Britain is supposed to have asked nine nations to protest against Japan's demands on China. That should not worry Japan too much. The same old John Bull got fiftyone nations to protest Mussolini's attack on Ethiopia; but, paying no attention, the able Italian went ahead swallowing Ethiopia; sending the little Haile Selassie 'o live in Switzerland.

Mussolini tells 200 farmers and industrialists to prepare for a "decisive conflict" that will be necessary "to preserve order against anarchy."

Those that favor the "present civilization," he said, will have to preserve it. "We are at the dawn of a decisive conflict between the representatives of order and anarchy.'

European nations are preparing to recognize the Spanish rebels when they take Madrid and set up a national government.

The idea is to take prompt action and forestall the victorious insurgents' giving Spanish territory to Italy or Germany; the Balearic islands to Italy for instance, to use as naval and air bases, with Ceuta for Germany. This would upset the balance of power in the western Mediteranean and disturb old England, with Egypt and the Suez Canal on her mind.

British Foreign Minister Anthony Eden, after hearing of Lord Plymouth's reply, made a speech at Sheffield in which he pledged Great Britain's unwavering support to the policy of nonintervention in Spain. He declared the government was determined to "confine that tragedy within the boundaries of that country."

Leaders of the Fascists were reported to have planned a steady. steam - roller advance on Madrid. and this offensive was already under way. MAURICE THOREZ, French Communist leader, made a speech in Strasbourg that is causing a lot of trouble. He was charged with deliberately insulting Adolf Hitler, and the Berlin government entered formal protest. The official Nazi organ, Der Angriff, says the speech was an attempt to precipitate war between France and Germany, and also that it was an attempt "to overthrow the German reich and to achieve the definite bolshevization of France for the benefit of the Soviet Communist internationale."

The French rightist newspapers declare the Thorez incident was part of the Russian Communist scheme to throw France against Germany so that Russia will not be left alone to face "any eventual German attack." The rightists were even more vigorous in their accusations when it was learned that Maxim Litvinov, Soviet foreign commissar, was secretly in Paris.

A UTHORITY of the national maritime commission to declare a permanent truce in current contract controversies is challenged by the negotiating committee for the Pacific coast maritime unions, and members of those unions are instructed to vote on a proposal for a coast-wide waterfront strike.

The maritime commission had peremptorily demanded that the Pacific coast ports be kept open while it sent an investigator to San Francisco to discuss the conditions which have long threatened to bring on industrial warfare.

In telegrams to President Franklin Roosevelt and the commission, the committee said the commission had caused "great unrest" among the workers through its participation in negotiations between shipowners and dock and shipboard employees.

The seven unions, claiming a membership of nearly 37,000 workers, are the International Longshoremen's association, the American Radio Telegraphists' association, the Marine Engineers' Beneficial association, the Masters, Mates and Pilots of America, the Sailors' Union of the Pacific, Marine Cooks and Stewards, and the Marine Firemen. A RABS of Palestine, who had been on "strike" for 175 days in protest against unrestricted immigration of Jews, were persuaded by the British to call off the strike, which had been accompanied by great disorders and the killing of several hundred persons. The Arab high committee issued an appeal to Arabs throughout the country to return to work quietly, and this command was obeyed generally. B ASING its conclusions on a study covering the period from 1900 to 1935, the National Industrial Conference board finds that there is no evidence to support the theory that the burden of private debt upon business is excessive. Statements that private debt is "absorbing wealth" or is showing a changed and unfavorable relationship to wealth, or that the depression was precipitated by an excessive debt burden are without factual basis, the board reported.

Interest charges have not outrun the capacity to pay them, according to the board's study, which showed that the rates of growth of private long - term debt and of interest charges from 1900 to 1935 were similar to those of national wealth and national income.

Since 1930 private long term debt has tended to decline. Only the public utilities have increased the amount of their outstanding debt. But the board points out that no debt problem exists in the public utility field as a whole and that expansion of the electric light and power utilities has been on a sound basis, with the industry in a safe position to meet interest charges. The steam railroads, taken as a whole, are neither overcapitalized nor overburdened with debt, the board concludes.
