He was formerly a Penns Valley youth, and, of course, is anxious to corral his old mates under his banner, Sept. 17 when they make their selection for a Democratic nominee for the office of prothonotary.

Water was found at a depth of 112 feet in a well drilled at the Mowery road stand in Old Fort woods, on Friday. The water rose eighty feet, to a point thirty feet below the surface, after the drilling bit was removed. The stream appears very strong and the water is sweet, and but slightly "hard." Water was the one thing lacking at the stand, but this lack has now been overcome.

Mrs. Charles E. Fye and daughter, Miss Evelyn, of Colver, were brief callers at the Reporter office on Friday on their way back from Bellefonte, to which place they had gone for an elder daughter of Mrs. Fye, Miss Theresa, employed as nurse in the Centre County hospital. The Kline family left State College about eighteen months ago. Relatives at State College, say that Meluch was a member of the U. S. Secret Service.

The mechanical genius of the Garbrick brothers—Vernon and Lester—of Centre Hall, is demonstrated in the construction of an "airplane ride" which will be one of the amusement attractions to be found on Grange Park during fair week, which opens Saturday. "Airplane rides" are not new in amusement parks, but the Garbrick brothers' idea is different. The four planes which comprise the outfit are equipped with individual motors and propellers, so that each runs on its own power, and provides the motive power to send the planes spinning around a good size circle. The framework, planes and everything connected with the structure are home-made, and represents a piece of work showing remarkable skill. The "ride" will no doubt be well patronized by "Young America" next week.

In Ohio, their numerous side trips were made from Bellevue, one being to Cedar Point, on Lake Erie, a place of varied amusements; to Green Springs, a health resort of wide reputation, and sections west and south from where Presidential candidates were selected when it was a habit electing Republicans as chief executives. They found much wheat and oats in shock that had already waited too long for the thresher.

He expressed a desire at this time to visit the scenes of his earlier days. Wednesday night was spent with Mr. and Mrs. Ray Decker, near Centre Hall.

The Wetzel family is having a bit more than its share of sickness at this time. Saturday night Robert became violently ill, presumably from eating hamburger sandwiches which produced ptomaine poisoning. Sunday night, Mrs. Wetzel was suddenly stricken ill, and there has been no change since, neither has the case been diagnosed. The son, however, on Wednesday was considerably improved. On Monday, Prof. Wetzel took his young daughter, Mary Lou, to the Danville hospital where on Tuesday she underwent a tonsilectomy, and is getting along nicely.
