France Forming Solid Front Against Germany in New Crisis-Paraguay Made Totalitarian State-Chester Davis Is Sent to Europe.

By EDWARD W. PICKARD

SIXTY thousand German troops in the Rhineland that was supposed to be demilitarized. Practically the

entire French army in and behind the vast system of fortifications along France's eastern frontier. The French government, backed by the other signers of the violated Locarno treaty and by the little entente, Poland and Russia, demanded that Germany withdraw her troops from the Rhineland or

that sanctions, economic and possibly military, be imposed by the League of Nations. Great Britain trying hard to keep the peace, reproving Germany, supporting the French demands in great measure, but urging that Hitler's proposal of new non-aggression pacts be given consideration. Reichsfuehrer Hitler reviewing his forces in the reoccupied territory and receiving the loud plaudits of the inhabitants for restoring their military sovereignty.

That in a nutshell was the perilous situation in Europe as the representatives of the Locarno nations and the council of the league assembled in London to consider what to do next. Foreign Minister Pierre-Etienne Flandin of France was there with the full support of Premier Sarraut for his demands that immediate action be taken to bring Hitler to time. He was represented as "almost convinced" that a "preventive war" now would be preferable to "carnage two years hence," and in Paris it was disclosed that France counted on having at her disposal, from her own forces and those of Russia, Poland and the little entente, a potential army of about 40,000,000 men. It was said 8,000,000 could be mobilized in 48 hours and 31,000,000 were trained reserves; and that 8,000 airplanes and a million tons of warships were ready.

The Franco-Russian treaty came up in the French senate and was ratified by a huge majority. It is this pact that Hitler gave as his excuse for remilitarizing the Rhineland, asserting that it was a violation of the Locarno treaty, being aimed at Germany. It is the final link in the "iron ring" around the reich which France has been forging.

At first the British government's response to France's demands for full support against Germany was ambiguons and not satisfactory to Sarraut and Flandin. After conferences with Prime Minister Baldwin and other ministers, Capt, Anthony Eden, the young foreign secretary, appeared before the house of commons and declared any attack on France or Belgium in violation of the Locarno pact would compei Britain to go to their assistance. He added, however, that there was no reason to suppose "the present German action implies a threat of hostilities." Then he indicated Britain was willing to consider Hitler's proposals for new peace covenants.

The British statesmen seemed so calm in the crisis that there was reason to believe they knew in advance what Hitler intended to do. When Flandin and the other Locarno signatory representatives arrived in London, the attitude of the British cabinet changed and grew decidedly stiffer.

HITLER was not represented at either the Locarno conference or the session of the league council in London. He himself, having precipi-

itated the crisis, made his triumphal appearance in the Rhineland and then awaited events. His dramatic and sudden denunciation of the Locarno treaty was accomplished in a speech before the reichstag and in formal announcements to the ambassadors in

Berlin of the nations Adolf Hitler concerned. He asserted that the troops he sent into the Rhineland comprised a "symbolic" army only, and that the reich, while ready to defend itself, was wholly desirous of peace. To prove this he offered a plan which includes: A demilitarized strip of German, French and Belgian land; a 25-year non-aggression treaty among Germany, France and Belgium, with Great Britain and Italy as guarantors; inclusion of the Netherlands in the system of pacts; an air pact with the western powers; a non-aggression pact with Germany's eastern neighbors, including Lithuania; and return of Germany to the League of Nations after her equality is established and her sovereignty restored.

France's reply to this was that, having just violated one treaty, Hitler could not be trusted to observe another; and anyway, France would not even listen to the reichsfuehrer's new proposals until he had withdrawn his troops from the Rhineland, The French army was moved toward the frontier and the "Maginot line" of fortifications and underground passages was fully manned. This system of defenses has been criticized because it requires so Field.

many troops that the army is rendered virtually stationary-what has been called in Paris "the concrete army." Remaining forces would be insufficient for offensive movement. But this fault might be disregarded if France gets the expected millions of soldiers from her allies.

CHIEF JUSTICE ALFRED A. WHEAT of the District of Columbia Supreme court checked the telegram-seizing activities of the Black senate committee on lobbying. He granted the Chicago law firm of Silas H. Strawn an injunction restraining the Western Union Telegraph company from giving the committee copies of the firm's telegrams.

The judge said the subpoena served on the telegraph company by the committee, calling for copies of telegrams "goes way beyond" the committee's

Next day William Randolph Hearst, newspaper publisher, began a fight in court to keep an original confidential telegram out of the hands of the Black committee; and the American Newspaper Publishers' association denounced the reported seizure of that telegram, which was to one of Mr. Hearst's editors. The association advised any other editor, should he learn of similar action, to consult counsel and "take vigorous steps to protect his constitutional rights."

COL. RAFAEL FRANCO, who became provisional president of Paraguay after the recent revolution there, has set up a totalitarian gov-

ernment modeled after German Nazism and Italian Fascism. He issued a decree which declared the state and the "liberating revolution" of February 17 as indivisible and banned for one year political, labor, or other unions which "do not emanate explicitly from Rafael Franco the state."

Paraguay, the government asserted, will be purged of "endemic, demagogic, industrial, and sectarian evils." The official statement places in the "liberating army" the principal source of authority.

The aims of the new government, the decree said, will be the construction of a new, strong Paragnay and constitutional reorganization for a future republic.

C HESTER C. DAVIS, head of the invalidated AAA, is not going to administer the soil conservation program devised as a substitute. President Roosevelt announced that Mr. Davis would leave soon on a trip to Europe to make a special study for the government of economic conditions bearing on the agricultural plans for this country. Critics of the administration immediately assumed that Mr. Davis and Secretary of Agriculture Wallace had disagreed and that the former was being gently edged out of the picture. This Mr. Wallace warmly denied, asserting there had been no friction and that he had deep affection for Mr. Davis and the sincerest

respect for his ability and integrity. In announcing the assignment, Mr. Roosevelt said: "In requesting him to make this study for our government. Secretary Wallace and I have had in mind the distinguished service Mr. Davis has given American agriculture, especially during the last two and onehalf years. As administrator he has been directing governmental efforts which, to a considerable degree, were made necessary by changes in the European outlets for American farm

products. "Information to be gathered by himat close hand as to the precise nature and extent of these economic changes abroad is expected to assist greatly in developing American farm pro-

GREAT BRITAIN is interested and pleased to learn that King Edward VIII may abandon his state of bachelorhood and take unto himself a wife. This was revealed when the king authorized these lines in the message submitting the civil list to the house of commons: "His majesty desires that the contingency of his marriage should be taken into account so that, in that event, there should be a provision for

her majesty."

EARL BEATTY, commander of the British war fleet in 1916-18 and afterward first lord of the admiralty. died in London after a long illness at the age of sixty-five. Rising from a sick-bed to attend the funeral of Earl Jellicoe last November, he predicted that he would soon follow his colleague. Lord Beatty had a meteoric career as a naval commander and displayed his ability in the battles of Hellgoland Bight and Dogger Bank, and especially in the battle of Jutland where he commanded the first battle cruiser squadron. His wife, who died in 1932, was Ethel Fleid, daughter of the Chicago merchant prince, Marshall

COMMUNISTS and radicals who appeared as representatives of the Workers' Alliance of America went before WPA Administrator Harry Hopkins and made a series of demands that were all coldly turned down by that gentleman. These included the dismissal of Victor F. Ridder, New York WPA director; no cut in the 3,500,000 persons on works relief, and full union pay and union hours for persons on relief and pay for sick leave. They also demanded that all employed, whether or not on relief rolls, be given WPA work.

N RECENT financing operations the government sold \$1,355,643,550 in bonds and notes, according to Secretary of the Treasury Morgenthau. The offerings, largest since the Victory bond issue of 1919, were heavily oversubscribed by banks. This borrowing brings the public debt up to the record figure of \$31,413,000,000. The treasury's cash balance is increased to \$2,675,000,000.

The funds will finance New Deal spending in the near future, partially defray bonus costs and retire \$450,-000,000 worth of treasury bills falling due March 16.

DLANS to furnish TVA power to the city of Knoxville, Tenn., under a project to be financed with PWA funds were blocked by a temporary restraining order issued by the District of Columbia Supreme court.

The order was granted on the petition of the Tennessee Public Service company which contended its \$4,000,-000 investment in Knoxville would be rendered practically worthless, if the government brought cheaper power into the city.

Also in the District Supreme court, 66 producers of soft coal attacked the Guffey coal control act as unconstitutional in its entirety on the ground that it invades the rights of the states and deprives producers of their property without due precess of law.

mier, takes the foreign minister's portfolio, Lleut. Gen. Count Juichi Tarauchi is put in as minister of war and Admiral Osaml Nagano as minister of navy. Military leaders insisted that Hirota "show a proper recognition of the gravity of the times and the necessity for renovation of Japa-

nese foreign policy," and to this demand he yielded somewhat.

Hirota issued a statement saying that "the present empire situation requires independent and positive readjustment of our foreign relations in order to liquidate this emergency."

Hachiro Arita, new Japanese ambassador to China, told the press in Shanghal that "It is fundamental that China recognizes Manchukuo and that the other North China questions should be settled on the spot."

"There has been no change in Japanese policy in China as a result of the recent Tokyo incident," he declared. "Japan will carry out the three principles of Koki Hirota, former Japanese foreign minister, requiring that China eliminate anti-Japanism, co-operate economically with Japan and Manchukuo and co-operate in the elimination of communism within China and along the borders."

Eiffel Tower Modernized Into Television Structure

Back in 1887-89 Alexander Gus tave Eiffel built the famous tower which bears his name for the International exposition in Paris. It was then regarded as a mere engineer-"stant." Sober engineers declared it was faultily built and predicted it would be razed.

Today, states a writer in the Washington Post, important as a meteorological and wireless station

and guide for airmen, it still towers above Paris. A short time ago Accessories Colorful France added to its usefulness by making it a station for the broad-

cast of television programs, An interlaced ironwork structure, the Eiffel Tower reaches a height of 984 feet. The many visitors who ascend, by stairway and elevator, to the circular balcony surrounding the glass pavilion which tops the tower can see 55 miles on clear

FIRESTONE **GROUND GRIP TIRES** SPEED UP FARM WORK-MAKE IT EASIER-MORE PROFITABLE

HARVEY S. FIRESTONE pioneered and Firestone engineers developed a pneumatic tire which is the greatest contribution in recent years to more efficient and economical farming. Farmers using Ground Grip Tires on their tractors are saving more than 25% in time and fuel.

On all farm implements the Ground Grip Tire has proved of practical time-saving and money-saving yalue. Wagons, combines, mowers, sprayers, grain drills require up to 50% less draft to pull them. Hauling is speeded up. Plowing is done with more uniform depth. Vines and roots are not injured or cut, allowing closer planting and greater yield. Ground Grip Tires do not pack the soil and give greater protection to equipment.

It requires only a minimum investment to put all your equipment on Ground Grip Tires. With Firestone's new demountable rim and cut-down method of applying the rim to the original implement wheels, one set of tires will fit several implements. Tires can be changed quickly from one implement to another-you need only two or three sets for practically all your implements.

Firestone patented Gum-Dipped cords, with two extra layers of Gum-Dipped cords under the tread. holding the patented super-traction tread to the cord body, made this great tire possible.

See the nearby Firestone Tire Dealer, Implement Dealer or Firestone Auto Supply and Service Store today-and in placing your order for new equipment, be sure to specify Firestone Ground Grip Tires on your new tractor or farm implement.
