

Spring Mills

A Collection of Newsy Happenings and Personals from Gregg Township's Metropolis.

School Bond Issues Carries.—The school bond issue for \$10,000 to equip the auditorium and gymnasium carried handsomely in Gregg, every district giving a majority vote in favor of the bonding. The majorities: West precinct (Spring Mills) 106; East precinct (Penn Hall) 13; North precinct (Brush Valley) 3; total majority, 122.

Citizens Discuss School Project.—The citizens of Gregg township met in the Vocational school building on Friday evening to discuss in a general way the proposed Federal project calling for the construction of an auditorium and gymnasium at an expenditure of approximately \$12,000, already provided for by a bond issue at a low rate of interest, together with the proposed issue of a second bond issue for \$10,000 to equip the auditorium and gym.

About sixty citizens were in the gathering, coming from all sections of the township. Prof. O. F. Smith, of Boalsburg, acted in the capacity of chairman. He is one of Harris township's school directors. His particular interest lies in the fact that his district has on hands a similar problem—a \$45,000 project, which includes a high school building and auditorium. He brought out the fact that the Federal grant due to the original structure was \$6,954; that the borrowing—past and proposed—was much below that permitted under the school code; that the \$10,000 proposed borrowing could be taken care of without increasing the present rate of millage; that the school district, from a financial point as viewed by the State Educational board, was so much better than the average school district it might even be a hindrance to obtaining aid.

The speaker compared the district's position similar to a dairyman, who would erect a dairy barn and not purchase a herd of cows. The contract let provides only for the building—no heating plant, electric lighting system, ventilating system plumbing of any nature, or seating.

Before entering upon the question proper, Prof. Smith, in a forceful manner brought to the attention of his audience the importance of establishing in this day and generation a suitable community center, and that such a center was contemplated in the project. Years ago, he said, community centers covered but a small area, a few miles, whereas today school pupils may reach entertainment in a radius of 40 to 100 miles making the home center more and more important and its fitness more nearly comparable to those of the surroundings.

Mr. Hunter, representing the architectural firm of Hunter and Caldwell, Altoona, brought out that the layout was such that the school district could provide for a centralized township school without loss.

The expressions on the part of the citizens present, appeared to be favorable to the \$10,000 bond issue. The result is treated in another paragraph.

The home of Charles Sharer, at Pleasant View, near Bellefonte, was visited by Mr. and Mrs. Calvin Lingle, of Spring Mills, and their daughter, Mrs. Harry Brown, of Pottery Mills, also by Arthur Gill, of Allentown.

The district of Relief Administrator W. R. Ishler, comprised of Potter, Penn, Gregg, Haines, Miles, Marion and Walker townships, Centre Hall and Millheim boroughs, at the beginning of the week had seventy-four persons on direct relief. Approximately ten of this number will be dropped this week because they have secured employment. One boy in the district, Edwin Ramsey, of Georges Valley, will report on Friday at the recruiting station in Altoona for service in the Civilian Conservation Corps.

Electric light and power lines are being pushed out into rural sections more frequently now than at any time heretofore, the last farm owner to sign up with the West Penn for service in this section having been F. M. Fisher, who is having his farm south of Penn Hall electrified. The tenant, Mr. Wasson, has been accustomed to the use of electricity in the farm home and consequently acquainted with its advantages.

Spring Mills Vocational won over Millhall Tuesday of last week by a score of 9-6. It was the second game of the season. The Hubersburg-Spring Mills game on Friday resulted in the latter winning 4 to 2.

Mr. and Mrs. Bruce Bower, of Elburn, Ill., returned to their home after having been called to the valley on account of the death of Mrs. Daniel Shook, mother of Mrs. Bower. The Bowers both natives of the valley, are farmers, and are giving their attention to feeding cattle and hogs. The couple, together with Mr. Shook, were entertained at an evening dinner on Saturday by Mr. and Mrs. S. L. Condo, their uncle and aunt.

WPA workers under A. E. Lee continue to widen the curve at the approach to Spring Mills, but the force on Monday was much reduced, due to the men working at three other points in the township.

Home Economics Students to Celebrate.—The close of the fourth or fifth year as students under Miss Eleanor Smith, Home Economics Extension worker in Centre county, will be observed with an evening dinner in Lewistown, followed by a theatre party. Approximately the same group of ladies comprised the class from the

beginning, and they feel the instruction has been valuable, and the social feature an important one. The class is composed of the following: Mrs. Guy L. Corman, Mrs. G. B. Meyer, Mrs. M. T. Zubler, Mrs. Robert Heckman, Mrs. Ardell Myers, Mrs. Roy Seanson, Mrs. C. M. Watts, Miss Rozella Hoeltger.

Mrs. Annie Smith has pretty well recovered from a heart and nervous attack. Sunday afternoon she was out for an afternoon drive for the first time since becoming ill.

Messrs. G. B. Meyer, H. S. Meyer, Joseph Swabb, Samuel Rose and Spurgeon Condo, on Sunday, motored to the Allegheny Mountains, where they gave their hunting grounds along Baker and Shoemaker Runs, east of the Snow Shoe-Phillipsburg road, the once over.

Norman Rossman substituted for Harold Hanson as manager of the League Milk plant during his absence due to the death of Mrs. Hanson.

C. B. Stover and daughter, Miss Josephine, motored to York on Friday and returned Sunday. While in York Mr. Stover gave assistance to Mrs. Myrtle Burrows in transacting business incident to the settling of the estate of the late Mr. Burrows.

Miss Jane Bletz, stricken with infantile paralysis during last week, is reported improving. She is living with Mr. and Mrs. Earl Rider, both Groce Silk Mill employes. Miss Bletz was referred to last week in a news item as Miss Guisevite, which was an error in name.

Taxes on real estate, tax collector Stover states, not paid by Monday, will be turned over to the County Commissioners for collection, which means an additional expense to the taxpayer.

Mr. and Mrs. A. B. Lee, on Friday, motored to Valley View where they were the guests of Mr. and Mrs. Melvin Bolton until Sunday.

Death of Mrs. Hanson.—Mrs. Hanson, wife of Harold Hanson, a much beloved resident of Spring Mills, following a lingering illness died at her home on Thursday morning of last week. The body was taken to New Berlin, N. Y., where interment was made on Saturday in her former home community, where she was born and reared.

The deceased, who before marriage was Miss Christine Spicer, is survived by her husband and a daughter, Miss Lona Hanson, both her parents and brother and sister being deceased. She was a member of the Baptist church.

Mrs. Hanson underwent an operation last July, following which she greatly improved in her general physical condition but later complications arose that could not be overcome by medical science.

J. C. Robinson, manager of the Groce Silk Mill, who during last week suffered from a severe illness, has recovered.

Mr. and Mrs. Harry Condo and son Richard, also Mr. and Mrs. S. L. Condo, were guests of Mr. and Mrs. Edward Wolfe, in Bellefonte, on Sunday. They were pleased to find Mrs. Wolfe recovered from a recent illness. Miss Gladys Coble continues to improve but is not yet able to return to high school.

Asher Confer purchased a heavy 2-wheel trailer at a public sale he and S. L. Condo attended at Welket, on Saturday.

Mrs. Vernon Godshall, noted as having undergone a mastoid operation in the Lewistown hospital, is greatly improved but continues to need attention. She is now at the home of her parents, Mr. and Mrs. Ralph Shook, Spring Mills having come there on Monday evening.

Gave Birth to 6th Girl, 9th Child.—Mrs. Shawver, wife of Orvis Shawver, gave birth to her ninth child and sixth daughter at the Centre County hospital, on Wednesday of last week, and was brought to her home in Georges Valley on Sunday. The young Miss weighed five pounds and as many ounces in her birthday attire on arrival. The eldest of the Shawver children—a girl—is fourteen, and the mother thirty-one and dad is four years his senior. The couple are very proud of their family.

Harold Hanson and daughter, Miss Lona, on returning from New York State were accompanied by Mrs. Stuart Spicer, a relative of the late Mrs. Hanson.

David Miles died at State College from a heart attack, on Saturday, and burial was made on Tuesday. He was a native of Dewart. About 8 years ago he was manager of the League Milk plant at Spring Mills, and while so occupied made his home with the S. L. Condo family. He was unmarried.

Ground Broken for Auditorium and Gym.—Monday morning ground was broken for an auditorium and gymnasium to be constructed at the rear of the Gregg Township Vocational School building. Contractor Charles L. Fye, of Tyrone, and Mr. Caldwell of the architectural firm of Hunter and Caldwell, Altoona, staked off the foundation and threw out the official first shovel-full of ground. The structure dimensions are 68x75 feet. The stage or platform will have a depth of 20 feet, leaving the play floor 68 x55 feet. These measurements are outside. The ceiling will be 18 feet; all walls plastered. Lockers and shower rooms for boys and girls are also provided. The roof will be flat, with fabricated steel arches exposed in the ceiling. The floor will be laid on wood joists on steel girders.

Rebersburg.—Mr. and Mrs. Leo Kidder and daughters Violet and Helen spent Sunday in Lewistown at the home of an uncle, John Palmer.

Willis Bierly entertained his father and mother, Mr. and Mrs. Adam Bierly, his brother, Roland, and family, and two sisters and families, from

Snyder county, on Sunday.

Mr. and Mrs. Wayne Wagner and niece, Patty Beal, visited Mrs. Beal's parents, the M. R. Moyers over the week-end.

Mr. and Mrs. S. L. Gephart spent a day in Altoona the past week.

Mr. and Mrs. W. E. Bair transacted business in Bellefonte the past week.

Mr. and Mrs. John Bright from Millheim, called at the James Ziegler home on Sunday.

Mabel Musser, from Williamsport, who formerly lived here, visited with friends a short time the past week.

Little Miss Laura Ruth Tyson returned to her home in Millheim after visiting at the Lee Kidder home. Mrs. Harry Smull returned home after a two weeks' stay at the home of her daughter, Mrs. Samuel McMullin, in Millheim. Mrs. McMullin has been seriously ill with a bad attack of rheumatism.

Will your stove do this?

... broil fish on Paper without odor or smoking

∴ an Electric Range will!

SEE THE DISPLAYS
Visit West Penn's store—or any other Electric Range Dealer—to see the displays of the latest electric ranges. A small amount each month buys one—electricity for cooking averages only—
\$2.20 A MONTH

YOU'RE missing a great delicacy if you do not occasionally serve broiled fish. The flavor is delightfully different—but broiling fish is difficult, unless you cook electrically.

To broil fish with an electric range, merely place the fish on a piece of heavy paper that you lay in the bottom of the broiler pan. There is no danger of the paper catching fire! Now put the pan in a pre-heated oven—the cook book tells you how long, and it depends on the size of the fish—then broil until done and you will have the finest-tasting fish you have ever eaten!

Meanwhile, there has been no odor, no sticking, scorching or smoke. You will find ALL electric broiling simple, tastier and safe!

ELECTRIC COOKING: Cook, Clean, Fast, Economical, Better Results!
