Suspicion pointed to Lingle as the guilty party and after a short investigation, Lingle was taken into custody. He refused to pay his fine and was remanded in the custody of the sheriff.

"CHINESE DOCTOR"

"They say a Chinese doctor is paid to keep patients well rather than to cure them after they're taken ill. My job's a lot like that. I'm a wire chief in a telephone office. Here we control a great network of wires that make up the brain and nervous system of your telephone service. It's a big responsibility because if we fall down on the job—your service might fall down, too. That must not happen. So, day and night, we're constantly checking circuits, wires, frames and switches to prevent trouble. Checking to find trouble before you find it—to stop it before it affects your service."

No matter how much equipment we have in our central offices, your telephone service will not be all it should be unless you have adequate telephone equipment in your home, office, store or factory. Are you taking advantage of the latest developments? Is your telephone equipment adequate to meet your needs—now? Why not be sure? We'll be glad to check up for you. No obligation, of course. Just call the Business Office.
