FARM CALENDAR.

Timely Reminders from Pennsylvania State College School of Agriculture

USE APPLE BOUQUETS—Where inadequate cross-pollination has been responsible for low yields in past years, bouquets of apple blossoms from the right varieties can be placed in the trees at blossoming time. Demonstrations conducted by extension workers during the last four years have proved that this is a practical solution of the pollination problem.

COMPILES CATALOGUE—The office of the Soil Erosion Service at Washington now has a complete bibliography of more than 1,160 sources of information on soil erosion. It is believed to be the most complete catalogue of soil erosion data ever compiled.

PREPARE FOR GARDEN—This is a good time to prepare for the flower garden. Supplies, such as seeds and fertilizers, can be ordered and tools can be put into condition.

SAVE VEGETABLE SEEDLINGS—Fungi hitch cause damping-off of vegetable seedlings can be controlled by treating seed or soil with the proper chemicals. Your county agent can supply you with the detailed information.

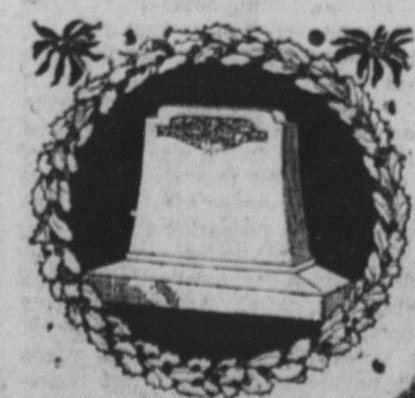

VENTILATE POULTRY HOUSE—The excess moisture which chickens exhale is carried out of the poultry house with the air. It is necessary, therefore, to have more frequent changes of air or more ventilation during periods of high production when the birds drink more water.

PREPARE SOIL MIXTURE—A good soil mixture for growing early

The Refrigerator that defies time!

HOW LONG WILL A REFRIGERATOR LAST?

Performance outweighs in value all other refrigerator features combined

● In buying any refrigerator it should be remembered there is one feature more important than all others combined—performance! Always ask "How long will it last?"

G-E gives you five full years performance protection on the famous Monitor Top sealed-in-steel mechanism for only \$1.00 a year—four years beyond the standard one year warranty for only \$5!

Year after year the record of this matchless mechanism has become more astounding. Ask your neighbor. Hundreds of thousands of users who have owned G-E's for over 5 years can tell you of dependable, trouble-free service that is paralleled by no other refrigerator.

At the G-E Research Laboratories, Monitor Tops have been cut open and found to

be as good as new after six and seven years in use in homes. They were in such first class condition that it is impossible to place a limit on the years of service to be expected from this amazing mechanism.

Select your G-E refrigerator now. Food prices are soaring and another month's delay means wasting at least \$10 to \$15! Only General Electric offers all three types of refrigerators... Monitor Top, Filtop, Liftop. Prices as low as \$94.50 With payment plans to suit the convenience of your income.

All modern convenience features will, of course, be found in General Electric refrigerators but, after all, it's performance that you pay for in a refrigerator.
