

"Quotations"

Doubt does not involve intellectual suicide, but intellectual modesty.—J. B. S. Haldane. Worry is a form of fear, and all forms of fear produce fatigue.—Bertrand Russell. We are finding out that there is neither time nor room for old habits of thought and action.—King Edward VIII. A capacity for self-pity is one of the last things that any woman surrenders.—Irvin S. Cobb. All great thinkers have made unselfish love the basis of living.—Mary Pickford. The peace of the world depends upon the English-speaking races.—Sir Charles Higham.

Uncle Phil Says:

The Mark Stays Gossip is like mud thrown against a clean wall; it may not stick but it leaves a mark. Smile, smile, smile if you like, but don't pound people over the head in your enthusiasm to make them do it. The life you lead writes its story on your face, but only the clever can read it. There are people who think they are observant, who can't tell you offhand what are the pictures on a one-dollar bill or a five-dollar bill. Ability to Profit There is sometimes much ability in knowing how to profit by good advice. Silence is the wisest argument of the ignorant man and the wise man can frequently use it to advantage. A girl's no-hope chest is one that begins to accumulate interest-bearing bonds. Destroying Accomplishments Can't you see a splendid tree without thinking of the thrill of cutting it down? Apparently some can't and the anticipation overcomes them. Be natural, borrowed garments seldom fit well. Loneliness is a misery that finally wears itself out. One can grow to prefer solitude. A boy changes his voice at the age of fifteen or sixteen, and he changes all his notions, too. Things that "cannot be done" are done within the following twenty years. If his wife is the best dressed woman at the party, a man thinks it's worth it.

Relieve reddened EYES. MURINE FOR YOUR EYES. A Clear Intention Do not dare to live without some clear intention towards which your living shall be bent. Mean to be something with all your might.—P. Brooks.

A Three Days' Cough Is Your Danger Signal. No matter how many medicines you have tried for your cough, chest cold or bronchial irritation, you can get relief now with Creomulsion. Serious trouble may be brewing and you cannot afford to take a chance with anything less than Creomulsion, which goes right to the seat of the trouble to aid nature to soothe and heal the inflamed membranes as the germ-laden phlegm is loosened and expelled. Even if other remedies have failed, don't be discouraged, your druggist is authorized to guarantee Creomulsion and to refund your money if you are not satisfied with results from the very first bottle. Get Creomulsion right now. (Adv.)

Firm Answer A short and firm answer gives one a rest from long annoyance.

Up in the Morning Feeling Fine! The refreshing relief so many folks say they get by taking Black-Draught for constipation makes them enthusiastic about this famous purely vegetable laxative. Black-Draught puts the digestive tract in better condition to act regularly, every day, without your continually having to take medicine to move the bowels. Next time, be sure to try

Decline in Relief Rolls Predicted by Hopkins

IN HIS first press conference since the Presidential election Harry L. Hopkins, works progress administrator, asserted his belief that relief rolls this winter would be at the lowest point since the start of the depression. He estimated that 3,750,000 families and single persons would be receiving federal and local aid January 1, 1937, compared to a peak of 5,316,000 in January, 1935. "I think," Hopkins said confidently, "that we will go into January of this year caring for 1,000,000 less cases than a year ago and a reduction of about 1,500,000 from 1935."

H.L. Hopkins

The administrator's attention was called to the fact that latest figures showed that 3,498,012 persons were employed the first two weeks of October, an increase of 29,020 over the preceding half month. He explained this by pointing out that the drought in the Midwest added 32,831 destitute farmers to his WPA project list.

Steel Workers Ask for Legislation

FIRST of the big groups that aided in the re-election of President Roosevelt to call on him for their reward, the steel workers have asked that the Chief Executive recommend to the next congress the passage of legislation outlawing company unions and forbidding coercion of workers by employers. George A. Patterson and Elmer J. Maloi, employee representatives of the Carnegie-Illinois Steel company, carried this request to the White House.

The Carnegie - Illinois company has offered employees a 10 per cent wage increase on condition that workers sign an agreement to permit adjustment of wages to the cost of living. At his press conference President Roosevelt said living costs should not be permitted to operate to curb wage increases. Furthermore, Secretary of Labor Perkins ruled informally that the employee representatives had no authority to sign such an agreement for their fellow employees.

Labor Board Dissolves Harvester Council Plan

EMPLOYER corporations were hit by a ruling of the National Labor Relations board ordering the dissolution of the "industrial council plan" of the International Harvester company at the plant in Fort Wayne, Ind. While the ruling dealt only with the Indiana plant, the board pointed out that the same plan also exists in the other 14 Harvester plants in the United States and Canada. It sets a precedent also for future decisions in regard to similar plans in other manufacturing plants throughout the country.

The industrial council of the Harvester company is an illegal labor organization under the terms of the National Labor Relations act, the board ruled. Under it the employees possess "only the shadow, not the substance, of collective bargaining," according to the decision. Numerous benefits conferred on the employees under the plan are admitted but the board says most of them "are granted in the form of paternalism."

A. F. of L. Council's Report on Social Security Act

WHEN the American Federation of Labor's annual convention opened in Tampa it had before it the report of the executive council dealing with, among many other topics, the social security act. The report heartily approved of a federal social security program and urged adoption of state laws that would give labor the greatest possible benefit from the federal statute. If the federal law is unconstitutional, the council said, "it is clear that its provisions must be changed or that sanction must be afforded to them through an amendment to the constitution."

The council questioned the wisdom of obtaining the necessary funds through a payroll tax "which to a great extent is to be paid directly or indirectly by the workers involved" and suggested that congress repeal this feature of the law as soon as it convenes. In discussing unemployment since NRA's end, the council said: "The shorter work week and the six hour day furnish the real solution to the insistent problem of unemployment. It is the responsibility that private industry must accept in order to give the necessary balance to economic expansion." The council reported a membership of 3,422,398 on August 31—the greatest since 1921. The council dismissed John L.

Lewis' epochal rebellion with a detailed factual account of its progress during the last year. "Appropriate action" was suggested.

George L. Berry, national co-ordinator for industrial recovery and president of the Printing Pressmen's union, proposed that the controversy with Lewis and his C. I. O. group be ended by arbitration, but this was rejected by President Green and other federation leaders. John P. Frey lost no time in introducing his resolution for expulsion of the rebel unions with their membership of over a million.

President Starts on His Ocean Cruise

PRESIDENT ROOSEVELT went by train to Charleston, S. C., to board the cruiser Indianapolis for a jaunt in southern waters. He said he was not certain where the ship would take him, but in Washington it was assumed that he would proceed at once for Buenos Aires to attend the opening of the Pan-American peace conference on December 1. In that case he will make stops at Port of Spain, Rio de Janeiro and Montevideo, and will not return before December 15. If his plans are changed, he will merely spend two or three weeks fishing in the Caribbean.

At his last press conference before departing the President said he had about completed drafting the 1937 budget. He said also that he had outlined to his subordinates the things he wants done during his absence, these including: Drafting of a farm tenancy law to end evils attending the system of share-cropping and farm tenancy, now chiefly prevalent in the South. Clarifying amendments to the social security act.

Amendments to the Tennessee Valley Authority act, permitting broader social and economic improvement of the regions served by the TVA's huge power projects.

Year's Breathing Spell Likely for Farmers

SECRETARY of Agriculture Wallace in an interview intimates that for a year there may be no new legislation for crop control along the lines of the outlawed AAA, for farmers would like to have one really good crop without forced curtailment. But he added: "We will need some legislation eventually unless the weather changes or the world demand for our products greatly improves." Wallace was asked whether the lack of a control plan might not result in another surplus, leaving the administration up in the air without any machinery to cope with it. He said he could not estimate a surplus ahead of time and that he would rather wait to see what would happen.

Sec. Wallace

Franklin D. Roosevelt, Jr., to Marry Ethel du Pont

THE engagement of Franklin D. Roosevelt, Jr., third son of President and Mrs. Roosevelt, to Miss Ethel du Pont of Wilmington, Del., was announced by the young lady's parents, Mr. and Mrs. Eugene du Pont. There had been rumors of this romance for months, but announcement was delayed until after the election. The wedding will be in June after Mr. Roosevelt's graduation from Harvard, and will be a quiet affair. Miss du Pont's father is a member of the board of directors of the E. I. du Pont de Nemours company. She is a niece of Lamont du Pont, president of the company; of Pierre S. du Pont, chairman of the board, and of Irene du Pont, another director of the board. She was presented to society on June 27 last.

Loyalists Defend Madrid With Desperation

LOYALIST defenders of Madrid, reinforced by troops from the southeast and apparently supplied with airplanes and tanks from Russia, put up unexpected resistance to the furious attacks of the Fascists, delaying the capture of the capital. The insurgents sent many planes to rain bombs on the city and there were dramatic battles in the air as well as on land. The attackers at one time smashed the defending lines at the Los Franceses bridge and forced their way across the Manzanares river and into the northwest quarter of Madrid, but probably retired, for the loyalists dynamited the bridge and captured several rebel tanks. The new supreme defense council in the capital, taking charge when the president and other government officials fled to Valencia, was reported to be functioning smoothly and was confident of ultimate victory over the rebels, even if Madrid were lost to them.

Clark Howell, Eminent Editor, Is Dead

CLARK HOWELL, editor and president of the Atlanta Constitution and one of the best known journalists in the United States, died at his home in Atlanta at the age of seventy-three after a long illness. He was one of the original directors of the Associated Press. He was elected to the position at the time of its incorporation in 1909 and held it at the time of his death. Always active in state and national politics, Mr. Howell was a pioneer in the formation of "Roosevelt for President" clubs. He was offered his choice of several diplomatic posts in 1933 but declined, saying he felt he could better serve the President and the nation as publisher of the Constitution. He was at various times a member of temporary national commissions, but in the main devoted his time to his journalistic labors. A few years ago the Constitution won the Pulitzer prize for "meritorious service" in exposing political conditions in Atlanta.

BRISBANE THIS WEEK

End of the Treaty Millions for New Farms Too Many Apologies The Mirror Monocle

Chancellor Hitler has demolished the remaining fragments of the Versailles treaty, notifying the great powers that they may no longer control, as they have done since 1918, the principal rivers of Germany. The Rhine, Elbe, Oder and Danube rivers, within German territory, now return to German control and France is content to ask other powers to join a protest. Mere protests amount to little in European diplomacy, as the world learned from the Ethiopian war.

Arthur Brisbane

That settles, finally, the Versailles treaty, a foolish effort to enslave a nation that made the emergence of this, or some other, Hitler inevitable. Mr. Tugwell seeks an appropriation of five hundred million dollars to provide poverty-stricken farmers, now on worthless farms, with other land that will support them; also barns, houses, out-buildings. He thinks \$50,000,000 a year for ten years would do the work, and plans to vacate 9,000,000 "worthless acres."

Anything that will diminish human misery is desirable, even though incompetency may be in part responsible for the trouble. In England, the government, guided by experts, is making excellent pasture lands of soil that was worthless. Our government might investigate that process. General Markham, chief army engineer, advises putting an air base in the harbor of our Midway island, far away in the Pacific ocean. The War Department says, apologetically, that this would be a commercial development, although it might be useful for defense.

Why an apology? Nobody in Europe, Asia or Africa apologizes to us for building an air base, or asks our opinion about it. The War department says there is no treaty obligation forbidding such an air base. If there were, what of it? Treaties can be cancelled, and should be when they are foolish or unjust—for further details, ask Hitler. Germans are said to be wearing a new eyeglass called a "spy monocle." Arranged to look like the ordinary single eyeglass, the "spy monocle" is arranged with a mirror, permitting the wearer to look behind him and see if there is anybody listening to his conversation. German police eagerly discourage any one who suggests that the Nazi government is not perfect.

Government Buys 9 Million Acres of Poor Farm Land

REXFORD G. TUGWELL, Resettlement administrator, announced that the government had acquired more than nine million acres of land considered unsuitable for crop production, and he added that it should buy ten times as much. The Resettlement administration is committed to pay \$39,916,603 for the land, under option in 210 different projects in 44 states at an average price of \$4.40 an acre. These acres, Tugwell said, "could not support human subsistence" when used as they have been, and so were being restored to grazing, forestry, recreation, and other uses for which they were naturally fitted. Tugwell reported 5,476 families still residing on the tracts "will need aid in resettling." More than 2,000 families already have been moved, it was disclosed, and many others found new homes without aid.

Hitler Scraps Another Treaty Clause

ADOLF HITLER has torn up another clause of the Versailles treaty—the one that internationalized the German rivers and canals. He has announced that the reich has resumed sovereignty over all such waters. The treaty clause was designed partly to give Czechoslovakia free access to the sea, and that nation now has agreed with Belgium to protest formally against Germany's action. British Foreign Minister Eden rather mildly criticized Hitler's course.

Belgium Asks Specific Pledge From League

WITH embarrassing directness, Belgium has demanded that the League of Nations be specific on what help an attacked member nation "could count on." In a note, she demanded clarification of the league covenant, particularly the article applying to sanctions against an aggressor. Efforts to prevent war should be emphasized by the league, Belgium said, and measures against countries which endanger peace should be improved upon. In a recent speech to parliament, intended to clarify a previous address by King Leopold, Foreign Minister Spaak said his country would assure both Germany and France that Belgium never would become the jumping off place for an attack on the territory of either power.

San Francisco's Bridge Formally Opened

SAN FRANCISCO'S dream of 30 years was realized when the great bridge across the bay of Oakland was formally opened with elaborate ceremony. This largest vehicular bridge in the world has been under construction since July 19, 1933, at a cost of \$77,000,000, the funds being largely supplied by the Reconstruction Finance corporation. It is eight and a quarter miles long and, except for a tunnel passage through Yerba Buena island, is entirely over water.

Ask Me Another A General Quiz

© Bell Syndicate.—WNU Service.

- 1. In court procedure, what does "in camera" mean?
2. Did Lincoln's assassination precede or follow Lee's surrender?
3. What elements make up the dentist's laughin' gas?
4. Where is Faneuil Hall?
5. What is the Nibelungenlied?
6. Where are the Society Islands?
7. What relation was Napoleon III to Napoleon I?
8. What is the Nibelungenlied?
9. Where are the Society Islands?
10. What relation was Napoleon III to Napoleon I?
11. Who was William Harvey?
12. Who was the first president of the German Republic?
13. What is "turbid" water?

Answers

- 1. Not in public court; privately.
2. Lincoln was shot April 14; the surrender took place April 9, 1865.
3. Nitrogen and oxygen.
4. In Boston.
5. A medieval German poem, telling of the Nibelungs, a supernatural race.
6. In the South Pacific.
7. Nephew.
8. An English physician who discovered the circulation of the blood.
9. Frederick Ebert.
10. Water cloudy or muddy.

How Many Pennies Your Child's Life?

Don't Try to "Save" on Home Remedies—Ask Your Doctor

There is one point, on which practically all doctors agree. That is: Don't give your child unknown remedies without asking your doctor first. All mothers know this. But sometimes the instinct to save a few pennies by buying "something just as good" overcomes caution. When it comes to the widely used children's remedy—"milk of magnesia"—many doctors for over half a century have said "PHILLIPS." For Phillips' Milk of Magnesia is the standard of the world. Safe for children. Keep this in mind, and say "PHILLIPS' MILK OF MAGNESIA" when you buy. Comes now, also in tablet form. Get the form you prefer. But see that what you get is labeled "Genuine Phillips' Milk of Magnesia." 25¢ for a big box of the tablets at drug stores.

PHILLIPS' MILK OF MAGNESIA

Worthless Rule Hating people is like burning down your own home to get rid of a rat.—Fosdick.

Miss REE LEEF says:

'CAPUDINE relieves HEADACHE quicker because it's liquid... already dissolved'

Rid Yourself of Kidney Poisons

DO you suffer burning, scanty or too frequent urination, backache, headache, dizziness, loss of energy, leg pains, swellings and puffiness under the eyes? Are you tired, nervous—feel all unstrung and don't know what is wrong? Then give some thought to your kidneys. Be sure they function properly for functional kidney disorder permits excess waste to stay in the blood, and to poison and upset the whole system. Use Doan's Pills. Doan's are for the kidneys only. They are recommended the world over. You can get the genuine, time-tested Doan's at any drug store.

DOAN'S PILLS
