DOLLAR DAY BY ALTOONA BOOSTER STORES, MAY 15

According to an advertisement appearing elsewhere in this issue, the Altoona Booster Stores will feature another of their important quarterly Dollar Days on Wednesday, May 15. Coming at a time when all homes are interested in buying new furnishings and when new apparel for spring and summer is uppermost in the minds of all people, this May Dollar Day should be of great interest in every home in Central Pennsylvania.

All our readers are invited to visit Booster stores on Wednesday and take advantage of the Dollar Day opportunities, but they are reminded of the long standing policy of the Altoona Booster Stores to suggest that out-of-town people patronize their home stores first and come to Altoona Booster Stores for the things their home stores cannot supply.

Altoona city officials have cooperated by removing parking restrictions in the business district so that visitors may park their cars for as long a period as is necessary to do their shopping.

Booster Stores invite their out-of-town friends to tune in on Station WFBG and enjoy the musical programs that will be provided for their benefit as a part of Dollar Day activities. The programs will be broadcast from 2 to 2:30 on Monday and Tuesday afternoons, May 13 and 14.

Older types of stoves can never be as cool and clean as the electric range. They depend upon fire, flame, and combustion while electricity is heat without flame or fire. Other stoves need circulation of air at the source of the heat; electric heat needs no air. This elementary difference explains why no soot or grime is caused by electric cookery—why no grease is carried to kitchen walls—why a woman can cook electrically in her best frock.
