FARM CALENDAR. Timely Reminders from Pennsylvania State College School of Agriculture

KNOW WHAT COWS NEED—The correct rate of feeding is one pound of grain to about four pounds of milk for low-testing cows.

READ THE LABELS—Cans of fruit and vegetables vary in size. Reading the labels on containers helps the purchaser to determine the actual price of the contents.

SPECIAL FEATURES AT SHOW—Among the special features at the State Farm Show in Harrisburg, January 21 to 25, are the 4-H club corn and potato judging contests, rural dramatic and music contests, farmers' horseshoe pitching tournament, 4-H club camp and vocational demonstration contest, school exhibits, and project contests.

LOCATE WELLS PROPERLY—If possible, wells should be sunk in sands and gravels, because they generally are good water-bearing materials.

COSTUMES HELP CONTESTS—Costuming is considered helpful in creating atmosphere and aiding reality to the numbers presented in rural music contests.

TO SHOW DAIRY CATTLE—Five dairy breeds, Ayrshire, Brown Swiss, Guernsey, Holstein, and Jersey, will be represented by exhibits from 20 counties at the State Farm Show.

Boalsburg. Miss Grace Witmer, of Bellefonte, was the guest of Mr. and Mrs. Leroy Freedy several days last week.
