**MRS. McMAHAN GIVES POINTS**  
**ON CONTEST LIGHTING**

Decisions in "Better Sight" Competi-  
tion May Hinge on Coloring.

So intense is the interest in the  
"Better Sight" Christmas Gift Con-  
test that Mrs. Anne McMahan, Chief  
Home Lighting Adviser of the West  
Penn Power Company who is also one  
of the contest judges, gives the fol-  
lowing information for the benefit of  
those who are entering the competi-  
tion:

"The Lighting Guide, given on the  
entry blank, should be carefully read"  
says Mrs. McMahan. "It is not the  
purpose of the contest to use ALL of  
the cut-out lamps and fixtures. In de-  
ciding which ones to select the con-  
testant should bear in mind that good  
light—enough for safe seeing—is pa-  
ramount."

"The solution should offer no par-  
ticular difficulty if the Lighting Guide  
is followed. However, neatness and  
pleasing color arrangement will also  
influence the judges."  
One hundred and thirty-eight prizes  
are to be awarded, among them an  
electric range, electric refrigerator,  
washer, ironer and many other elec-  
trical appliances. The West Penn of-  
fice where displays of the prizes are  
on view, reports a large number of  
entries.

**D. F. MAUGER, FORMER SCHOOL**  
**MAN HERE, DIES IN READING**

David F. Mauger, head of the bor-  
ough schools in 1886, and at the time  
of death a prominent Reading attor-  
ney, died suddenly on Saturday at  
the home of his son-in-law, Dr. W.  
H. Cadwallader, Jr., in Pittsburgh, fol-  
lowing a heart attack, aged 73 years.  
Prof. Mauger took charge of the  
borough schools for the first few  
terms following the organization of  
the borough, at which time the bor-  
ough schools separated from Potter  
township and became a school unit.  
He had just graduated from Franklin  
and Marshall College, and came here  
to begin a teaching career. He was an  
outstanding schoolman, and was held  
in high regard as a citizen. The school  
term at that period was seven months.  
From the files of the Centre Coun-  
ty Times, published in Centre Hall, date  
of Nov. 18, 1886, the following is re-  
printed:

... The schools are made  
up of 120 pupils. . . . The ad-  
vanced school is up to the acad-  
emy standard. A class of thirteen  
is being instructed in algebra, ten  
are taking a course in Latin, and  
a class studying the Greek lang-  
uage has also been organized."

In addition, at that period, as had  
been the case since 1874, pupils had  
the opportunity to study all the  
branches necessary for college en-  
trance. Students from this school were  
permitted to enter colleges without  
further preparation and were able to  
carry on to completion of college  
work.

In was in June, 1885, that Potter  
township and Centre Hall borough  
became separate school units, and in  
November, 1935, an intervening period  
of fifty years, they again joined forces  
insofar as relates to conducting the  
high school.

The borough school directors at that  
time were Dr. G. W. Hosterman, Dr.  
W. A. Jacobs, J. D. Murray, C. D.  
Runkle, J. B. Solt and W. B. Shirk.  
The Potter township directors are not  
recorded in the newspaper file.

pupils engaged in preparing a Christ-  
mas box to be sent to the church  
home. Games were played and re-  
freshments served by teachers in  
charge, Dorothy Blazer and Robert  
Bradford.

Rumor is afloat that the validity of  
the local option ballot as voted at  
the last election will be contested be-  
fore the courts. The question appears  
to be, should the local option feature  
have been printed on a separate bal-  
lot, and if so, is or is not the vote  
binding; and, is the general ballot af-  
fected because of combining the two  
ballots? There is a difference of opin-  
ion on all of the questions.

**RED CROSS REPORTS**  
**BUSY YEAR AIDING**  
**DISASTER VICTIMS**

Tornadoes, Fires, Hurricanes,  
Floods, Epidemics, Make  
Record of Year

The American Red Cross assisted suf-  
ferers in more disasters throughout the  
United States during the year ending  
June 30, 1935, than through any similar  
period in the peace-time history of the  
organization, Admiral Cary T. Gray-  
son, chairman, revealed recently in  
commenting on the annual report  
which has just been released.

"The 128 domestic disasters in which  
the Red Cross extended aid during the  
fiscal year exceeded by 56 per cent the  
average over the past few years," Ad-  
miral Grayson said. "Not only was the  
period heavy in the number of disasters,  
but the geographical distribution was  
wide, with 37 States and 263 counties  
affected."

"Through these disasters and times  
of community distress, the Red Cross  
assisted 110,000 persons," the Admiral  
disclosed.  
Spectacular service was rendered in  
many disasters because of the unique-  
ness of the problems and the far-fung  
points affected. The work of the Na-  
tional organization covered in the re-  
port carries stories of the *Morro Castle*  
burning; the trench-mouth epidemic in  
the beautiful San Luis Valley of Colo-  
rado; the great fight over a wide front  
in the mid-west dust bowl against  
respiratory diseases; floods, hurricanes,  
and tornadoes in many sections of the  
United States.

In addition to the disasters taking  
place within the continental limits of  
this country, Admiral Grayson pointed  
out that work had been made necessary  
by disasters in Hawaii, Puerto Rico,  
and the Philippines, where 26 disasters  
were recorded in that archipelago. The  
American Society also assisted the Red  
Cross of two foreign countries in car-  
ing for victims of floods and earth-  
quakes.

The variation of types of disasters  
called for expert council on matters re-  
lating to health and nutrition as well  
as epidemic prevention. Last year's  
work proved the value of the structure  
and administration of the Red Cross  
disaster relief, the Admiral said, the  
very frequency of occurrence and the  
variety of types constituting a severe  
test of the organization chartered by  
Congress to handle this type of Na-  
tional relief.

Expenditures of the Red Cross for re-  
lief of persons stricken by disasters  
within the continental United States  
amounted to \$464,412. In addition, \$75,  
000 was sent to the Philippines to as-  
sist them in three major relief opera-  
tions necessitated by typhoons, \$5,000  
went to victims of the Indian earth-  
quake, and \$5,000 to Poland for victims  
of severe floods. A number of smaller  
foreign emergencies called for sums to-  
taling \$2,550.

The months of February, March,  
April, May and June were heaviest for  
tornado disasters. Floods occurred  
throughout the year. Serious fires  
calling for Red Cross assistance took  
place during July and December. A

evastating explosion took place in  
Tennessee during April. Most of the  
hurricane struck States along the east  
coast during the fall and early winter.  
"All of this assistance to persons in  
distress," Admiral Grayson pointed out,  
"was only possible through generous  
contributions made by citizens in all  
sections of the country."

Most of this support of the disaster  
relief service comes from the annual  
Roll Call held each year from Armis-  
tice Day to Thanksgiving Day.

**Attention,**  
**DAIRYMEN!**

It will pay you to investigate COLZA OIL MEAL for  
your dairy cows. The information so far found indicates that  
Colza Meal is preferable to other oil meal for milk cows be-  
cause it favors milk production.

**The Formula - -**  
Colza Meal contains 34% protein, 10% fat, 10% fibre and  
5% nitrogen, which makes it both a valuable feed and fertiliz-  
er at all times. It has been found that 85% of the protein  
substance and 88% of the fat substance are digestible.

**An Excellent Fertilizer - -**  
The high percentage of nitrogen contained in the meal,  
and the amount of phosphoric acid in the ash make Colza Meal  
a very valuable fertilizer. Analysis has shown 6.82% of the  
meal to be ash and of the ash 32.7% is Phosphoric acid.

To any one contemplating the feeding of Beef Cattle  
this year, it will pay them to investigate this feed and learn  
something about its merits. What it did for others it can do  
for you. Feeders who have fed Colza Meal report that they  
could put more weight on their steers with this feed than any  
other feed used.
