## ... an Electric Range will!

PORK CHOPS with rice and gravy! Meat balls, spaghetti and tomato sauce! Wouldn't you serve these delightful, economy dishes more often if they didn't require so much watching while cooking?

Well, when you cook these dishes with an Electric Range there is no watching at all after the meat is browned! You simply put them into the skillet, cover them—and your work is done until serving time! There'll be no "peeking" necessary—in fact, it's a waste of time to stay in the kitchen and "watch" an electric range.

What marvelous flavors, too! If you only knew the astonishing difference that sealed-in cooking makes, you would not want to delay the joy of using an electric range.

### MONTHLY BUYING PLAN

Ask at the West Penn store—or of any other Electric Range Dealer—about the low monthly payments now available on 1936 electric ranges. The new models are beautiful.
