From early childhood the deceased had never enjoyed good health and had been cared for by her sister, Mrs. Bollinger. Although she suffered daily from the ravages of disease over a period of years, she was always cheerful and appreciated the visits of her many friends, the singing of the birds, the glow of the sunset, and all the beauties of nature which the Creator placed here on earth.

She loved the valley of Virginia and considered it a privilege to have spent her last years amidst such surroundings. She often said, "You folks don't realize and appreciate the beauty of your country."

SHEFFIELD FARMS GIVE LOCAL PARTIES NO ASSURANCE TO CONTINUE OPERATIONS HERE

Local representatives who held a conference with the directors of the Sheffield Farms Company at their New York City office on Monday forenoon, were given no assurance whatsoever that they would change their decision to close the milk plant here on Friday, as scheduled. The representatives who attended the meeting were T. F. Delaney, H. L. Ebricht, Ralph Honan, W. F. Bradford, and P. P. Henshall. The party was informed the Sheffield Farms Company board would meet the following day (Tuesday) to make further study of the order to close.

HEAD OF FAMILY MUST SIGN CERTIFICATE FOR FOOD ORDERS

Food orders, sent this week to recipients in Centre and Clearfield counties, were accompanied by a certificate of need, designated to be signed by the head of the family and returned to the central office in Phillipsburg.

These certificates stated: "This is to certify that all statements and facts given to relief authorities are, to the best of my knowledge, true and correct and that I am still in need of emergency relief orders, and that upon obtaining employment, I will so notify the proper relief authorities."

In accordance with the statement made last week, by George I. Boyd, Administrator of Relief in Area 7, persons giving false pretense, will be prosecuted.

The central office has been flooded with anonymous letters reporting persons who are alleged to be receiving aid from the local board, through misrepresentation of facts. Considering the sincerity of these reports to be doubtful, officials of the board state that letters of this description will be ignored. When constructive information is sent to Mr. Boyd, and the name of the informant is not withheld, it is, of course, treated with utmost confidence and warrants unlimited investigation.

George Carpeneto has been appointed to the board of County Commissioners to fill the vacancy made through the death of Howard E. Holtzworth, Republican, the minority party member on the board. The appointee is a resident of Bellefonte.

Judge Fleming, in making the appointment, made the stipulation that the appointee should not be a candidate for the office of commissioner or for any other county office at the coming primaries. He also holds that the appointee was not an applicant nor was suggested by any one. He will hold office until January 1st, 1936.

DEVELOPMENT AND GROWTH OF MUSIC IN CENTRE CO. SCHOOLS

The development and growth of this organization which began last year at Phillipsburg, to the recent festival at Millheim this year, is interesting and most gratifying. While the program last year was very inspiring, most of the numbers rendered this year were a higher standard, better tone quality, by both the vocal and the instrumental groups, as well as better tonal balance, phrasing, expression, and interpretation.

Last year there were six or seven school districts represented in the festival. This year there were eight districts represented and it is to be expected that in another year or two, every school district in the county will share in this commendable project.

The Music Supervisors' Association of Centre County has proved itself able and aggressive and it is only by the cooperation of this group collectively and individually as well as the cooperation of the various school administrators, that the Centre County Festival can keep on developing a true appreciation of good music.

This organization should have the hearty support of every person in the county and place the study of music in every school room. Every town or rural community should have a chorus, band or orchestra so that men, women and children may enrich their home and community life as well as the worthy use of leisure time.

Some one has said, "The richest child is poor without music." The high schools participating in the festival were East Penna Valley, Phillipsburg, Harris Township, Ferguson Township, State College, Centre Hall, Haines Township, Port Matilda.

Two of the critics who contacted the supervisors were Prof. Palmer S. Mitchell, head of the Music Department, Lewisport schools, and Mrs. E. B. Staveland, a recognized authority in music, State College.

In a decision rendered by a Philadelphia court, the descendants of Walter Garrett, the snuff manufacturer, have been ruled out, and the heirs of the widow declared to be the rightful heirs to the \$17,000,000.

FARM CALENDAR.

Timely Reminders from Pennsylvania State College School of Agriculture

GROW GRASS IN SHADE—Lawns under shade trees need special attention. A good grass seed mixture consists of Chewings fescue 45 parts, rough-stalked meadow grass Kentucky blue grass 29, and redtop 10. Sow at the rate of 5 pounds to 1000 square feet.

KEEP EGGS CLEAN—Eggs can be kept clean best by using shavings for nesting material. Straw, however, is much more plentiful and if changed often will be quite satisfactory.

AVOID SECOND GROWTH—Later planting is suggested as one way to avoid second growth on late potatoes. Knobs, "peanut" and "dumb-bells" develop in a growing period following a drought which has checked the normal growth.

THIS IS WHITE GRUB YEAR—White grubs are expected to be numerous this year. They will be found in old sod. Any crop, such as corn or potatoes, planted in old sod plowed up this spring is likely to be heavily infested with the grubs and damaged.

URGE CAREFUL SPRAYING—Because of the varying weather conditions this spring, entomologists at State College urge definite following of recommended spray practices for insect control.

CLUB WORK CREATES—Four-H club work is considered an asset because it helps to develop creative powers of rural boys and girls. It helps the mind to perceive and understand develops the skill of the hand to execute and the ability of the eye to see.

EROSION CONTROL PAYS—Erosion control saves the soil for the farmer and saves expenditure for control of floods and other results of runaway water.
