IMPORTANT NOTICE TO ALL POULTRY FEEDERS

The Hunting Season is On! A well-groomed gun, keen eye and steady nerve are essential to the successful hunter. We extend our well wishes to every Nimrod who enters the woods and fields. The successful poultry-raiser are those who receive the greatest number of EGGS daily. The full egg basket means SUBSTANTIAL PROFITS.

IT PAYS WELL TO FEED WELL!

Just as science gave Thomas Edison new truths and basic facts which enabled him, with patience and tedious efforts, to invent—so science gives us all the important facts and truths about VITAMINS.

WHAT ARE VITAMINS? WHAT ARE THEIR PURPOSE and VALUE? A noted scientist says: "Vitamins are 'unknown somethings' vitally essential to the diet of human, animal and bird life."

Arthur Brisbane says: "There are three things we possess without knowing what they are—VITAMINS, ELECTRICITY and the SOUL OF MAN."

The U. S. Department of Agriculture states: "Vitamins have been found to be essential for normal nutrition, and to be responsible for the prevention of various pathological conditions known collectively as DEFICIENCY DISEASES."

COD LIVER OIL:—All poultry raisers know the value of cod liver oil. We all know its favorable effects upon poultry, not because it possesses a disagreeable odor; not because it is an oil but BECAUSE it contains VITAMINS A and D.

BUT COD LIVER OIL IS NOT ENOUGH:—Poultry requires given amounts of protein, fat, carbohydrates and minerals for healthful existence,—but all these properties are HELPLESS WITHOUT VITAMINS! A deficiency of one vitamin invites low egg production, disease, and many times, death.

We Are Feeding Our Birds a Vitamin-Mineral Balanced Laying Mash!

In order to assure a proper PROTEIN-FAT-FIBRE-CARBOHYDRATE-MINERAL-VITAMIN "balance" in this Laying Mash a total of THIRTY-TWO (32) INGREDIENTS enter the making of this scientifically prepared Feed.

We list here a number of these highly important ingredients,—study them,—compare them with the feed you are now using!

Concentrated Egg Yolk: Very rich in Vitamins A and D, also fairly rich in Vitamins B, E and G.

Oil of Wheat Embryo:—The richest known source of Vitamin E. One pound of this oil has as many Vitamins as 1600 pounds of wheat.

Pure Irradiated Concentrated Yeast:—One of the best known sources of Vitamins B, D, and G. Yeast makes fermentation. Food must be fermented to be digested.

Extract of Rice Bran:—A very rare concentrate 10 times as rich as ordinary yeast in Vitamins B and G.

Extract from Cod Liver Oil:—In ordinary cod liver oil about 1/4% contains Vitamins; 99 1/2% is composed of fats or oil disagreeable in odor and taste and not easily assimilable. The product we use is INTENSIVELY concentrated, ONE POUND containing as many Vitamins as 100 to 200 pounds of plain cod liver oil.

Dehydrated Alfalfa Leaf Meal:—Due to dehydrating process one of the richest and most stable vegetable sources of Vitamin A with feeding value equal to fresh green alfalfa leaves.

Dehydrated Spinach:—An excellent source of A, B and C Vitamins, also very rich in minerals.

Dehydrated Orange:—One of richest known sources of Vitamin C.

Pure Kelp:—A rich source of several different organic minerals, one of which is iodine.

Manganese Sulphate:—Strictly a MINERAL,—when fed in proper Vitamin combinations this ingredient is very essential and necessary for fertility and reproduction.

Potassium Iodide:—Another MINERAL, very important to assure proper functioning of the glands.

Iron Oxide - Copper Sulphate:—The chemical changes of IRON in the presence of the correct amount of COPPER is one of the outstanding recent scientific achievements.

There's No Guess-Work About This Laying Mash!

This Feed has been Biologically Tested for OVER EIGHT YEARS. We are feeding it to our own birds and shall continue to do so until science finds something better.

This Feed is made under EXCLUSIVE MANUFACTURING RIGHTS, issued by ULTRA-LIFE LABORATORIES and sold under LICENSE granted by DEPARTMENT OF AGRICULTURE, STATE OF PENNSYLVANIA.

Every Poultry Raiser Can Now Purchase This Properly Balanced Laying Mash

This feed will be on hand at all times and is being sold at a SURPRISINGLY LOW PRICE AT OUR WAREHOUSES in
