He is also obliged to carry front and rear lights. The State Highway Patrol are enforcing the rules.

Assaults on the government from Big Business and discredited politicians grow in numbers and intensity in proportion to the degree to which the country is recovering and the election draws nearer.

Forgotten by them—are the dreary days of '32, when business and finance went running to Washington, where the old regime had just been turned out, unable to help others or itself.

BALLOONIST TO BE LABOE DAY ATTRACTION AT HECLA

In appreciation of the wonderful patronage enjoyed by Hecla Park this past season the park management is planning one of the biggest Labor Day celebrations ever staged in this section. Sensational free acts, special music and other novelty entertainment will be featured at a two-day festival starting Sunday, September 6 and ending on Labor Day evening.

The outstanding attraction will be Edward Allen, 18, who is known as one of America's most daring balloonists. Young Allen, a senior at Batavia, N. Y., high school, is about 6 feet tall and tips the scales at 175 lbs. Master Allen comes from a family of balloonists who were known as the original men of the skies, having been doing balloon acts in the early days of 1870.

Edward Allen has made 56 ascensions in the last two years and has had many thrilling escapes from death while making his sky rides. The balloon which takes him into the air inflates to 70 feet high and 40 feet in diameter. Allen makes his ascent into the air upon a grapeze attached to the balloon, finishing up by hanging by his toes and then making his parachute jump. Weather conditions determine the distance the balloon goes upward before the parachute jump is made, the average distance usually being 3500 feet. This sensational attraction will be presented in the late afternoon of both days of the celebration.

By popular request the Tussey Mt. Tar Heels will return to Hecla Park for these two closing days, presenting a new and novel program.

Dancing, roller skating and new concessions and rides will be other attractions during this event.

BASEBALL

LOCALS CLOSE B. B. SEASON WITH 4-6 VICTORY

Continuing his "Indian sign" on Rebersburg, George Lutz fanned 14 of the enemy, allowed only 4 hits, and scored a 4-0 shutout, in the last scheduled game of the Tri-Valley League, last Thursday evening, at Centre Hall. The game went the regular seven innings.

A statement in proportion is: Lutz is to Rebersburg as Montgomery is in the old days was to Centre Hall. Lutz's appearance on the mound against the Brush Valley boys does something which cannot be accounted for. Not a regular pitcher for the reason of his being hit freely by other teams, Lutz, however, can tame Rebersburg, and was given his only assignment of the season on Thursday, and came through as usual.

George Rimmey, catcher for the locals, was the batting star with two doubles. Only five hits were collected by Centre Hall.

The victory makes the count 13 victories and 2 defeats for the second half, which is the same percentage (.867) as was recorded in the first half. It is by all odds the most successful record made by any local baseball club in the history of the town.

Congratulations to Manager Harold Durst and his co-workers.

Final Standing of the Teams: Centre Hall 13 W. 2 .867, Lemont 9 W. 6 .600, Rebersburg 8 W. 7 .532, Pleasant Gap 7 W. 8 .466, Spring Mills 6 W. 9 .400, Pine Grove Mills 2 W. 13 .133

SUGGEST TRI-VALLEY VICTORS —CO. LEAGUE WINNERS MEET

George A. Scott, in his column, "Rambling Thru Sportdom," in the Centre Daily Times, suggests the officials of the Tri-Valley League and the Centre County League arrange a series of games between the champions, in this fashion:

"Centre Hall's record, incidentally, is not to be ignored. Any team that wins 26 of its 30 games has something besides nine players in uniform and the Senators deserve plenty of credit for their achievement. Tri-Val-

ley and Centre County League officials would do well to consider a series between Centre Hall and the champion of the Centre County circuit when the latter is determined."

JOHN L. WETZLER, Register of Wills

By WILL ROGERS

THE professor that was visiting with some of his friends, in San Francisco, was kinda proud of himself, so when the little girl

asked him what kind of work he did, he said, "Why, I'm a geologist."

"That's funny," she says, "because I'd like to know what a geologist does for a living."

"Oh, I just carry a little hammer around with me and use it to crack open rocks."

"Now I know," says the kid. "I got a uncle that's a geologist. He got that way for driving his car when he had a bun on. What did you do?"
