PUPILS PREFER TO CHEW GUM INSTEAD OF BOOTS

"Want better teeth? Chew your boots instead of the old favorite chewing gum," said Mr. Montague, the Arctic explorer discussing the way to better and stronger teeth. Americans probably wouldn't be able to chew sole leather at first as the Eskimos do but they could start on a nice soft pair of kids, then the American teacher wouldn't always have to be pointing to the waste paper basket and say, "spit that gum out."

In a survey of the students to determine what kind of chewing gum they prefer, the question was not answered as they seem to like all the brands.

Beechnut seems to carry the poll in the junior class, fourteen out of twenty-one pupils preferring it.

The seniors, sophomores and freshmen do not seem to have much choice. Another question, "how long do you chew a piece of gum," received answers varying from ten minutes, to four or five days.

The teachers were not forgotten in the survey and probably the shortest length of chewing is named by Mrs. Jamison who chews a stick only two minutes and prefers, Beechnut. Mr. McCormick and Mr. Wetzel prefer the good old-fashioned tawberry, chewing at a stick about a half hour or sometimes a half day. Miss Beman prefers Beeman's gum and chews it until "the end of the game." Mr. Myers has as his choice wintergreen and seems to think it wears out within one hour.

A freshman, Robert Foust, said he chewed his gum from four to five days if he could keep it that long; others, "until the teacher takes it from me."

One of the wise sophomores, "Ted" Bradford, said he chewed his gum one-half day or eight to twelve, another one, Leroy Brooks, two hours of steady chewing.

A senior, Geraldine Bradford, finds it very economical to chew a stick of gum about a day and then put it away someplace until the taste comes back. Another one of the seniors, Alfred Reish, chews a pack a week, but at the same time only chews it through a movie so he must attend the movies five nights out of a week.

Mr. Myers thinks that Mary Ellen Haskell '39, Mildred Meyers '38, Bertha Bradford '38, Geraldine Bradford '37, Jane Spiker '40, and Lois Arney '40 are the champion gum chewers in the school. Mr. McCormick says, "without a doubt Mary Ellen is the

champion;" but they must be mistaken as this survey proves them as only second rate, and places Kathryn Smith '37 and Lois Rees '38 at the top, by their own confession.

HOLLYWOOD STARS IN SCHOOL SURVEY SHOWS

A sophomore survey of the entire student body to determine the promising movie stars in school, shows that the students believe there is a great wealth of Hollywood material in C. H. H. S. at present.

To replace the buxom Mae West, the voters selected Mary Ellen Haskell '39, Mary Swartz '39, Lois Ruble '37, and Agnes Neff '38.

As the glister villain, Ralph Arney '38 scored high, and Francis Snyder '39, George Martz '40, William Thomas '37, Eugene Emerick '37 and Donald Faust '38 were runners-up.

Dean Smith '40 and Dick Johnston '37 hold top honors for the "dashing hero," but Kenneth Runkle '40, Robert Blazer '38, and George Emerick '38 also scored.

As the charming heroine Lillian Rickett '39, Lois Arney '40, Martha McClellan '39, Jean Slack '38, Helen Haskell '38 and Miriam Homan '39 received the greatest number of votes.

Every Hollywood must have its comedians and Bob Gerhart '38 has been selected as "Slim" Summerville. Bill Kerlin '39 as "Joe" Penner, Mildred Homan '38 as a "fussy" woman; Donald Goodhart '37 as a tax collector and Charles Ramer '37 as a "relay racer."

For the more glamorous stars Arch Ishler '37 as the temperamental Garbo, Geraldine Bradford '37 as Ginger Rogers, and Iona Barger '39 as the siren Jean Harlow, were selected.

Alfred Reish '37 and Leona Fye '40 received the most votes for "Romeo and Juliet."

C. H. H. S. SEES MOVIES ON SCIENCE, INDUSTRY

A moving picture account of a trip "around the world" in ten reels will be shown to the students of the high school during the month of February. Mr. Wetzel announces.

These movies have been shown lately to the students: "From Catch to Can," a story of catching and canning sardines; and "Digging Up the Past," showing how dinosaurs have been excavated in the Red Deer Valley of Canada.

Jack Kirkpatrick '38 operates his own projector to present these films to the students.

Homemakers' Exchange of Helpful Household Hints and Recipes

In order to put candles in your candlestick holders so they will stand securely, put a small quantity of melted paraffin into the candlestick with a teaspoon and set the candle in the paraffin; it is then held taut and straight.

When making a cake, remember to remove the eggs from the refrigerator about one-half hour before using. They will whip more easily and more satisfactorily when allowed to reach room temperature before beating. This idea works equally well when making meringue for pies.

Here's a recipe for CHILLED GRAHAM CRACKER PASTRY which can be prepared ahead of time and stored in the refrigerator until needed. If kept in a modern ice refrigerator, the mixture will not dry out or absorb odors from other foods. Combine one cup graham cracker crumbs, 1/4 cup of sugar and 1/2 cup melted butter. Work together lightly until well blended. Press into pie plate, shaping firmly all around. Chill in ice refrigerator until ready to use; then add favorite filling and serve.

When a cooked icing will not harden, add powdered sugar. The icing will immediately stop going places and doing things and behave itself!

The next time you make pastry, try substituting fresh orange juice for the water usually used. Keep in modern ice refrigerator until needed. Bread, cake and pastry mixes, stored in an ice refrigerator, stay fresh indefinitely.

Here is a method for dyeing children's faded clothes and at the same time for preventing lace trimmings on the garments from being dyed also: With an old toothbrush cover the trimming with melted paraffin, remembering that care should be taken not to have the dye too hot when dipping the dress. Lift up and down several times in the dye until correct shade is reached. (To assure even, uniform tint, use melted ice—manufactured ice water.) When the garment is dry, remove the paraffin and the trimming will be as bright and new as ever.

Here's a grand recipe for CHERY CHIFFON PIE. Heat 1 cup of cherry juice to boiling point. Add 3/4 package of cherry-flavored gelatin and stir until dissolved. Remove from fire and chill in modern ice refrigerator. When gelatin is partially congealed add 1/2 cup of chopped cherries, mix as quickly as possible, and return to the refrigerator. Beat 2 egg whites until frothy. Add 1/4 cup of sugar gradually and continue beating until a stiff meringue is formed. Fold meringue into cherry mixture and pour into a baked pastry shell. Chill four hours in ice refrigerator. (Makes one 9 inch pie.)

If crocheting a spread, as so many women are doing nowadays, remember to purchase an extra ball of yarn for repair work; thus avoiding the possibility that the yarn cannot be matched later.

In order to keep a child covered in cold weather sew elastic to the two upper corners of the blanket and fasten these to a strap fastened to the head of the bed instead of using the "pinning" method. The elastic gives, but the youngster keeps covered.
