13 MILLION ACRES, HALF OF STATE'S AREA, IS FOREST

Pennsylvania has 13,000,000 acres of forest lands, about one-half the State's entire area. Farmers own 4,000,000 acres, next comes the coal operators, who lay claim to 3,000,000 acres; water companies, pulp companies and railroads each own about 100,000 acres. Corporate industries other than those named above own 700,000 acres.

Private interests in the State control a half million acres devoted to recreational purposes. These include hunting and fishing clubs, private estates and resorts, boy and girl scout camps and other outdoor organizations.

SENATOR E. J. THOMPSON BECOMES DEMOCRATIC CONVENTION CANDIDATE

Senator E. J. Thompson, of Philadelphia, on Monday announced that he is a candidate for delegate to the Democratic National Convention, which will be held in Philadelphia this year.

FIND EVERY CRIPPLED CHILD IN PENNSYLVANIA

"Find every crippled child in Pennsylvania." That is the blanket order under which the first State-wide survey to determine the need for orthopedic work among children in this State is being conducted through WPA facilities.

The project is expected by officials of the State Department of Health to locate and arrange for treatment of afflicted children under 16 who are receiving inadequate or no medical care according to Edward N. Jones, State Works Progress Administrator.

Bearing the endorsement and active cooperation of Dr. Edith MacBride-Dexter, Secretary of Health, the project, employing 53 nurses, will function in every county. More than 30 nurses are at work.

The State Department of Health is sponsoring the project, and contributing \$13,810.00 as its share of the cost. WPA's allocation for wages is \$47,676.00, Mr. Jones stated.

Cases uncovered where the afflicted person is over 16 years of age are to be referred to the Bureau of Rehabilitation in the Department of Labor and Industry.

Ever since the Crippled Children's hospital has been functioning, many cases have been brought to the Department's attention too late for treatment. Heartfelt sympathy is a poor substitute for such a situation.

Samuel B. Russell, prominent banker and business man in Lewistown, may become a candidate in opposition to E. K. Focht for the nomination for Congress. Mr. Russell is being strongly urged by members of the Republican party to enter the political field.

EIGHT-TEAM LEAGUE FOR CENTRE COUNTY THIS YEAR

Centre county baseball was officially removed from the mothballs for the 1936 season, by the league moguls at a meeting held at Howard on Monday evening.

The Board of Control re-elected P. C. Holter as president; Wilbur Saxton as vice-president, and R. E. Jamison as sec.-treas.

Realizing that a ten-club league is unsatisfactory the League decided that eight teams should be the maximum number for this season. In all probability the league will be composed of teams that played in it last year. Application for entry from Port Matilda and Spring Mills were heard but no action of any kind was taken.

Mr. Scott, of Centre Daily Times, again offered his services as official score-keeper for the league. The awards for batting champion and best pitcher will again be given by the State College paper.

Plans for making the game better from the viewpoint of the fans were thoroughly discussed by the Board of Control. Such items as having the games begin on time, the possibility of neutral umpires, and having league schedule open later than last year furnished most of the items.

FARM CALENDAR.

Timely Reminders from Pennsylvania State College School of Agriculture

GOOD BREEDING WINS.—A constructive breeding program carried on over a period of years brings results with livestock in the show ring and on the butcher's block. This was quite evident at the recent State Farm Show when the history of grand champions was traced.

PREPARE FOR CHICKS.—Start a fire in the brooder house two or three days before the chicks arrive. Regulate the stove to obtain a 90 to 95-degree temperature one inch above the floor at the outer edge of the hover. Then reduce the temperature as much as possible and will keep the chicks comfortable.

TEST SEED CORN.—The condition of some of the corn exhibited at the recent State Farm Show indicates there will be a seed corn problem this coming spring. The judges found several dead ears in what apparently were excellent samples. Only testing of the seed corn will reveal its real germinating quality.

INSULATE DAIRY BARN.—The recent long spell of severely cold weather has caused much dampness in many dairy stables. This applies particularly to those with stone or uninsulated masonry walls where it is necessary to reduce ventilation to save heat. One-half inch of good insulating material added to a masonry wall may decrease the heat loss by as much as 50 per cent.

SELECT SEED EARLY.—Growers who want to plant the leading strains and selections should order their seeds early. Later, they may have to take poorer types.

DOLLAR DAY IN ALTOONA BOOSTER STORES, FEB. 12

Wednesday, February 12, will be an important day for the homes of Central Pennsylvania as that is the day on which Altoona Booster Stores will observe another Quarterly Dollar Day as announced elsewhere in this issue.

Altoona Booster Stores' Dollar Days are always of importance, inasmuch as they afford the opportunity for purchasing needed merchandise both for personal and home use at prices that represent considerable savings.

This February event will be taken advantage of by Booster Stores to make a final clearance of their leftover winter merchandise, although many special purchases of new goods will also be offered at prices very much under regular values.

While the event is generally known as Dollar Day, there will be special values offered at prices less than \$1 as well as at prices above \$1, so the housewife will have unlimited variety to choose, enabling her to purchase on Dollar Day practically everything that she may need in her home as well as for the personal use of every member of the family.

Booster merchants extend an invitation to all of our readers to come and share in the good Dollar Day values but they wish also to remind you that it has always been the policy of Booster Stores to urge out-of-town patrons to give first consideration to their home stores, coming to Booster Stores only for those things that their home merchants cannot supply. This policy prevails at all times including Dollar Day events.

Through the courtesy of the Altoona City officials Dollar Day visitors will be permitted to park their cars in the business district for as long a period as necessary to do their shopping without violating parking regulations.
