1934 CROPS SHOW 70 PC. GAIN OVER VALUES OF 1932

The value of farm crops produced in Pennsylvania during 1934 shows a seventy per cent gain over the record low total of 1932, according to the State Department of Agriculture. Substantially higher prices received by farmers were primarily responsible for this continued advance in aggregate value. The estimates for the past three years are: 1934, \$142,000,000; 1933, \$115,000,000; and 1932, \$84,000,000.

The following table gives the total production and estimated December 1 value of the principal crops produced in Pennsylvania during 1934:

Table with 2 columns: Crop and Value. Includes Corn (\$40,730,100), Winter wheat (\$13,452,400), Oats (\$12,956,500), Barley (\$1,214,000), Rye (\$1,608,000), Buckwheat (\$1,615,000), White potatoes (\$13,940,300), Tame hay (\$39,711,200), Apples (total) (\$7,699,000), Peaches (\$518,000), Pears (\$259,000), Grapes (\$512,000).

ROYER—BROWN.

A belated wedding announcement was made public last week when it became known that Miss Freda Brown, daughter of Fred Brown, of Colyer, and Marcelus Royer, of the same vicinity, were united in holy wedlock at Cumberland, Md., the ceremony having taken place on December 15th past. For the past several years the bride had been employed as waitress at the Cox restaurant in Bellefonte. Mr. Royer, a graduate of Centre Hall high school, is employed at a CCC camp in New Lancaster Valley, to which camp the young men composing the Treasurer Kettle CCC camp were transferred.

GREGG TOWNSHIP VOCATIONAL SCHOOL NEWS.

Basket Ball Teams Win and Lose at McVeytown—

The McVeytown high girls' basketball team defeated the G. T. V. S. girls at McVeytown last Friday by a score of 24-15. The McVeytown girls team possessed two fine forwards, who seem to have no trouble, hitting the basket from any place in the front court. The Gregg girls held them on even terms during the second and third quarters and were outscored during the first and last quarters.

Boys Win, 40-6.

The G. T. V. S. boys, expecting one of their hardest games, found the McVeytown five not up to expectations and easily took the game by a score of 40-6. McCool, Skiles and Condo lead the scoring attack while Rossman and Ziegler continued to play the fine defensive ball they have played all season, limiting McVeytown to two field goals during the entire game. This game ran the number of consecutive wins for the boys team to seven, with no defeats to date. Both boy and girls teams play at Snow Shoe High this Friday, and their only game next week will be at home on Friday when the Mill Hall High teams will play.

FARM CALENDAR.

Timely Reminders from Pennsylvania State College School of Agriculture

SEEK CAUSE OF TROUBLE—Where pullets show lack of good condition an attempt should be made to find the cause. Intestinal cocci and worms may be to blame. If egg production is low and loss of birds is heavy, immediate treatment for worms is justified when it is learned that they are causing the trouble.

NEW FLOWERS AVAILABLE—Among the new flowers for the 1935 season is the Klondyke cosmos, variety Orange Flare. It blooms four months from seeding, attains a height of 2 to 3 feet, and is inclined to be rather bushy. The color of the flower is a deep brilliant orange.

GARDEN TOOLS ARE HELPFUL. Proper tools help to make gardening more enjoyable. A very small garden can be cared for with only a spading fork, hoe, rake, and a lig for making straight rows. A trowel and a dibble will help in setting out plants. An essential tool for all but the smallest garden is a hand wheel hoe.

TAKE CARE OF UTENSILS—If the milk utensils are cleaned properly and sterilized thoroughly, the quality of milk and its products will be improved.

PROTECT FRUIT TREES—Tree trunks will escape damage from rabbits if some of the succulent terminal branches are cut off and dropped to the ground for their diet.
