**POLITICAL ANNOUNCEMENTS.**

**For General Assembly.**

We are authorized to announce the name of John W. Decker, of Gregg Township, as a candidate for the office of Representative in the General Assembly, subject to the rules governing the Democratic party as expressed at the primary election to be held Tuesday, April 28, 1936.

The State College Water company and State College Borough appear to be approaching agreement on the taking over the water plant of the former by the latter. Judge Fleming instructed the company to sell its plant at \$226,481.10, which may be added the cost of improvements since 1934. The water company named \$250,000 as its price, which sum when all conditions are taken into account, make the actual difference only about \$10,000. It is predicted with this slight difference on a \$250,000 deal neither party will be anxious to settle in court.

**5-YEAR-OLD BOY STRUCK AS HE DARTS ACROSS HIGHWAY**

Douglas Miller, aged 5 years, is in the Centre County hospital, in an unconscious condition, in which state he has been since Tuesday evening at 5:00 o'clock, when he was struck by an automobile as he darted across the road, on Route 53, close to the Titan Metal works, nearby Bellefonte.

The car was that owned by D. Milton Bradford, of Centre Hall, and was being driven by Richard Bailey of the same place, the auto being in use daily between Centre Hall and Bellefonte conveying five passengers employed at Bellefonte. The Bradford car was on the way home. A school bus headed toward Bellefonte had just discharged a number of children on the opposite side of the road, and was in motion when the Bradford car passed it. The small boy, not a school pupil, was on the road behind the bus and suddenly started to run across the road, falling to see the approaching car. The driver, too, was unable to see the child until too late. The left fender of the car struck the child, and he was knocked back onto the road, unconscious. He was immediately rushed to the Centre County hospital, close by, where it was discovered he suffered head injuries.

An X-ray picture was taken Wednesday morning to ascertain if there was a fracture of the skull, but when the Reporter went to press the picture had not been "read."

A highway patrolman out of the Bellefonte sub-station investigated the accident. The driver was not held for reckless driving.

**New Chevrolet Truck on Economy-Safety Run**

Carrying a 10,000-lb. cement block from Los Angeles to New York, a 1 1/2-ton Chevrolet truck—one of the new 1936 models just introduced—demonstrated that safe driving means economy. Speed limits were observed in every community, with 35 m.p.h. the maximum on the open road. The 3511.4 miles were completed on two quarts of oil and 308.6 gallons of gasoline, at a cost of 01.6 cents per mile, or one-third of a cent per ton mile. The entire run was completed without any mechanical failure, repairs, or even a scratched fender. The illustrations show the test truck and features of the new 1936 models. Coupe type cabs with solid steel roof, full-floating rear axle, and full-length water jackets, are some of the improvements. In the lower right, Harry Hartz, who drove the cross-continent test, is seen beside the 10,000-lb. block. The test was officially observed by the American Automobile Association.
