New Tax Program Stirs Hot Debate—Black's Seizure of Telegrams—Norris Dam Is Completed—Italo-Ethiopian Peace Draws Nearer.

By EDWARD W. PICKARD

CONGRESSMAN SAM B. HILL of Washington and his subcommittee of the house ways and means committee took up the heavy task of determining how the new revenue of \$1,137,000,000 called for by President Roosevelt should be raised.

Rep. S. B. Hill

Treasury officials recommended that an average tax of 3 3/4 per cent should be levied on undivided corporation profits and a tax of 90 per cent on all refunded or unpaid AAA processing taxes. In this the fiscal experts followed the suggestions of Mr. Roosevelt. They told the subcommittee that the proposed corporation surplus tax would yield the government \$620,000,000 annually. The President has estimated that this amount will be needed to finance the new farm program and the soldier bonus.

The so-called "windfall" tax on processors who successfully challenged the AAA in the courts, it was believed, would yield another \$200,000,000. This will be used to reimburse the treasury for losses suffered as a result of the Supreme court's invalidation of AAA. There remains an additional \$317,000,000 which it is proposed to raise through excise taxes on a wide range of farm processors.

Chairman Hill said the experts and the members of the subcommittee were agreed that the tax on undivided surplus should not apply to banks and life insurance companies.

There was wide divergence of opinion concerning this tax among leaders in congress. Senator James Hamilton Lewis of Illinois, Democrat, for instance, declared himself against it as an unnecessary additional burden on business, and indicated he would support, instead, a plan to tax the income from federal securities now exempt. Senator Borah, Republican, said that in principle he endorsed the plan of taxing undistributed earnings, while Senator Hastings of Delaware, also Republican, denounced it as "confiscatory." Senator King of Utah, Democrat, and Representative Knutson of Minnesota, Republican, were moved by the program to demand immediate cutting down of federal expenditures, and in this Mr. Borah concurred. Speaker Joseph W. Byrns and Majority Leader W. B. Bankhead professed to see no difficulties in the way of the proposed measure.

One thing that boosted the chances of the President's tax program was a report from Secretary of Commerce Roper that corporation income in 1935 was 300 per cent higher than in 1932.

IN THE course of his probe into the affairs of enemies of the New Deal, Senator Black of Alabama, chairman of the lobby committee, assumed the right to seize and examine their private telegrams, and thus his investigation was carried into the courts. Silas Strawn, Chicago attorney learned the committee was about to subpoena his telegrams and he obtained a temporary injunction blocking such action. He has asked the District of Columbia Supreme court to make this injunction permanent. The wholesale examination of telegrams was attacked by Representative Wadsworth of New York, and defended by Senator Black. "It strikes me," Wadsworth said, "that we have reached a strange stage in the development of democracy when private correspondence can be seized without court procedure or search warrant."

Black said: "Repeatedly it has been held that the senate can call for what it pleases. There appears to have been a concerted effort by those who seek to influence legislation behind the scenes, through subterranean channels, to prevent us from getting evidence."

GOVERNOR LANDON'S boom for the Republican Presidential nomination is progressing in a way that must be pleasing to his supporters. Kansas Republicans in a state convention pledged him the state's 18 delegates to the Cleveland convention, declaring him to be "the best-fitted candidate." That Kansas should support its governor is natural and expected, but he also is garnering a good many delegates elsewhere, and indorsement in some states where the delegates are uninstructed.

Sentiment favorable to Landon appeared in New Jersey, and Hervey S. Moore of Trenton, a Republican leader, was contemplating starting an active campaign for him in that state.

ON THE third anniversary of his inauguration President Roosevelt pushed an electric key in the White House which set in motion machinery that closed the sluice gates of the Norris dam in the Tennessee Valley project. This signaled the completion of that part of the vast work on the Clinch river. "I hope as many people as can will go to see the Norris dam in eastern

Tennessee," the President said in a formal statement. "It exemplifies great engineering skill, high construction efficiency, and, above all, it is the key to the carefully worked out control of a great river and its water spread over parts of seven states.

"The Norris dam is a practical symbol of better life and greater opportunity for millions of citizens of our country. The nation has come to realize that national resources must not be wasted and the Norris dam is evidence that our program for conservation of these resources is going forward."

SENATOR BORAH and Senator Van Nuys of Indiana, the latter a Democrat, introduced a bill directed against certain practices of the chain stores. The measure would make it unlawful for any person engaged in commerce to grant any discount, rebate, allowance or advertising service charge to a purchaser over that available to the purchasers' competitors. It also would prohibit sales "at prices lower than those exacted by said person elsewhere in the United States for the purpose of destroying competition or eliminating a competitor."

Co-operative associations would be exempted from provisions of the measure. Violators would be subject to a \$5,000 fine and a one-year jail sentence.

The so-called Robinson-Patman anti-monopoly bill, also aimed at chain stores, will be passed by the senate before very long, according to a promise made by Senator Robinson to a mass meeting of 1,500 independent merchants who went to Washington to lobby for the measure. This bill legislates against special prices, rebates, advertising allowances and brokerage fees giving sales advantage to chain stores.

THROUGH its committee of thirteen the League of Nations appeared to Benito Mussolini and Emperor Haile Selassie to consent to immediate negotiations for an end to hostilities and a definite re-establishment of Italo-Ethiopian peace. Though consideration of the proposal by his cabinet council was delayed a few days, Mussolini, according to advices from Rome, was disposed to acquiesce provided territory in Ethiopia already occupied by Italy is considered hers and left out of the negotiations.

Haile Selassie accepted the proposal without reservation. In recent days his armies in the northern sector have been routed in big battles and have lost many thousands of men, and the Italians have penetrated far toward the interior of the country; and in the South the invaders were preparing for a rapid advance.

Back of the league's appeal was the standing threat of extension of sanctions to include an embargo on oil. This suddenly brought about a situation rather disconcerting for the league. Dr. Giuseppe Motta, Swiss foreign minister, gave a warning that if the oil embargo was applied his country might feel it necessary to leave the league in order to preserve its neutrality if the consequent threatened war in Europe resulted. Motta pointed out that if Italy quit the league and hostilities ensued, Switzerland, through her membership in the league, would appear in Italian eyes as a party to a hostile coalition, and would be subject to invasion, by Italy on one side and perhaps by Germany on the other.

BRITAIN'S government evidently believes another war is coming, and intends to be well prepared. It made public a gigantic program for increases in the army, navy and air forces and for swift mobilization of man power and industry. No official cost estimate was given out but authorities said the total over a three-year period would be not less than one and a half billion dollars. The program includes these features:

Army—Four new battalions of Infantry are planned. All units are to be modernized, mechanized, and re-equipped. Especial attention will be paid coastal and anti-aircraft defenses.

Navy—Two new battleships next year and an increase in cruiser strength from 50 to 70, with five new ones to be laid down this year. Naval personnel also will be increased by 6,000, a new aircraft carrier will be constructed, and the air arm of the navy will be strengthened.

Air Force—About 250 new war planes will be added to the home defense squadrons, bringing the total to 1,750. Twelve new air squadrons for imperial defense—that is, air forces available for transfer to danger areas—will be added, and more pilots will be recruited.

Following this announcement the annual naval estimates were submitted to parliament. They call for \$340,650,000, an increase of \$40,400,000 over the previous year.

JAPAN was calming down after the amazing revolt and attempted coup d'etat of a thousand soldiers led by a group of young "fascist" officers who thought the Okada government was hampering the military progress of the nation. So far as can be judged at this distance, the net results of the uprising were: Admiral Viscount Makoto Saito, former premier and lord keeper of the privy seal; Korekiyo Takahashi, minister of finance, and Gen. Jotaro Watanabe, chief of military education, were assassinated by the rebels. Premier Okada escaped death, his brother-in-law being mistaken for him and slain. The mutineers, threatened by loyal troops and the fleet, obeyed an edict by Emperor Hirohito and surrendered. Of their 23 leaders, two committed suicide.

The immediate concern of Emperor Hirohito and his advisers was the selection of a man for premier who could form a new government that would satisfy the various parties. First Prince Fumimaro Konoye, young president of the house of peers, was asked to undertake this task, but he declined on the ground of poor health. Then the choice of the emperor fell upon Koki Hirota, a moderate who is well known in both the United States and Russia. Hirota at once began picking out his ministers, saying: "My cabinet will be composed of young, able statesmen."

Hirota's selection was taken to mean that the emperor has determined to proceed with the modernization of the country, and to exercise his power to rule instead of permitting himself to be the exalted agent of military overlords.

MAJ. GEN. WILLIAM WEIGEL, retired, one of the army's most reliable commanders, died in the army hospital on Governors Island at the age of seventy-two. He served 44 years, through Indian campaigns, in the Spanish-American war and in the Philippines, and went to France in the World war as a captain. He was rapidly promoted through grades, to brigadier general on August 15, 1917, and to major general on August 8, 1918, when he was given command of the Eighty-eighth division, a new national army unit which he trained and took overseas. Previously he had commanded the Fifty-sixth brigade, Twenty-eighth division, a Pennsylvania outfit, at Chateau-Thierry.

MORE than 150,000 workers in 11,000 buildings in New York city were called out on strike by James J. Bambrick, president of the Building Service Employees' International union, and the sky-scrapers from the Battery to Washington Heights were badly crippled. Elevator men stopped their cars, furnace men banked their fires and scrubwomen threw down their mops, and all marched out of the buildings and formed picket lines. There was some scattered fighting between the pickets and men hastily hired to take their places.

Since the strike affected not only office buildings but innumerable apartment buildings also, the occupants of the latter were deprived of heat and telephone connections, and in many cases sick persons were marooned without food supplies. This led Mayor La Guardia to call the city health officials into conference, and to declare a civic emergency and order Health Commissioner Rice to see that fires were stoked and that trips necessary to health of the tenants and care of the sick were made in all residence buildings of more than six floors.

IMMEDIATELY after President Roosevelt signed the new soil conservation-farm relief act passed to take the place of the invalidated AAA, Administrator Chester C. Davis began planning ways to spend the \$500,000,000 authorized. Under his orders more than five thousand employees of the AAA who had been waiting since January 6 for something to do got busy placing the new program into effect.

The goal of the new law, Mr. Roosevelt said in announcing his signature, is parity, not of farm prices, but of farm income. He said the New Deal has "not abandoned and will not abandon" the principle of equality for agriculture.

Davis planned, as the first move, a series of four conferences with agricultural leaders in Memphis, Chicago, New York and Salt Lake City to formulate plans to take 30,000,000 acres out of commercial production this year and place them in legumes and other soil conserving crops.

The new law provides benefit payments to farmers who co-operate in federal suggestions for conservation of soil fertility in 1936 and 1937. It provides, also, for federal subsidies to states setting up permanent state programs in 1938 and thereafter.

"REMEMBER the Alamo," the battle cry of Texas, was heard all over the state as its centennial celebration opened at the village of Washington-on-the-Brazos, where the declaration of independence from Mexico was signed. The old "charter of empire" was taken there from its place in the state capitol rotunda in Austin, and Gov. James V. Allred of Texas and Gov. Phillip LaFollette of Wisconsin went along to take part in the ceremonies. The party then went to Huntsville, where Gen. Sam Houston gathered an army of Texans to fight the Mexicans, and there Gov. Hill McAlester of Tennessee made the address. San Antonio and other cities followed on the program, and the celebrations will continue for months, reaching a climax in the opening on June 6 of the centennial exposition at Dallas.

Crocheting a Fluffy, Lacy Afghan, to Be the Heirloom of Tomorrow

PATTERN 5254

What more conducive to "forty winks" than this fluffy, lacy afghan! Its crocheted warmth will ward off

the most treacherous draughts, its color brighten and gladden any room it adorns. A very simple pattern to follow, too. The stripes look like tiny daisies strung together, and are in a crochet stitch which busy hands and needle soon learn to do by heart. Lovely in three shades of one color, it is also effective with each stripe a different color.

In pattern 5254 you will find directions for making the afghan; an illustration of it and of the stitches used; material requirements, and color suggestions.

Woman Linguist Maintains Vow of Silence 25 Years

Anne Louise Reinzl, of Boston, could talk fluently in seven languages. But for more than 25 years she uttered not a single syllable of one of them to a living soul!

In 1910 she became a recluse, locking the door of her home to all visitors. Gas, electricity and water companies had to turn off supplies because she refused to admit their inspectors. Recently kindly neighbors grew anxious when she was not seen about. Police were called, battered down doors, found her lying on the floor with a fractured leg. She was rushed to a hospital, where she died, aged ninety.—Pearson's Weekly.

Dr. Pierce's Pleasant Pellets are the original little liver pills put up 60 years ago. They regulate liver and bowels.—Adv.

Lack of It
A mussy office is not necessarily an indication of a lot of work done.

This story will interest many Men and Women

NOT long ago I was like some friends I have... low in spirits... run-down... out of sorts... tired easily and looked terrible. I knew I had no serious organic trouble so I reasoned sensibly... as my experience has since proven... that work, worry, colds and whatnot had just worn me down.

The confidence mother has always had in S.S.S. Tonic... which is still her stand-by when she feels run-down... convinced me I ought to try this Treatment... I started a course. The color began to come back to my skin... I felt better... I did not tire easily and soon I felt that those red-blood-cells were back to so-called fighting strength... it is great to feel strong again and like my old self.

Insist on S.S.S. Tonic in the blood-red Cellophane-wrapped package... the big 20-oz. size is sufficient for two weeks' treatment... it's more economical, too.

S.S.S. TONIC Makes you feel like yourself again

Firestone TIRES

RUN up to 28° COOLER

THIS IS WHY THEY GIVE YOU More Dependable Service AND SAVE YOU MONEY

Every truck operator knows that internal friction causes heat and heat is the greatest destroyer of tire life. The only way to counteract friction and heat is by Gum-Dipping, the Firestone patented process which soaks the cords in liquid rubber, saturating and coating each tiny cotton fiber and strand within the cord, counteracting friction and heat at their very source. As a result of this patented process, Firestone Tires run up to 28° cooler than tires built without Gum-Dipped Cords.

This is why Firestone Tires are used by thousands and thousands of truck operators from coast to coast, including the largest transportation fleets. These operators choose tires strictly on performance... they know that Firestone Tires give them more dependable service at lowest cost per mile. See your nearby Firestone Auto Supply and Service Store or Firestone Tire Dealer today and start reducing your operating costs.

FIRESTONE TIRES RUN COOLER
This scientific instrument accurately measures the heat generated in tires at high sustained speeds. Firestone Tires run up to 28° cooler than tires built without Gum-Dipped Cords—this means added strength, greater dependability and longer mileage.
