A lady who had employed a Chinaman as cook asked him his name. "Me name San Toy Lee," he said. "Ah, your name is too long," the lady replied. "I will call you John." "All right," responded John. "What's your name?" "Mrs. Charlotte Anne Hemingway," she told him. "Your name too long," remarked John. "I call you Cholly."—The Mutual Magazine.

Honest Admiration
"You are very deferential toward a traffic policeman."
"I try to show proper respect for superior wisdom," said Mr. Chuggins. "He is one of the few men who knows all the driving regulations as fast as they happen."

Getting His Own Measure
"Does your wife lecture you?"
"Me?" exclaimed Mr. Meehton. "Why, Henrietta wouldn't waste her time lecturing a little bit of an audience like me."

Persian Kitten Is Easy to Do in Cross Stitch

How would you like to find this cute Persian kitten curled up in your favorite chair, or in a pretty frame above your bed? Embroider a pillow or picture with her soft likeness, as you can do so easily in cross stitch, and make her adoption complete. Use wool, silk or cotton floss, though angora yarn makes the most realistic likeness. You'll love doing this needlework in your spare time, and find the crosses an easy 6 to the inch.

Pattern 1148 comes to you with a transfer pattern of a kitten 1 1/4 by 1 3/4 inches; material requirements; illustrations of all stitches needed; color chart and key.

ROBOT EXPLORERS ARE SENT UP INTO THE STRATOSPHERE

The secrets of the sky are being discovered by balloons. These robot explorers climb ten miles into the stratosphere from Kew observatory, where they are launched by Professor Paneth. On reaching the ten-mile limit they burst, and the vacuum flask, carried by each, opens automatically, collects a sample of air, reseals itself and floats home by parachute. Self-registering instruments record the temperature and the maximum height reached.

Their main object is to discover what happens to helium, the rare gas which is set free when radio-active materials break down into commoner elements such as lead, a process that takes thousands of years. The balloons also explore thunder clouds in order to find out how the source of atmospheric electricity is replenished. Little pilot balloons calculate the height of clouds. Their rising speed is constant, and the number of seconds they take to disappear shows the height of the lowest cloud layer. Twenty-two miles is the soaring record of an unmanned balloon.—Tit-Bits.

STOP PAIN QUICK WITH CAPUDINE

Headache, neuralgic, and periodic pains and other nerve pains yield almost instantly to Capudine. This is because Capudine is liquid, and its ingredients are already dissolved—all ready to act. Capudine relieves pain by soothing the tense muscles and nerves. That is why it is so gentle and effective. It is approved by physicians and druggists. Capudine contains no opiates. At all drug stores; 60c, 30c, 10c sizes. (Adv.)

Ambitious Men
Ambitious men, if they be checked in their desires, become strictly discontented and look upon men and matters with an evil eye.—Bacon.

Cardui Helped Three Times

"I used Cardui, when a girl, for cramps, and it helped then," writes Mrs. Ike Wright, of Sealy, Texas. Next, after marriage, she reports having taken Cardui when she felt weak, nervous and restless before her children were born. And during middle life, it helped her again. "I was miserable," she explains. "I did not have an appetite, I was very blue and upset. I remembered Cardui had helped me, so I took it again and soon began to pick up. I ate and had more strength. I kept up the Cardui and did not have any more trouble. Is it any wonder that I recommend Cardui to all my friends?" Thousands of women testify Cardui benefited them. If it does not benefit YOU, consult a physician.
