FORD V-8 ECONOMY MEANS HIGH "Dollar Mileage"

(MORE MILES PER DOLLAR)

ONLY THE FORD V-8 GIVES YOU ALL THESE FEATURES

1. V-8 ENGINE PERFORMANCE WITH ECONOMY
2. SUPER-SAFETY MECHANICAL BRAKES
3. SAFETY GLASS ALL AROUND AT NO EXTRA CHARGE
4. WELDED STEEL BODY--STEEL STRUCTURE AS WELL AS SURFACE
5. CENTER-POISE RIDING COMFORT

NO MATTER how you classify your expenditures for car up-keep--it's your total expenditure that counts. How much "dollar mileage" is your car giving you?

Dollars do go farther in the Ford V-8. Modern improved carburetion gives you unusual gasoline mileage with brilliant V-8 performance. Most owners of today's Ford change oil only every 2000 miles and add none between changes.

And after the first few thousand miles you begin to understand what Ford V-8 "dollar mileage" really means.

It gives you more miles per dollar because it gives you all-round economy--low first cost, low up-keep cost, low depreciation and long life--as well as low gasoline and oil consumption. All these are big items if you aim to buy the most economical car.
