J. L. Tressler, of town, brought to this office a small twig taken from a cherry tree on his farm at Linden Hall, which contained a cluster of fruit resembling in shape a bunch of grapes, so heavily laden was the twig with cherries. Mr. Tressler said this was not an unusual growth, but a fair representation of the tree in general. The cherries were of the red sweet variety, perfect in flavor and appearance.

W. W. Kerlin, Sunday a week ago, went to the Clearfield hospital for observation, remaining until Thursday afternoon, and on Tuesday of this week returned for further checking up. The congregation in the local Lutheran church, Sunday morning a week ago, was treated to a musical program rendered by a quartet of young men from the Dallas town (York county) Lutheran church, of which Rev. S. F. Greenbos, Lutheran minister, was the former pastor. The singing of the various sacred numbers was a most pleasing addition to the morning service. Their singing left nothing to be desired in harmony and tone quality. The group, with a slight change in personnel, was here on a former occasion. The congregation extended a rising vote of thanks to the group, which comprised Hiram M. Peters, first tenor; Robert E. Keener, second tenor; C. Carlton Hake, first bass; Harry L. Smith, second bass; Miss Leslie M. Shearer, pianist.

Both vehicles gyrated several times. The Hanna machine was completely demolished, but it and the Markle truck were insured. Neither of the men was hurt.

"Jimmy" Lutz's new Chevrolet sedan escaped destruction by fire by an eyelash. Monday morning of last week, after a return from Washington, D. C., where a group of local "fans" had been to see the Senators-Yankees ball game. On going to the garage Monday morning, "Jimmy" noticed the sedan filled with smoke and on opening the back door found the seat practically burned away and windows discolored from smoke. The fact that the windows were closed undoubtedly saved the car and garage from destruction, since the fire had insufficient air to break out into a damaging blaze. It is supposed that hot ashes from a cigarette were responsible for the fire.

Don't take our word for it... ask G-3 users. THEY'LL TELL YOU... "IT'S THE GREATEST TIRE EVER BUILT" Yes, sir, the public that buys tires certainly has proved to its full satisfaction that Goodyear scooped the industry when the famous "G-3" All-Weather was introduced. That great detective, Inspector Faurot of the New York Police, clinched the case with evidence he gathered across America — and our "G-3" customers here have since supported his findings with plenty more proof. Yet this thoroughly Public-Proved "G-3," although a costlier tire to build, continues to sell at no extra price because more people buy it than any other tire in the world. Don't fail to see the "G-3" — and hear all about it — before you next buy tires! RIDE AS YOU PAY. Buy G-3 or any Goodyear on time. Speedway Tires as low as 51c A Week.
