As Low As \$2.20 a Month To Heat Water ELECTRICALLY

The satisfaction of having plenty of hot water in the home at all times is great. For laundry and kitchen and the bath, an electric water heater furnishes you hot water at low cost. Some families in West Penn territory pay as low as \$2.20 a month.

WEST PENN POWER COMPANY

SECOND HELPINGS will be demanded

This lady's mother was a grand cook, but was without the advantages of the electric range—it's insulated oven, its control of heat.

Mother had to sear, and baste, and labor over a roast; the modern housewife can put it in an open pan in the oven and never touch it until it is ready to go to the table.

Every bit of the roast is cooked, all the rich juices are retained. Vegetables, soups, stews, spaghetti and baked beans, take on a new flavor of goodness; cakes and pies (lemon meringue for example) are a delight.

Food-goodness plus economy!

The real point of electric cookery is not how cheap but how good. Yet, it is inexpensive. At West Penn's low rates, our customers find that electricity for cooking costs them only about \$2.20 a month.
