes cooked are equal to 100 pounds of shelled corn if properly balanced with other feeds and fed in the proportion of not more than 4 pounds of potatoes to 1 pound of grain.

PROTECT THE SHRUBS—The more tender shrubs should be covered with cut branches of evergreens to protect them during the winter. Straw, canvas, or burlap may be used to protect larger specimens from the bright winter sun.

MULCH STRAWBERRY PLANTS—As soon as the ground becomes well frozen the strawberry patch should be covered with a mulch several inches deep. Wheat straw free from grain, grass, and weed seeds is the best material for mulching.

COWS NEED WATER—Plenty of clean drinking water of the right temperature helps cows to produce all the milk they are capable of giving.

KEEP FARM RECORDS—A good farm record book accurately kept will enable a farmer to know his business.

Will Rogers Picks A Story For This Spot

By WILL ROGERS

THE Worst Joke I heard today was told to me by an Englishman. Being in England, one naturally does run on to them now and again. It's a Golf Story. It's a new Golf Story. At least it's not the one we have to listen to in America every day about the

two fellows meeting and talking about what they went around in, and finally what they were talking about was the score for the first hole.

"A small white Golf Ball rolled over the green, and was promptly picked up by Fido, the old Lady's pet dog. The next moment the Goller came over the edge of the hill and began waving his arms and shouting to the dog, "Put it down, Fido! Here comes the Gentleman and he will knock it for you again!"
