This sum represents the first of a series of payments to be made by the PWA which will, when finally paid, total \$5,954.

The first payment is equivalent to 25 per cent. of the total cost of the project which is making possible the construction of a combination auditorium and gymnasium to the Spring Mills school, A. \$15,454 will be expended in constructing these additions, yet the cost to the taxpayers of Gregg Twp. will be only \$8,500, or 55 per cent. of the total cost of the project, the balance being contributed by the PWA.

The benefits to Gregg Twp. are numerous. First of all, these needed educational facilities are being made available at a great saving to the local taxpayers, and, secondly, much work has been created, in fact, at least 9,000 man-hours will be required to complete this school addition.
