Roland Zettie to Return to Hospital—Roland Zettie, who was a Centre County hospital patient, being treated for kidney, bladder and prostate gland trouble, is at this time able to move about in the house and sit in a chair, contemplating returning to the hospital for an operation in the near future. It is natural that one dreads the approach of such an experience, but Mr. Zettie appears to have determination sufficient to meet the emergency when the time comes.

Rev. and Mrs. A. L. Wagner and family, of Centre Hall, and Rev. and Mrs. Naylor and family, of Stormstown, took Sunday dinner at the home of Mr. and Mrs. Elmer Hettinger. Rev. Naylor and Willard Hettinger were hospital patients at the same time.

Death of Baby Shock to Mother—A young mother, the former Geraldine Bitner, was shocked almost beyond endurance, when she found her babe asleep in death in her coach outside her home, in Philadelphia, where she was left alone for but a short space of time. As was the mother's custom, the child, Sandra Marie, was placed out in the open to have the benefit of fresh air. So far as the parents, Mr. and Mrs. James McDonnell, had knowledge the child was not afflicted, but in good health. The death occurred at 1:15 p. m., Wednesday, September 23rd. She was aged two months and six days, having been born July 17, 1935. Interment was made in the "Ivy Hill Cemetery," Saturday following the death. The mother is a daughter of Mr. and Mrs. Bright Bitner, Spring Mills. The community deeply sympathizes with the bereaved parents.

Mr. and Mrs. C. B. Stover and daughter, Miss Josephine Stover, and Mr. and Mrs. Joseph Swabb expect to spend a few days in York and incidentally attend the fair. The Stover family lived in York for a few years around 1927, and find much pleasure in returning to renew former acquaintances.

John Decker removed from the Kerzenknebe farm, near Millheim, to the Benjamin Kennedy home, recently vacated by Ivan Lingle, who is now living in the Arthur Grove property acquired by Mr. Lingle.

Miss Margaret Greenoble, a student in the music department of Susquehanna University, Selingsgrove, was at her home over the week-end. She was accompanied by Miss Long, of Fort Royal, her room-mate, also a student in music.

The former Evangelical parsonage, recently vacated by Mr. Predix, is now occupied by Slim Stover, the garageman on Long Avenue, who formerly lived at Greengrove.

Death of a World War Veteran—Russell H. Weaver, a World War veteran, who gave valiant service in a heavy artillery unit in France, was given the final summons, in Millwau-

see, Wis., where he had been employed by a steel construction corporation for nine years. The remains were shipped to Bellefonte arriving there on Tuesday evening, and Wednesday afternoon interment was made in the Greengrove cemetery, Rev. W. K. Hosterman of the Evangelical church officiating.

The deceased was a son of Howard F. and Catharine Ream Weaver, the latter deceased. He was unmarried, but is survived, together with his father, by three sisters, namely, Mrs. Blaine Bitner and Mrs. Archie Heckman, both of Spring Mills, and Mrs. Martha Corbett, Harrisburg. A brother died in youth.

Mr. Weaver left here twenty years ago, but returned on visits, the last time in July of this year. At that time he stated he expected to take hospital treatment in the near future and related experiences had from internal hemorrhages. Nothing, however, of his last illness was known prior to Saturday when the death message was received by his twin sister, Mrs. Bitner.

The deceased was born December 6, 1896, making his age 39 years, 9 months and 27 days.

Mrs. Luther Martin, of Lewisburg, visited with her aunt, Mrs. S. L. Condo, where they were evening dinner guests. Others who enjoyed the repast were Mr. and Mrs. Lester Condo and children, Florence and Lawrence.

Miss Lena Bressler, employed at the Pennsylvania State Village, was among friends about here Saturday and Sunday.

Jeremiah Gets a 28-inch Carp—Jeremiah Zettie, the fur dealer, captured a beautiful carp in Penns creek, Union county, which measured twenty-eight inches in length and weighed eight and one-half pounds. Later Mr. Zettie, A. B. Lee and Benjamin Kennedy tried their luck in the same stream, but their success is not known.

The brick work on the Ardell Myers private house is completed. The work was done by Joe Wolf.

Spring Mills Vocational trimmed East Penns Valley High in a soccer game in a score of two to one. The next game will be with Rebersburg.

Rebuilding Georges Valley Road—The Georges Valley road from Jeremiah Zettie's to the intersection with Route 53 at Potters Mills, is being rebuilt. The driving surface is being widened and sides cut back, and thoroughly drained. The section east of Zettie's was improved during the early part of the summer. Farmers and others living in the valley are pleased with the project, which is being worked out by PWA men under the direction of A. B. Lee. The road, it is hoped, will be given a hard-finish surface.

FARM CALENDAR.

Timely Reminders from Pennsylvania State College School of Agriculture

Clean Up the Garden—Careful pulling of all old vegetable plants in the fall and either burning or plowing them under does much to retard the increase in diseases and to prevent the winter carry-over of fungi and bacteria. Raking up the broken parts of plants is important, since much of the trash on the ground is due to fungous activity.

Call Out Poor Cows—Many dairymen have insufficient hay, silage, and other roughage to provide an abundance of feed for all their cattle during the winter. One solution of the problem is to cull out all the poor producers and give the good cows the feed thus saved.

Prevent Potato Rot—Careful handling of potatoes and protection from freezing will help to prevent the development of rot in storage. All tubers showing signs of rot or decay and injuries of any kind should be removed when the potatoes are placed in storage.

Select Show Apples—Selection of exhibit fruit while still on the tree permits special care in handling and storage. Show fruit must be free from insect, disease, and mechanical injuries and must be well colored, well shaped, of desirable size, and uniform.

Save Green Tomatoes—When tomato vines heavily laden with green fruit are apparently going to be caught by killing frosts, they may be pulled up and hung in the cellar or frost-proof sheds and will then ripen fruit for some time.
