In cold and moderate weather alike the stoker installed in the Reporter building by the First National bank, works to perfection. Shovel in the coal, set your thermostat, presto! warm in the morning, with the coal bill apparently no higher than under the old system.

Both Mr. and Mrs. Elmer Campbell, near Linden Hall, fell down the cellar steps. Mrs. Campbell fell, from the top step and sustained a number of painful bruises, while her husband, whose fall was from the lower step, was not injured. Both Mr. and Mrs. Campbell are well advanced in years.

Miss Beulah Meyer is engaged at present in State College. She was the salutatorian at the C. H. S. commencement last year, and has a host of friends among young people about here. For five years she lived with Miss Laura Runkle at the Centre Hall hotel, which in that time had become a real home for her.

Fred Griesing, pastor, 9:30 o'clock a. m., on Tuesday. Seminar on Christian Educational problems in the afternoon; leader, Prof. N. C. Horner, Ph. D., of Lancaster. Rev. D. R. Keener and Elder D. K. Mrs. Phoebe Emerick a few days ago passed the eighty-first milestone in her life. She had been confined to bed much of the time during the past few years and for a considerable period of that time she was invalided, and little hopes were entertained for her recovery. At present she is able to look after all of her personal wants, although she is confined to her room, and is again enjoying life and associates.

Rev. J. W. Zang, pastor of the Evangelical church, on Wednesday moved to State College, his new field of labor. He will serve two appointments, one in the borough of State College, and the other at Lemont. He held his first service on the field on Sunday, and was greeted with good audiences. His departure from here at this time is largely due to the fact that his eldest daughter entered Penn State as a student last fall, and expects to be followed in a year by another daughter, who graduates from the Centre Hall high in 1936. The Zang family is held in high esteem by not only members of his congregation, but also by all who became intimately acquainted with them. The Reporter wishes the minister continued success in his high calling.

The experience of having a shoe torn from one of your feet is rare, but not a bit pleasant, yet with Mrs. J. S. Boozer it was a recent reality. She was standing close to her car parked at the curb in Lewistown, and was about to enter it when a wheel of a truck moving forward struck her foot, peeled the finish of the leather from the shoe and the covering from the heel and pitched the shoe some distance, and this without injury to Mrs. Boozer. The Plymouth sedan did not fare so good, the running board was half-moored to half its width and the door thrown out of position. The accident occurred when W. H. Homan started his truck to get away from the curb without noticing the Boozer car. Mrs. Boozer was accompanied by Mrs. F. V. Goodhart and Miss Verna Rowe, with Stanley Brooks at the wheel. Their mission in Lewistown was to visit with Mrs. J. W. Bradford at the City hospital and bring back with them J. Cloyd Brooks from the same hospital.

LOCAL AND PERSONAL.

D. W. Bradford is about again, having recovered from a relapse of an illness of a week's duration.

Four additional men—J. L. Tressler, J. E. Royer, C. A. Miller and John A. Heckman—were called to the Kerlin poultry plant this week. They have long been employed there during the spring and summer months, and their return at this time indicates business not too bad at the hatchery.

W. C. Witmer, of Spring township, announces himself a candidate for sheriff on the Democratic ticket. He stated when calling at this office that he was the first Witmer to be a candidate for office in Centre county. The driver of the car suffered a bad laceration of the knee and a cut above her eye.

SENSE AND NONSENSE.

The hotel room cards, reading, "Stop! Have You Forgotten Anything?" have caused many a guest to chase back after another hotel towel and bar of soap, notes the Altoona Tribune.

Over at Chanute last week a man who had never smoked a cigaret, drunk a glass of beer or worn a necktie, died at the age of 101. It's a little difficult to decide if the esteemed citizen really did live to a ripe old age, or if it just seemed that way.

It might help a little bit if all our readers would understand that a journalist is not a detective, a policeman or a moral censor.

The fact that the earth was created in six days proves definitely that it wasn't a government relief job.

A Republican legislator is said to have received \$2500 for selling the State wine. No wonder Republican statesmen took the defeat last November so hard.

FARM CALENDAR.

Timely Reminders from Pennsylvania State College School of Agriculture

CARE FOR BROOD MAIRES—It is easier to feed a working brood mare than an idle one. A well-balanced ration is essential, using good feeds containing plenty of protein, lime and phosphorus. An abundance of such feed is especially needed by brood mares which are immature or which are suckling foals.

CLEAN BROODER HOUSE—The poultry brooder house should be cleaned before it is moved to new ground. Thorough scraping should be followed by scrubbing with hot lye water solution. After the house is dry a good disinfectant should be applied.

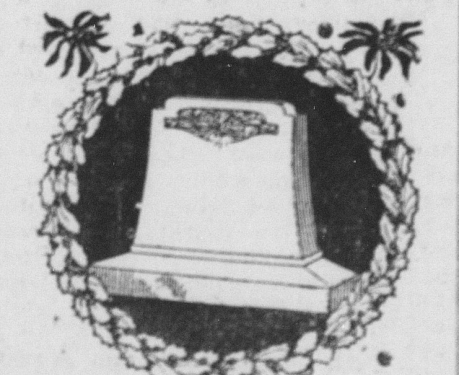

TEST SOIL FOR LIME—Unless the soil is sweet it is practically useless to attempt to grow alfalfa. If there is any doubt in the matter samples of soil should be taken from several parts of the field, mixed together, and a composite sent to the county agent for testing. He will tell whether lime is needed and how much.

PULP WOOD IS PRODUCT—Pulp wood for paper making is an important product that can be cut from farm woodlands. Specification should be obtained from the company which is to buy the wood.

CONTROL CABBAGE DISEASES—Seed treatment can be used for controlling black rot and black leg of cabbage. Corrosive sublimate is recommended for black rot and the hot water treatment for black leg.

USE WATER SUPPLY—Where there is an adequate water supply, a pump and pressure system permits piping water to farm buildings which saves labor and time and helps to reduce the fire hazard.

CHOOSE WISELY—Two or three well-chosen and well-placed specimen plants are generally sufficient on the average home grounds.

A Monument Erected—to the memory of a loved one is a substantial expression of your lasting affection. To select one that will be appropriate requires careful consideration—for it must last through all the years to come. Let us co-operate with you by submitting suggestions based upon our wide experience as memorial sculptors.
